🐘 REMINDER 🐘

This is the last Weekly Newsletter of the SY '08—'09.

Substituting someone else's face in a photo or clipart using ImageBlender:

First, find the photo of yourself or the person you are using as the "face" and save it in your documents or desktop (where you can browse and find later).

Find a clipart or photo that you want to insert the face into. Save for later.

Open ImageBlender; click new; Click OK

Copy and paste into ImageBlender the face you want to insert into the clipart.

Now copy and paste the clipart or photo that you want to insert the face into—it will go on top of the picture of the face you want.

Click on the selection tool. (on left; first row, second icon—shape of square).Now, click the lasso tool on the right. Slowly and carefully, "cut out" the face. Once done, click delete

Now, move the clipart/photo around and fit it on the picture of the face you want to use.
