Born on date: 14 SEP

Status: Active

FRCP LOE: Resiliency

POC: DFMWR-SLO

Scope:

My children were denied access to school on post. I am a civilian and I received word 1 week prior to school starting that they did not have a space for them. I had to scramble to find a placement for them in Junction City. This was very stressful. The method and timing of these types of communication needs to be improved.
