<sup>2</sup> *Public Notice*, Auction of Licenses for 800 MHz Specialized Mobile Radio (SMR) Frequencies in the Lower 80 Channels Scheduled for September 13, 2000, DA 00-668 (rel. March 23, 2000), 65 Fed. June 23, 2000) (rescheduling auction from Sept. 23<sup>rd</sup> to Nov. 1, 2000, and announcing procedures and minimum opening bids).

Potential bidders are reminded that certain filings, including waiver requests, petitions for reconsideration, and applications for review, are pending before the Commission and relate to particular applicants or incumbent 800 MHz licensees. Resolution of these matters could affect the availability of spectrum for licensees in the 800 MHz bands. While the Commission will continue to act on such pending matters, some of these matters may not be resolved by the time of the 800 MHz auctions.

To aid potential bidders, attached to this public notice is a list of matters that are known to be pending before the Commission, as of June 28, 2000, and which relate to the licenses or applications for 800 MHz channels covered either by Auctions 34 or 36 (*see* Attachments A, B, and C, respectively). The Commission makes no representations or guarantees that the listed matters are the only pending matters that could affect spectrum availability in the 800 MHz band in Auctions No. 34 and 36. Potential bidders are solely responsible for investigating and evaluating the degree to which such pending matters may affect spectrum availability in areas where they seek licenses.

Copies of the pleadings related to the matters listed in the attachments to this public notice are available for public inspection and copying by contacting either Esther Hayes or Louann Laughman by phone at (717) 338-2604, or by mail via Licensing and Technical Analysis Branch, Commercial Wireless Division, Wireless Telecommunications Bureau, Federal Communications Commission, 1270 Fairfield Road, Gettysburg, PA 17325. Copies of the pleadings may also be obtained from the International Transcription Service, Inc. (ITS), 1231 20th Street, N.W., Washington, DC 20036. In addition, potential bidders may use the Internet to research the Bureau's licensing databases in order to determine which frequencies are already licensed to incumbent licensees. Potential bidders may have to select other databases to perform research because the 800 MHz incumbent licensing records have not yet been converted to the Universal Licensing System (ULS). The licensing database (not the pleadings) is available for on-line review.<sup>3</sup> Additionally, the Land Mobile database may also be queried online.<sup>4</sup>

The Commission makes no representations or guarantees regarding the accuracy or completeness of information that has been provided by incumbent licensees and incorporated into the databases. Potential bidders are strongly encouraged to physically inspect any sites located in or near the geographic area for which they plan to bid.

### **Parties May Submit Additions or Corrections**
