

GradeSpeed

DoDEA began utilizing GradeSpeed during the 2008-2009 School Year, in its 4th - 12th grade classrooms worldwide. GradeSpeed will make communication between parents and teachers easier, more effective and more timely.

Through this web-based program, parents will be able to log in and see grade and attendance data for their children. Teachers will be able to email progress reports to parents. After logging in, parents will also be able to view school announcements, calendar events, and correspond with teachers by posting notes.
