REMINDER

If you need any help with these tools, please stop by the lab.

Web 2.0 Tool

Clipta

Clipta is an online video search that improves the quality and process of searching for videos on the web. The technology allows users to search, browse, navigate and discover videos from across the web, regardless of the source.

Clipta's friendliest video search engine has the technology to collect, organize, and deliver every video on the web and help users find exactly what they are looking for.

The mission at Clipta is to give individuals around the world instant access to all video content on the internet through a single, friendly, and efficient search.

Web 2.0 Tool

Dropvine

Send links to one or more friends in just seconds.

Dropvine is a utility that speeds up the process of sending links to one or more friends. When you've found a page that you want to send, you just click the Dropvine bookmarklet and on the next page click which friends you want to receive that link then hit send. It takes about 5 seconds.
