

## Students with Allergies

The Child Nutrition Office will gladly make substitutions for your children with allergies at breakfast and lunch however, for the safety of your children we will need a statement from the physician stating the allergy and what the substitution should be. We will continue to provide food substitutions we have on file until 1 November 2010 to give you sufficient time to get the medical statement required. If you have any questions, please contact the nurse at your child's school.
