**Attachments:** Sole Source Justification.doc; Concurrence Sheet.doc

Jeff,  
Please get the signatures on the sole source procurement form. Stacci says it has to have Sr. VP signature. Let me know if I can help from up here.

Thanks,  
Doug

<< File: Sole Source Justification.doc >> << File: Concurrence Sheet.doc >> << File: RFP20060912.doc >>  
Doug,

Attached is the RFP for I put together for the CO2 Injection System for your review. I added your spec plus some other forms. Will they be doing the installation or are we only purchasing the system from them? The answer will determine how I need to modify the RFP document and draft contract.

When you are ready to proceed I will need the following info:

- 1) Contact Name, Phone Number, e-mail --- anything I can use to contact them
- 2) Date of when we want proposals. How long do we give them to get a proposal back to us?

I'll add the other attachments on your e-mail when it's ready to go out.

You'll need to pass the Sole Source document up thru your organization for signatures. At \$400K it will need to go to the Sr. VP. I have attached a concurrence sheet for you to use.

When we are ready to award I'll also need a short code.

Let me know if you have any questions.

Stacci

Stacci,

Attached is the Sole Source Form we discussed. I am also attaching a copy of the draft RFP. The \$200,000 amount I gave you is for one system. We would like to secure an option for a system for KIF at the same time if that's possible. Please let me know if the justification is sufficient and if you have any comments on the RFP.

Thanks,  
Doug
