

# 2009 COMMAND POCKET GUIDE

THE COMPLETE DIRECTORY TO PEOPLE AND  
OFFICES AT THE NAVAL SEA SYSTEMS COMMAND

“AT NAVSEA, WE HAVE THE CRITICAL RESPONSIBILITY OF SUPPORTING THE WORLD’S PREEMINENT NAVAL FORCE. WE ENSURE NAVY SHIPS AND SYSTEMS ARE ENGINEERED TO BE SAFE AND MISSION-EFFECTIVE, WHILE MAINTAINING A REASONABLE COST TO THE TAXPAYER.”

— KEVIN M. MCCOY  
VICE ADMIRAL, U.S. NAVY  
COMMANDER, NAVAL SEA SYSTEMS COMMAND

The commissioning ceremony of USS *North Carolina* (SSN 777), the fourth *Virginia*-class submarine. Photo courtesy of Northrop Grumman

## THE SHORT COURSE TO THE NAVAL SEA SYSTEMS COMMAND

NAVSEA IS COMPRISED OF MORE THAN 50,000 CIVILIAN AND MILITARY PERSONNEL IN 33 ACTIVITIES LOCATED ACROSS THE UNITED STATES AND ASIA.

**W**e engineer, build, buy and maintain ships, submarines and combat systems for the U.S. Navy. With a budget of nearly \$30 billion, NAVSEA accounts for one-quarter of the Navy's entire budget.

NAVSEA manages more than 150 acquisition programs and is responsible for establishing and enforcing technical authority in ship and combat system design and operation. NAV-

SEA also manages foreign military sales cases for the construction and modernization of ships and ship systems that include \$1.6 billion in annual sales to partner nations.

### **About the NAVSEA Organization**

#### **Headquarters Command Staff and Directorates:**

NAVSEA headquarters provides policy, guidance, oversight and support in the

areas of financial management, contracting, logistics/maintenance/industrial operations, engineering, undersea warfare, corporate operations, information technology, legal support and security.

**Program Executive Offices (PEOs):**

NAVSEA's affiliated PEOs — PEO Ships, PEO Submarines, PEO Aircraft Carriers, PEO Littoral and Mine Warfare and PEO Integrated Warfare Systems — are responsible for the development and acquisition of Navy and Marine Corps platforms and weapons systems. They report to the Assistant Secretary of the Navy for Research, Development and Acquisition for acquisition-related matters and to the NAVSEA Commander for planning and execution of in-service support.

**Naval Shipyards:** Owned by the Fleet and operated by NAVSEA, the four Naval Shipyards – Portsmouth, Norfolk, Puget Sound and Pearl Harbor – maintain, repair, modernize, inactivate, dispose of, and provide emergency repair to U.S. Navy ships, systems and components.

**Supervisors of Shipbuilding (SUPSHIPS):** NAVSEA's four SUPSHIPS—Bath, Groton, Gulf Coast and Newport News—execute shipbuilding contracts as Administrating Contract Offices and provide oversight of cost, schedule and quality for Navy new construction ship-building assigned to our industry partners.

**NAVSEA Warfare Centers:** The Naval Surface Warfare Center (NSWC) and the Naval Undersea Warfare Center (NUWC) are technical institutions dedicated to sustaining warfighting readiness. Warfare center scientists and engineers at 10 divisions across the United States provide expertise in support of research, development, test and evaluation, engineering and Fleet support.

**Other Field Activities:** NAVSEA also directs several field activities that support the warfighter in a myriad of areas, including ordnance safety and security, experimental diving, submarine maintenance, logistics and testing of surface combat systems.
