

CHART 11

Nationwide, the rate for injuries in 2005 declined by 0.1 case, to 4.4 cases per 100 full-time workers.

Industry rates for injuries ranged from 1.5 cases per 100 full-time workers in financial activities to 6.7 cases per 100 full-time workers in transportation and warehousing.

There also was variation within each industry. For example, in manufacturing, injury rates ranged from 1.7 in computer and electronic product manufacturing to 10.3 in beverage and tobacco product manufacturing.

Total recordable nonfatal occupational injury incidence rates, by industry, 2004 and 2005

(per 100 full-time workers)
