TRAINING: No.

REMARKS: IMC 2604, "License Performance Review," is a complete re-write of the document to align with IMC 0040, and to incorporate feedback from NMSS and R-II. Revised guidance was provided to clarify roles and responsibilities, to update definition of ANI, to modify the Exhibits and the description of the LPR process. Also added guidance for facilities that are operating and constructing at the same time, and added the revision history page.

IMC 2810, "Master Material License Oversight and Inspection Program," was revised to include recommendations from OIG Audit (OIG-11A-14)

DISTRIBUTION: Standard.
