July 15th is the last day to report CRP/CREP acreage.

NOTE: For ALL producers November 15th is the deadline to report hay, pasture, and any other forage crops. PRF is a crop insurance program for Pasture, Rangeland, and Forage producers. Since producers who purchase this policy are required to report acreage BEFORE the growing season starts and insurance liability attaches to the crops, it has been decided that ALL producers of pasture, hay, and forage crops will be required to report acreage by this date.
