January 13, 1997

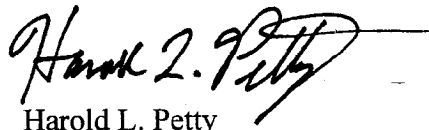

Dr. Frankenberg:

(Please refer to my previous letter to you dated September 22, 1997.)

Richard told me last week that you needed additional prints of the proposed railroad centerline. Enclosed are two sets of prints that show the alignment from beginning to end of the project.

I hope these drawings will be of assistance to you. If you have any questions please call me at 751-6704.

Thank You,

  
Harold L. Petty  
Project Engineer
