52.242-15	Stop Work Order	AUG 1989
52.242-17	Government Delay of Work	APR 1984

2. Submittals

Any required submittal of policy manuals, written policy, instructions or procedures, unless otherwise specified, are due 30 days after award of the contract. Submittals shall be submitted to the DHS COTR with the required number of copies as noted. DHS approval will be required on all submittals prior to them becoming effective. The Government will provide approval no later than 30 days upon receipt on the initial submittals. See Attachment 5 for a detailed breakdown of all written submittals, due dates, and references. The contractor may not make changes to any submittals with out prior approval, all proposed changes must be clearly annotates when submitted for review and approval.

3. Period of Performance

The Government contemplates the award of one firm fixed price, indefinite delivery, indefinite quantity, task order type contract for the required services describe herein.

The base period will commence on October 1, 2003 for the base one-year period. There are four (4) one-year options under the contract. The option years shall commence on the anniversary date of the base period and/or option period for a one year period. The DHS has the unilateral right to exercise the options under the contract, provided it sends a notice of intent to do so to the Contractor 60 days prior to expiration of the current contract period. The total possible length of the contract is five (5)years from the beginning of the base period.

4. MONETARY ADJUSTMENTS FOR INADEQUATE PERFORMANCE

- A. Each month, the Contractor's performance will be compared to contract standards and acceptable quality levels using the Performance Requirement Summary (PRS), (see attachment #2). Through the Inspection of Services clause, the Government can deduct from a Contractor's payment an amount equal to the services not provided. If performance of a required service is unsatisfactory and the unsatisfactory performance is clearly the fault of the Contractor, an amount of money up to the maximum payment percentage stated in column six of the PRS may be deducted from the monthly invoice.

The value of a specific required service is found on the PRS sixth column ; this percentage is applied to the contract's monthly price for the contract line item number CLIN associated with that specific service.

In the example below the maximum payment percent for meeting the PR is 10 percent. This is multiplied by \$100,000 to obtain the maximum amount of payment. If completed work was unsatisfactory during the month (that is, it exceeded the Maximum Error Rate (MER), and the percent of the sample found satisfactory was 80 percent, \$8,000 would be paid in lieu of the \$10,000 payment normally due the Contractor.

The payment amount is reduced because the Contractor failed to provide reliable, uniform services within the assigned performance requirements. Although some completed work may have met the standard during the month, the acceptable quality level was not met and at least 20 percent of the observations were defective. Hence, the total quality performance requirement has not been achieved; as a consequence, the service received is unsatisfactory.

Example of unsatisfactory performance sampling deduction:

If: Quality of completed work is unsatisfactory (exceeded MER of 5 percent)
and: Contract price is \$100,000 for this month
and: The maximum payment percent for the required service to total contract price is 10 percent
and: Sample size is 50
and: Number of defects in the sample is 10

Then: Payment for quality completed work is:

Contract price	\$100,000
X Payment percentage	<u>.10</u>
	\$ 10,000
X Percent of sample good	<u>.80</u>
Payment for this service	\$ 8,000

The taking of deductions shall not be deemed to waive or limit any right of the Government under any Default and Termination Clauses, or the Inspection of Services clause. Depending on the Contractor's overall performance for example, repeated instances of nonperformance or unsatisfactory performance), the government may issue a Cure Notice or a Show Cause letter or terminate the contract.

B. In addition to the deductions identified in (A) above, a deduction also will be taken as follows:

Escapes where it has clearly been determined by investigation by the Service that the Contractor employees' performance involved acquiescence, negligence, misconduct, lack of diligence, good judgement, and/or good common sense – deduction = \$1,500.00.

Failure to notify DHS in writing immediately of any individual withdrawn from the application process – deduction = \$1,900.00.

5. Task Orders

Task orders will not be issued until security clearances have been completed for individuals to work under this contract.

6. Evaluation of Performance for Contractor Performance Reports

Past performance information is relevant information regarding a Contractor's actions and conduct on previously awarded contracts. It includes such things as a Contractor's ability to conform to contract requirements and specifications, adherence to contract schedules, quality performance, cost control, reasonable and cooperative behavior, and commitment to customer satisfaction.

For active contracts valued in excess of \$100,000.00 dollars, the Federal Acquisition Regulation (FAR) requires federal agencies to prepare Contractor performance evaluations (report cards). Report cards are completed and forwarded to the Contractor for review within thirty (30) calendar days from the time the work under the contract is completed for each contract year. Interim evaluations by the Contracting Officer may be completed as necessary. The Contractor has thirty (30) days to reply with comments, rebutting statements, or additional information that will be made part of the official record. Performance evaluation reports will be available to Government contracting personnel for their use in making responsibility determinations and source selection purposes on future contract actions.

Central Contractor Registration (Oct 2003)

(a) Definitions. As used in this clause- "Central Contractor Registration (CCR) database" means the primary Government repository for Contractor information required for the conduct of business with the Government. "Data Universal Numbering System (DUNS) number" means the 9-digit number assigned by Dun and Bradstreet, Inc. (D&B) to identify unique business entities. "Data Universal Numbering System +4 (DUNS+4) number" means the DUNS number assigned by D&B plus a 4-character suffix that may be assigned by a business concern. (D&B has no affiliation with this 4-character suffix.) This 4-character suffix may be assigned at the discretion of the business concern to establish additional CCR records for identifying alternative Electronic Funds Transfer (EFT) accounts (see the FAR at Subpart 32.11) for the same parent concern.

"Registered in the CCR database" means that-

- (1) The Contractor has entered all mandatory information, including the DUNS number or the DUNS+4 number, into the CCR database; and
- (2) The Government has validated all mandatory data fields and has marked the record "Active".

(b)(1) By submission of an offer, the offeror acknowledges the requirement that a prospective awardee shall be registered in the CCR database prior to award, during performance, and through final payment of any contract, basic agreement, basic ordering agreement, or blanket purchasing agreement resulting from this solicitation.

(2) The offeror shall enter, in the block with its name and address on the cover page of its offer, the annotation "DUNS" or "DUNS +4" followed by the DUNS or DUNS +4 number that identifies the offeror's name and address exactly as stated in the offer. The DUNS number will be used by the Contracting Officer to verify that the offeror is registered in the CCR database.

(c) If the offeror does not have a DUNS number, it should contact Dun and Bradstreet directly to obtain one.

(1) An offeror may obtain a DUNS number-

- (i) If located within the United States, by calling Dun and Bradstreet at 1-866-705-5711 or via the Internet at <http://www.dnb.com>; or
- (ii) If located outside the United States, by contacting the local Dun and Bradstreet office.

(2) The offeror should be prepared to provide the following information:

- (i) Company legal business.
- (ii) Tradestyle, doing business, or other name by which your entity is commonly recognized.
- (iii) Company Physical Street Address, City, State, and Zip Code.
- (iv) Company Mailing Address, City, State and Zip Code (if separate from physical).
- (v) Company Telephone Number.
- (vi) Date the company was started.

(vii) Number of employees at your location.

(viii) Chief executive officer/key manager.

(ix) Line of business (industry).

(x) Company Headquarters name and address (reporting relationship within your entity).

(d) If the Offeror does not become registered in the CCR database in the time prescribed by the Contracting Officer, the Contracting Officer will proceed to award to the next otherwise successful registered Offeror.

(e) Processing time, which normally takes 48 hours, should be taken into consideration when registering. Offerors who are not registered should consider applying for registration immediately upon receipt of this solicitation.

(f) The Contractor is responsible for the accuracy and completeness of the data within the CCR database, and for any liability resulting from the Government's reliance on inaccurate or incomplete data. To remain registered in the CCR database after the initial registration, the Contractor is required to review and update on an annual basis from the date of initial registration or subsequent updates its information in the CCR database to ensure it is current, accurate and complete. Updating information in the CCR does not alter the terms and conditions of this contract and is not a substitute for a properly executed contractual document.

(g)

(1)

(i) If a Contractor has legally changed its business name, "doing business as" name, or division name (whichever is shown on the contract), or has transferred the assets used in performing the contract, but has not completed the necessary requirements regarding novation and change-of-name agreements in Subpart 42.12, the Contractor shall provide the responsible Contracting Officer a minimum of one business day's written notification of its intention to (A) change the name in the CCR database; (B) comply with the requirements of Subpart 42.12 of the FAR; and (C) agree in writing to the timeline and procedures specified by the responsible Contracting Officer. The Contractor must provide with the notification sufficient documentation to support the legally changed name.

(ii) If the Contractor fails to comply with the requirements of paragraph (g)(1)(i) of this clause, or fails to perform the agreement at paragraph (g)(1)(i)(C) of this clause, and, in the absence of a properly executed novation or change-of-name agreement, the CCR information that shows the Contractor to be other than the Contractor indicated in the contract will be considered to be incorrect information within the meaning of the "Suspension of Payment" paragraph of the electronic funds transfer (EFT) clause of this contract.

(2) The Contractor shall not change the name or address for EFT payments or manual payments, as appropriate, in the CCR record to reflect an assignee for the purpose of assignment of claims (see FAR Subpart 32.8, Assignment of Claims). Assignees shall be separately registered in the CCR database. Information provided to the Contractor's CCR record that indicates payments, including those made by EFT, to an ultimate recipient other than that Contractor will be

considered to be incorrect information within the meaning of the "Suspension of payment" paragraph of the EFT clause of this contract.

(h) Offerors and Contractors may obtain information on registration and annual confirmation requirements via the internet at <http://www.ccr.gov> or by calling 1-888-227-2423, or 269-961-5757.

(End of clause)

Alternate I (Oct 2003). As prescribed in 4.1104(a), substitute the following paragraph (b) for paragraph (b) of the basic clause: (b)(1) The Contractor shall be registered in the CCR database by December 31, 2003. The Contractor shall maintain registration during performance and through final payment of this contract. (2) The Contractor shall enter, in the block with its name and address on the cover page of the SF 30, Amendment of solicitation/Modification of Contract, the annotation "DUNS" or "DUNS +4" followed by the DUNS or DUNS +4 number that identifies the Contractor's name and address exactly as stated in this contract. The DUNS number will be used by the Contracting Officer to verify that the Contractor is registered in the CCR database.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work,

there is no requirement that employees be reimbursed for uniform maintenance costs.

** NOTES APPLYING TO THIS WAGE DETERMINATION **

Source of Occupational Title and Descriptions:

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations," Fourth Edition, January 1993, as amended by the Third Supplement, dated March 1997, unless otherwise indicated. This publication may be obtained from the Superintendent of Documents, at 202-783-3238, or by writing to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Copies of specific job descriptions may also be obtained from the appropriate contracting officer.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)}

When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage

rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.

3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).

4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.

5) The contracting officer transmits the Wage and Hour decision to the contractor.

6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

B. Changes to the contract incorporated in SECTION C:

The Contractor's proposal, dated July 15, 2004 and subsequent negotiations on July 19 and 21, 2004 are incorporated into the contract as follows:

IN SECTION C - Goal (Page C-1)

The reduction of non-criminal females population to a maximum of 100 (not including the Optional CLIN)

The contract is to be changed in all areas of Section C to provide for the incorporation of 100 non-criminal male detainees.

There is no change in the guaranteed minimum in the contract.

The resulting need to segregate the male and female population requires minimal additional staff as well as, physical enhancements to the facility. (See Attachment I- Daily Detainee Activity Schedule)

The selection criteria for placement of the male population is the same for the current female population.

There will be a requirement that the male detainee population will wear some type of identifiable uniform. This would enhance the visual control in maintaining separation of the male and female population and would increase the
