

Designing LID to Work: Lessons Learned from North Carolina

December 9, 2010

2 hour webcast

Eastern: 1-3p.m.

Central: 12noon.-2p.m.

Mountain: 11a.m.-1p.m.

Pacific: 10a.m.-12noon.

A Watershed Academy Webcast

Join us for the webcast “Designing LID to Work: Lessons Learned from North Carolina.” North Carolina is a geographically diverse state spanning mountain, piedmont and coastal regions, making its low impact development (LID) implementation progress a model for many states across the country. North Carolina State University is a national leader in the study of LID and has advanced LID research and implementation, including the development of the state’s LID guidance, the “North Carolina LID Guidebook.” The NC State Cooperative Extension’s LID certification program also has the potential to be replicated nationally. This webcast will feature a discussion of barriers to LID implementation and the progress that is being made to address them from a “boots on the ground” perspective of the NC State Cooperative Extension, as well as a landscape architect who is making LID a reality.

Instructors:

Dwane Jones, Extension Associate, North Carolina State University, Cooperative Extension.

Dwane Jones is an Extension Associate with the Biological and Agricultural Engineering Department at NCSU. Dwane provides extension training and workshop courses pertaining to water quality, urban planning and design, low impact development, and conservation design. He has degrees in Urban and Regional Planning, Environmental Planning, and Technology Systems. Dwane is currently pursuing a Ph.D. in Urban Design with the College of Design at North Carolina State University. This degree includes the programs of architecture, landscape architecture, and urban design.

Heather Burkert, RLA, LEED – AP, Principal, President, H. Burkert & Co. Landscape Architect.

Heather Burkert is a Landscape Architect registered in both North Carolina and South Carolina. She received a Bachelor of Horticulture Science from Michigan State University and has been practicing landscape architecture since 1973. She has also served on the New Hanover County Arboretum Board, Brunswick Housing Coalition, and the NCSU Extension Advisory Leadership Board. Heather’s passion is to create stimulating public and private projects that redefine quality of life, sustainability, eco-respect, and practicality. Her designs have earned an Award of Merit from the National Landscape Association and three awards from the Lower Cape Fear Stewardship Program for Low Impact Development (2008, 2009).

The Watershed Academy

The Watershed Academy is a focal point in EPA’s Office of Water for providing training and information on implementing watershed approaches. The Academy sponsors live classroom training and online distance learning modules through the Watershed Academy Web at www.epa.gov/watertrain. For more information, visit www.epa.gov/watershedacademy.

Registration

You must register in advance to attend this webcast. Register at the Watershed Academy Webcast Website at: www.epa.gov/watershedwebcasts. Note: Your computer must have the capability of playing sound in order to attend this webcast. To view archived webcasts, go to www.epa.gov/watershedwebcasts/archives.html.
