

Summary Report of Occurrences Reviewed From July 4 – 8, 2011

Summary: 11 occurrences at 9 sites reviewed during this period.

Occurrences of Significant Interest (1)

Injury – 1 occurrence at 1 site

- ***EM –Savannah River Site (Significance Category 2).*** On July 1, a construction laborer fell to the floor when descending a teletower while performing construction activities to support the Purification Area Vault. The laborer fell 12 feet onto a cement floor, sustaining injuries to the head and torso. The laborer was transported via WSI helicopter by MCG Trauma. The accident scene was secured by WSI. KAC suspended all facility work activities inside and outside of the protected area, except for rounds and routine activities. An initial fact finding meeting was held and a DOE Accident Investigation is being considered to further investigate the event.

Other Occurrences (10). See Table (Note: The Table includes the occurrences listed above).
