NOTE TO EDITORS: NRC/CONSTELLATION MEETING POSTPONED

A planned meeting between officials from the Nuclear Regulatory Commission and Constellation Energy Group to discuss a license renewal inspection conducted at Nine Mile Point has been postponed. A new date has not been set.

The meeting had been scheduled for March 3 to discuss the NRC's inspection of the aging management program for Units 1 and 2 of the Nine Mile Point nuclear power plant. The inspection is part of the NRC review of a license renewal application for the plant, which is located in Scriba, N.Y. The meeting is postponed because the NRC has not completed its inspection activities.
