Mr. Mike Joynor  
Vice President, Operations  
Alyeska Pipeline Service Company  
3700 Centerpoint Drive  
P.O. Box 196660, MS 502  
Anchorage, AK 99519-6660

**RE: Closure of Corrective Action Order  
CPF 5-2010-5017H**

Dear Mr. Joynor:

On May 27, 2010, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued a Corrective Action Order (CAO) in the above-referenced case. The CAO required Alyeska Pipeline Service Company (Alyeska) to take corrective actions on the Trans-Alaska Pipeline System (TAPS) and at Pump Station 9 (PS09) to protect public property and the environment from the hazards associated with the operation of your hazardous liquids pipeline system.

Having reviewed the records and the work performed on TAPS at PS09, PHMSA has determined that Alyeska has satisfactorily complied with the terms of the CAO. Therefore, in accordance with Item 7 of the CAO, I approve the submissions and this case is now closed.

Thank you for your cooperation in this matter.

Sincerely,

Chris Hoidal  
Director, Western Region  
Pipeline and Hazardous Materials Safety Administration
