From the edge of space to the bottom of the ocean...

# Discover Your World with NOAA

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

Flying into the eye of a hurricane

Rescuing killer whales, sea lions, and dolphins

Watching the Earth from 22,000 miles above the ground

Diving into submarine canyons that could swallow Mt. Everest

Restoring marshes, wetlands, reefs, and other marine habitats

Saving lives threatened by tsunamis, tornadoes, and killer storms

All in a day's work for the people of NOAA as they put science, technology, and engineering to work for you. Every day, NOAA helps people with local weather forecasts, tornado warnings, oil spill cleanup, high quality seafood, navigation tools, and many other services. NOAA is also a leader in ocean exploration and environmental sciences, finding out more about the Earth and how to use and protect our planet's resources.

NOAA's motto is "Science, Service, Stewardship." Putting that motto into action leads the people of NOAA from the edge of space to the bottom of the ocean. These activities are designed to help you learn more about our world, and how NOAA helps you to explore, understand, and protect our Earth.

## HAVE FUN!
