Dear Mr. Mollenkopf:

Between April and June 2011, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) inspected Markwest Oklahoma Gas Company, LLC (Markwest) pipeline facilities and Operations and Maintenance Procedures. As a result of the inspection, Markwest was issued a Notice of Amendment on September 7, 2011. This Notice proposed amendment of your procedures to assure safe operation of your pipeline facilities.

Markwest submitted its amended procedures from October 2011 through April 2012. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous
Materials Safety Administration
