NAVAL SEA SYSTEMS COMMAND OVERVIEW

IN 2009, THE NAVSEA ENTERPRISE GREW TO MORE THAN 58,000 EMPLOYEES IN 38 ACTIVITIES ACROSS THE UNITED STATES AND IN ASIA.

We engineer, build, buy and maintain ships, submarines and combat systems for the U.S. Navy. With a budget of nearly \$30 billion, NAVSEA accounts for one-quarter of the Navy's entire budget.

NAVSEA manages more than 150 acquisition programs and is responsible for establishing and enforcing technical authority in ship and combat system design and operation. NAVSEA also manages foreign military sales cases for the construction and modernization of ships and ship systems.

Headquarters Command

Staff and Directorates:

NAVSEA headquarters provides policy, guidance, over-

sight and support in the areas of financial management, contracting, logistics/ maintenance/industrial operations, engineering, undersea warfare, corporate operations, information technology, legal support and security.

Program Executive Offices (PEOs):

NAVSEA's affiliated PEOs—PEO Ships, PEO Submarines, PEO Aircraft Carriers, PEO Littoral and Mine Warfare, and PEO Integrated Warfare Systems—are responsible for the development and acquisition of Navy and Marine Corps platforms and weapons systems. They report to the Assistant Secretary of the Navy for Research, Development and Ac-

Chief Aviation Machinist's Mate Rodney Balance of USS Kearsarge (LHD 3) safety department observes a dry dock flooding operation at Norfolk Naval Shipyard. (U.S. Navy photo by Mass Communication Specialist 1st Class Emmitt J. Hawks)

quisition for acquisition-related matters and to the NAVSEA commander for planning and execution of in-service support.

Naval Shipyards and Regional Maintenance Centers:

Owned by the Fleet and operated by NAVSEA, the four Naval Shipyards—Portsmouth, Norfolk, Puget Sound and Pearl Harbor—maintain, repair, modernize, inactivate, dispose of, and provide emergency repair to U.S. Navy ships, systems and components. In 2009, NAVSEA assumed operation of Regional Maintenance Centers Southeast and Southwest and the Naval Ship Support Activity.

Supervisors of Shipbuilding (SUPSHIPs):

NAVSEA's four SUPSHIPs—Bath, Groton, Gulf Coast and Newport News—execute shipbuilding contracts as Administering Contract Offices and

provide oversight of cost, schedule and quality for Navy new construction shipbuilding assigned to our industry partners.

NAVSEA Warfare Centers:

The Naval Surface Warfare Center (NSWC) and the Naval Undersea Warfare Center (NUWC) are technical institutions dedicated to sustaining warfighting readiness. Warfare center scientists and engineers at 10 divisions across the United States provide expertise in support of research, development, test and evaluation, engineering and Fleet support.

Other Field Activities:

NAVSEA also directs several field activities that support the warfighter in a myriad of areas, including ship life cycle management, ordnance safety and security, experimental diving, submarine maintenance, logistics and testing of surface combat systems.

NAVSEA WARRANTED TECHNICAL AUTHORITIES

WARRANTED TECHNICAL AREA

CODE

The NAVSEA commander (COMNAVSEA) is the technical authority for NAVSEA and affiliated PEOs in accordance with SECNAVINST 5400.15C. NAVSEA's technical authority chain of command is COMNAVSEA, the Chief Engineer (CHENG), the Deputy Warranting Officers (DWOs) and the Technical Warrant Holders (TWHs). COMNAVSEA has delegated authority to the CHENG and no further to select, appoint and terminate appointments of TWHs. NAVSEA NOTE 5400 on technical authority will be signed in mid 2010 and will supersede this listing once published. For more information on the NAVSEA NOTE 5400 contact Chris Paquette at 202-781-3576. For more information on the TWH listing contact Dr. Hal Kohn at 202-781-4973.
