**KINGSTON FOSSIL PLANT - TVA CONTRACT NO. 97P3E-210339 -  
RAILROAD BRIDGE DESIGN - DRAWING REVIEW**

We have reviewed the drawings which you submitted August 28 and have enclosed marked-up prints with our comments. As with the previous submittal, our comments primarily concern drafting information and include a few technical questions and comments. Since the drawings are in the early stages of develop, we did not comment on some technical aspects. We will review them more closely after the next submittal and include further technical comments.

We have also reviewed the calculations and have included comments. Since the calculations are preliminary, we did not do an extensive review at this time.

Please call me at (423) 751-3424 if you have any questions. Thank you.

John L. Lane  
Project Engineer
