## Section 2 General Administration

## 21 Annual Notice to Producers

## A When to Provide Information

**Annually** advise all producers of the payment eligibility and payment limitation requirements in this paragraph. Use a newsletter and all other practical means available.

**Note:** It may be appropriate to provide the information in subparagraph B more than once during a calendar year, if there is more than 1 program operating in the county for which the rules in subparagraph B apply (Exhibit 4).

## B Information to Provide

Notify producers, at **least** annually, of the following:

- payments and benefits under certain programs are subject to some or all of the following:
  - payment limitation by direct attribution
  - payment limitation amounts for the applicable programs
  - actively engaged in farming requirements
  - cash-rent tenant rule
  - foreign person rule
  - average AGI limitations
- no program benefits subject to limitation will be provided until:
  - **all** required forms for the specific situation are provided
  - necessary payment eligibility and payment limitation determinations are made

## 21 Annual Notice to Producers (Continued)

**B Information to Provide (Continued)**

- payment eligibility and payment limitation determinations may be initiated by COC or requested by the producer
- after 2009, a farm operating plan is **not** required to be filed annually, if the farming operation continues to be conducted as reflected on the farm operating plan and supporting documents are on file in the County Office
- if any changes occur that could affect an actively engaged in farming, cash-rent tenant, foreign person, or average AGI determination, producers **must** timely **notify** the County Office by filing revised farm operating plans and/or supporting documentation, as applicable

**Note:** Failure to timely notify the County Office may adversely affect payment eligibility.

- there are statutory provisions that require entities, earning program benefits that are subject to limitation, to provide the names, addresses, and TIN's of the entities' members to COC
- all applicable payment eligibility and payment limitation forms submitted by producers are subject to spot check through the end-of-year review process

**Note:** Explain what information the producer **must** provide to COC.

- a determination of **not** actively engaged in farming results in the producer being ineligible for any payment or benefit requiring a determination of actively engaged in farming
- noncompliance with AGI provisions, either by exceeding the applicable limitations or by failure to submit a certification statement, will result in the determination of ineligibility for **all** program benefits subject to AGI provisions; program benefits shall be reduced in an amount that is commensurate with the direct and indirect interest held by an ineligible person or legal entity in any legal entity, general partnership, or joint operation that receives benefits subject to the average AGI limitations.

**22 Public Information and Casual Advice**

**A Providing Information to the Public**

Provide applicable pages from this handbook to any producer who requests information on any program provisions about payment eligibility, payment limitation, and average AGI compliance determinations.

**B Casual Advice Rule**

Casual advice shall **not** be given on:

- possible determinations
- how to set up a farming operation to obtain additional payments.

**23-30 (Reserved)**

**Section 3 Producer Filing Requirements****31 Filing Requirements****A If 1 or More Producers Fail to File**

[7 CFR 1400.2 (e)] If 1 or more producers on a contract or application for benefits fail to file the applicable CCC-902, CCC-926, and related forms, the producers **not** filing the applicable forms will be ineligible to receive program benefits subject to eligibility and \*--limitation applicable to that contract or application.--\*

This failure to file will **not** affect the eligibility of other producers who meet all filing requirements.

**Note:** Shares **cannot** be adjusted to circumvent the ineligibility of the producer who failed to file the applicable forms and related documentation.

**\*--B Deadline for Filing CCC-902, CCC-926, and Related Forms**

Follow the deadlines established for each applicable program for which payments and benefits are requested.--\*

## 31 Filing Requirements (Continued)

### B Forms and Updates

For 2009, **all** participants in programs subject to the provisions of this handbook are required to submit a completed CCC-902, CCC-926, and CCC-901, if applicable, for payment eligibility and payment limitation purposes.

A valid CCC-902 and, if applicable, CCC-901 filed by the producer are considered to be continuous certifications used for all payment eligibility and payment limitation determinations applicable for the program benefits requested.

Producers are **not** required to annually submit new CCC-902's or CCC-901's for payment eligibility and payment limitation purposes unless a change in the farming operation occurs that may affect the determination of record.

Producers have the responsibility to:

- ensure that all CCC-902's, CCC-926's, and related forms on file in the County Office are correct at all times
- timely notify the County Office of any changes in the farming operation that may affect the determinations of record by filing a new or updated CCC-902 or CCC-901, as applicable.

Changes that may affect the determinations include, but are **not** limited to, a change of:

- shares of a contract, which **may** reflect:
    - a land lease from cash-rent to share-rent
    - a land lease from share-rent to cash-rent
- Note:** The producer would be subject to the cash-rent tenant rule.
- a modification of a variable/fixed bushel-rent arrangement
  - the size of the producer's farming operation by the addition or reduction of cropland that may affect the application of a cropland factor
  - the structure of the farming operation, including any change in the member's shares

## 31 Filing Requirements (Continued)

**\*--B Forms and Updates (Continued)--\***

- the contributions of farm inputs of capital, equipment, active personal labor, or active personal management
- the acquisition of farming interests **not** previously disclosed on CCC-902, including the farming interests of a spouse or minor child
- financial status that may affect the 3-year average for the determination of average AGI or other change that affects eligibility under the average adjusted income limitation.

**C Documenting Changes**

Changes to a farming operation may be documented on 1 of the following, depending upon the nature and extent of the changes:

- a photocopy of the previously filed CCC-902

**Note:** The producer should initial and date **each** change.

- CCC-902 Continuation

**Note:** CCC-902 Continuation may be used to document changes affecting owned or leased land in the producer's farming operation.

- a new CCC-902
- a new CCC-901, if membership in an embedded entity changes.

If changes are documented using CCC-902 photocopy or CCC-902 Continuation, the CCC-902 photocopy or CCC-902 Continuation shall **also** be signed and dated by the producer.

**Note:** If a new CCC-902 is submitted:

- applicable determinations **must** be made and the producer notified according to Part 7
- flag the producer as "awaiting determination" according to 3-PL (Rev. 1), subparagraph 26 B until all determinations are finalized.

## 32 Documentation

### A Introduction

This paragraph provides guidelines on documentation needed to support COC determination.

### B Adequate Documentation

COC shall require adequate documentation to support the applicable CCC-902 and CCC-926.

**Definition:** Adequate documentation means whatever documentation is required by the reviewing authority to make proper actively engaged in farming, attribution, and average AGI compliance determinations.

### C Documentation Not Required

The reviewing authority should avoid requiring documents that are extremely personal if the determination can reasonably be made without the documents. COC may:

- accept documents with redacted information that is **not** relevant to the actively engaged in farming and average AGI determinations
- accept income tax returns to make the determination if **voluntarily** provided by the producer
- request income tax returns to verify compliance with all average AGI limitations.

### D Lease Information

It is **not** anticipated that amounts paid for land leases or equipment leases will be needed unless the equipment or land is leased from another member with an interest in the farming operation.

32 Documentation (Continued)

**E Documentation That May Be Used**

\*--Supporting documents may include legal documentation such as:

- articles of incorporation
- \* \* \*
- financial agreements, including letters of credit
- land and equipment leases
- land ownership records
- operating agreements
- partnerships agreements
- trusts agreements--\*

**Note:** A copy of the trust agreement **must** be provided by the trust unless the trust is revocable.

- any other information, including income tax returns, needed to apply the payment eligibility and payment limitation rules.

32 Documentation (Continued)

**F Scrutiny of Trusts**

All trusts that receive payments shall be carefully scrutinized to ensure that the trusts are legitimate legal entities and have **not** been created solely for evading payment limitation provisions.

County Offices shall:

- require trusts to provide a copy of the trust agreement unless the trust is a revocable trust  
  
\* \* \*
- determine whether provisions are included in the trust agreement that would require the trust to be considered a revocable trust according to paragraph 166.

**G Determination Deadline**

Additional information may be requested at COC's option. However, this will **not** extend the 60-calendar day period for making a determination. If the file, as submitted by the producer, does **not** support a favorable finding, COC shall make a determination based on the file as it \*--exists. See subparagraph 206 B for the start of the 60 calendar day period to make determinations.--\*

**H Returning Documentation**

Any legal documentation obtained should be returned to the producer as soon as possible. Keep photocopies for the payment limitation file if needed to support COC's determination.

### 33 FLP Participants

#### A Information Exchange

\*--FLM or appropriate farm loan staff shall be provided access to copies of the following--\* information on any program participant that is also an FLP borrower:

- submitted CCC-901
- new or updated CCC-902 and supporting documentation submitted
- the resultant CCC-903
- written notice of determination for payment eligibility and payment limitation purposes
- written notice of selection for end of year review for payment eligibility and payment limitation compliance purposes
- written notice of **any** determination that may adversely affect payment eligibility and payment limitation.

**Note:** This includes all farming interests of the FLP borrower, whether as a person, member, or interest holder in a legal entity or joint operation.

#### B Discrepancies

If representations made for program payment eligibility/limitation purposes and representations made for FLP purposes are found to be different, **and** have the appearance of adversely affecting payment eligibility or the application of any determination previously made, the discrepancies shall be resolved:

- by the program participant/FLP borrower to the satisfaction of COC and FLP reviewing authority
- **before** any further disbursement of **any** program benefits subject to the regulations at 7 CFR Part 1400 and provisions of this handbook.

**34 General Form Requirements**

**A Availability**

All forms required to be filed by a producer are available:

- at the local County Office or Service Center

**Note:** A copy of AD-1026A, printed for the producer, may be used to record the land in the farming operation **only** with the addition of information on lease terms, rental rate, and whether the land interest was the same as previous year. Producer **must** sign and date AD-1026A **after** the information is added.

## 34 General Form Requirements (Continued)

**D Forms for Conservation, Price Support, Disaster and Livestock Assistance, TAAF, and Other Program Payment Eligibility and Payment Limitation Purposes**

For persons and legal entities who are participants in conservation, price support, disaster assistance, and other programs, CCC-901 and CCC-902 will be used to collect information for the application of the following:

- direct attribution
- minor child rules
- rules for foreign persons.

CCC-901 is required for all legal entities for the application of direct attribution of payments for payment limitation purposes.

\*--Complete only the parts of CCC-902I (Parts A, B, and I), CCC-902I Short Form (Parts A, B, and F), or CCC-902E (Parts A, B, C, and L) applicable for information on minor children--\* and foreign persons who are applicants, or members of applicants, for program benefits that do **not** require a determination of “actively engaged in farming”. No other parts of CCC-902 must be completed.

Designate these forms similarly to the following examples:

- “For MAL and LDP purposes only”
- “For Conservation Reserve Program purposes only”
- “For ECP purposes only”
- “For TAAF purposes only”.

**Note:** This requirement only applies to a new program participant who has **not** previously submitted these forms to FSA for participation in other programs.

COC will:

- make the required determinations based on this information
- provide written notification to the participant according to Part 7
- \*--update subsidiary files according to 3-PL (Rev. 1), Part 3
- record entities and joint operations according to 2-PL.--\*

**35-40 (Reserved)**

## Section 4 General Application Rules

**\*--41 Custom Services****A Definition of Custom Services**

Custom services mean the hiring of a contractor or vendor that is in the business of providing such specialized services or to perform services for the farming operation in exchange for the payment of a fee for such services performed.

**B Applicability**

If a person, joint operation, or legal entity receives custom services in the farming operation:--\*

- make actively engaged in farming determinations according to Part 4
- the ability to meet the cash-rent tenant provisions may be adversely affected on land that is cash-rented in the farming operation.

**Note:** The equipment used to perform the custom services **cannot** be considered a significant contribution of equipment toward meeting the actively engaged in farming requirements because the person, joint operation, or legal entity does **not** exercise completed control over the equipment.

**\*--C Exclusions**

**This provision does not apply to farming operations in which all the land is owned.**

The following specialized services will **not** be considered custom services:

- chemical application
- fertilizer application
- crop harvesting.--\*

## 42 Denial of Program Benefits

### A Introduction

Detecting schemes, fraudulent representations, and other equally serious actions of persons and legal entities to circumvent payment eligibility and payment limitation provisions is **essential** for producer compliance.

This paragraph provides rules and guidelines for detecting and determining schemes or devices, fraudulent representations, and other actions to circumvent payment eligibility and payment limitation provisions. Determining actions to circumvent payment eligibility and payment limitation provisions by a person or legal entity may result in the person or legal entity being ineligible for program benefits for 2 to 5 years.

### B Consequences of Scheme, Device, or Fraud Determination

When the reviewing authority determines that a person or legal entity:

- adopts a scheme or device designed to evade, or has the affect of evading, the payment eligibility and payment limitation provisions, the person or legal entity shall be **ineligible** for the crop year determined and the succeeding crop year for **all** program benefits subject to limitation

- use other system-generated reports and queries to identify possible schemes or devices
- closely scrutinize joint operations having individual members who are also stockholders, members, etc., of a member entity
- request OIG's assistance through the State Office, as appropriate.

**D Schemes or Devices**

[7 CFR 1400.5] Acts, such as the following, may be considered a scheme or device:

- concealing information that affects the application of the payment limitation provisions
- submitting false or erroneous information
- creating fictitious entities to conceal interest of a person or legal entity in a farming operation.

**Note:** Fraudulent intent is **not** required for determining scheme or device.

42 Denial of Program Benefits (Continued)

## Section 5 Farming Operations

## 51 Determining Farming Operations

## A Definition of Farming Operation

A farming operation means a business enterprise engaged in producing agricultural products.

## B Description of Farming Operation

A person's, legal entity's, or joint operation's farming operation consists of the acreage on all farms in all counties in which the person, legal entity, or joint operation has an interest in the agricultural products or proceeds from the agricultural products produced. This includes all acreage in which the person, entity, or joint operation is a producer, regardless of whether the acreage is:

- rented on a crop-share basis
- rented on a cash-lease basis
- owned by the producer.

**Note:** Exclude owned acreage that has been cash-rented to a cash-rent tenant, if the landowner has no interest in any crop or crop proceeds from the acreage for the year.

**Exception:** The farming operation of a landowner includes only the acreage owned by the landowner, if **both** of the following apply:

- land owned by different landowners is combined into 1 farm with other tracts so the claimed share of the crops or crop proceeds is proportionate to size and value of the land and CAB's contributed
- the landowner is **not** also a tenant on the farm.

## C Multiple Farming Operations

A person or legal entity may have more than 1 farming operation if the person or legal entity has an interest in 1 or more joint operations. Each interest in a joint operation will be an additional farming operation for the person or legal entity.

51 Determining Farming Operations (Continued)

## 52 Interest in Farming Operations

### A Examples of Interest in a Farming Operation

The following are considered interests in a farming operation:

- general partners of LP's when LP is a producer in the farming operation
- grantors of revocable trusts when the trust is a producer in the farming operation.
- landlords, including landowners, have an interest in the farming operation containing the acreage owned or leased, whether or **not** the landlord has an interest in the production or proceeds from the production
- landowners have an interest in the farming operation containing the land owned, whether or **not** the landowner has an interest in the production or proceeds from the production
- members of a joint operation when the joint operation is a producer in the farming operation
- producers who share in the production or proceeds of the production from the farming operation

**52 Interest in Farming Operations (Continued)****B Examples of No Interest in a Farming Operation**

The following are **not** considered interests in a farming operation:

- beneficiaries of trusts when the trust is a producer in the farming operation
- grantors of irrevocable trusts when the trust is a producer in the farming operation
- heirs to estates when the estate is a producer in the farming operation
- limited partners of LLP when LLP is a producer in the farming operation
- members of associations when the association is a producer in the farming operation
- stockholders in a corporation when the corporation is a producer in the farming operation
- trustees and personal representatives of trusts or estates when the trust or estate, respectively, is a producer in the farming operation.

**C Most Restrictive Rule**

Applying a more restrictive rule may apply if a person or legal entity has an interest in another person's or legal entity's farming operation.

**53 Total Value of a Farming Operation**

**A Introduction**

The total value of a farming operation **must** be computed when determining whether:

- the contributions made by the person or legal entity are significant
- contributions are commensurate with the claimed share of profits or losses from the farming operation.

**B Definition**

Total value of a farming operation means the total of the costs, excluding the value of active personal labor and active personal management that is contributed by a member of the farming operation, needed to carry out the farming operation for the year for which the determination is made.

**53 Total Value of a Farming Operation (Continued)****C Example 1**

The following is the **scenario** for this example.

Partnership ABC has 3 equal partners, A, B, and C. Partnership ABC farms 2,000 acres of cropland growing corn and various vegetables. All of the land that Partnership ABC farms has a rental value equal to \$42 per acre.

Partner A contributes land with a total rental value of \$24,000 to the partnership. Partner A cash-rents this land from a landowner with no interest in Partnership ABC's farming operation. Partner A's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$12,000 of capital. None of Partner A's contributions are acquired as the result of a loan.

Partner B contributes land with a total rental value of \$12,000 to the partnership. Partner B cash-rents this land from a landowner with no interest in Partnership ABC's farming operation. Partner B's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$24,000 of capital. None of Partner B's contribution are acquired as the result of a loan.

Partner C contributes land with a total rental value of \$12,000 to the partnership. Partner C owns this land. Partner C's contributions to Partnership ABC also include equipment with a rental value of \$12,000 and \$24,000 of capital. None of Partner C's contributions are acquired as the result of a loan.

Partnership ABC rents land from other landowners for a 1/3 share of the crop with a value of \$36,000. Partnership ABC contributes owned equipment with a rental value of \$21,000 and \$99,000 of capital to the farming operation.

Each of the partners share equally in the labor and management of this farming operation and no additional labor or management is hired.

## 53 Total Value of a Farming Operation (Continued)

## C Example 1 (Continued)

This table shows the **contributions** made by the partners and Partnership ABC and the total value of the farming operation.

	Land	Capital	Equipment	Labor	Management	Total
Partner A	24,000	12,000	12,000	Active	Active	48,000
Partner B	12,000	24,000	12,000	Active	Active	48,000
Partner C	12,000	24,000	12,000	Active	Active	48,000
Partnership ABC		99,000	21,000			120,000
Total	84,000 <sup>1/</sup>	159,000	57,000	0	0	300,000

<sup>1/</sup> Includes the rental value of the land contributed by the share-rent landlord. Crop-share rent for the land is valued at \$36,000.

The total value of the farming operation was **determined** as follows.

The rental value of all the land involved in this farming operation is \$84,000. This rental value is derived by the following inputs:

- Partner A's contribution of cash-rented land with a value of \$24,000
- Partner B's contribution of cash-rented land with a value of \$12,000
- Partner C's contribution of owned land with a rental value of \$12,000
- share-rented land with a value of \$36,000 that is **not** attributed to any 1 partner or to the partnership.

**Note:** If land is owned, a rental value that is normal for the area **must** be used when determining its value.

**53 Total Value of a Farming Operation (Continued)****C Example 1 (Continued)**

The total amount of capital needed by this farming operation is equal to \$159,000. This figure is arrived at by taking the total expenditures necessary to conduct this farming operation and subtracting any equipment and land costs that will be expended by the partnership. The capital is derived by the following inputs:

- Partner A's contribution of \$12,000 of capital
- Partner B's contribution of \$24,000 of capital
- Partner C's contribution of \$24,000 of capital
- Partnership ABC's contribution of \$99,000 of capital.

The rental value of all of the equipment used on this farming operation is \$57,000. This rental value is derived by the following inputs:

- Partner A's contribution of owned equipment with a rental value of \$12,000
- Partner B's contribution of leased equipment with a rental value of \$12,000
- Partner C's contribution of owned equipment with a rental value of \$12,000
- Partnership ABC's contribution of owned equipment with a rental value of \$21,000.

**Note:** If equipment is owned, a rental value that is normal for the area **must** be used when determining its value.

Each partner is equally providing active personal labor and active personal management; therefore, no value is affixed to these contributions in determining the total value of the farming operation.

The total value of this farming operation is equal to \$300,000.

**53 Total Value of a Farming Operation (Continued)****D Example 2**

The following is the **scenario** for this example.

Partnership ABC has 3 equal partners, A, B, and C. Partnership ABC farms 1,500 acres of cropland growing cotton and soybeans.

Partner A contributes land with a total rental value of \$5,000 to the partnership. Partner A cash-rents this land from a landowner with no interest in Partnership ABC's farming operation.

Partner B contributes land with a total rental value of \$5,000 to the partnership. Partner B cash-rents this land from a landowner with no interest in Partnership ABC's farming operation.

Partner C contributes land with a total rental value of \$5,000 to the partnership. Partner C owns this land.

Partnership ABC contributes land with a total rental value of \$69,000 to the farming operation. Partnership ABC owns this land. Partnership ABC contributes owned equipment with a rental value of \$57,000 and \$159,000 of capital to the farming operation. The capital is borrowed from a local bank and is **not** secured by any of the partners individually.

Partnership ABC will hire all of the labor needed to conduct this farming operation. The labor cost for this operation will be \$30,000.

Each of the partners share equally in the management of this operation and no additional management is hired.

## 53 Total Value of a Farming Operation (Continued)

## D Example 2 (Continued)

This table shows the **contributions** made by the partners and Partnership ABC.

	Land	Capital	Equipment	Labor	Management	Total
Partner A	5,000	0	0		Active	5,000
Partner B	5,000	0	0		Active	5,000
Partner C	5,000	0	0		Active	5,000
Partnership ABC	69,000	159,000	57,000	30,000		315,000
Total	84,000	159,000	57,000	30,000		330,000

The total value of the farming operation was **determined** as follows.

The rental value of all of the land involved in this farming operation is \$84,000. This rental value is derived by the following inputs:

- Partner A's contribution of cash-rented land with a value of \$5,000
- Partner B's contribution of cash-rented land with a value of \$5,000
- Partner C's contribution of owned land with a rental value of \$5,000
- Partnership ABC's contribution of owned land with a rental value of \$69,000.

**Note:** If land is owned, a rental value that is normal for the area **must** be used when determining its value.

**53 Total Value of a Farming Operation (Continued)****D Example 2 (Continued)**

The total amount of capital needed by this farming operation is equal to \$159,000. This figure is arrived at by taking the total expenditures necessary to conduct this operation and subtracting any equipment, land, and labor costs that will be expended by the partnership. The capital for this operation is being provided by Partnership ABC.

The rental value of all of the equipment used on this farming operation is \$57,000. Partnership ABC is contributing owned equipment with a rental value of \$57,000.

**Note:** If equipment is owned, a rental value that is normal for the area **must** be used when determining its value.

All of the labor for this farming operation is hired by Partnership ABC and will cost \$30,000.

Each partner will equally provide active personal management; therefore, no value is affixed to this contribution in determining the total value of the farming operation.

The total value of this farming operation is equal to \$330,000.

54 **Changes in Farming Operations**

**A Background**

The Food Security Act of 1985, as amended by the Food, Conservation, and Energy Act of 2008, requires that the Secretary **not** approve, for purposes of applying payment limitations, any change in a farming operation that will increase the number of persons or legal entities for payment, unless the Secretary determines that the change is bona fide and substantive.

**B Rule [7 CFR 1400.104]**

COC may **not** approve any change in a farming operation, including, but not limited to, establishing a new farming operation containing any person or legal entity that was a member of the previous year’s farming operation, that will otherwise increase the number of persons or legal entities to which payment limitation is applied for the current year, unless a substantive change in the farming operation occurs for the current year.

**Note:** The comparison for substantive change purposes is between the current year’s operation and the previous year’s operation.

**C Substantive Change Requirements**

If bona fide, the following are considered substantive changes.

Change	Requirement
Family Member	*--Adding a family member to a farming operation, according to the adult family member provision as specified in paragraph 138, allows recognizing the added family member.--*  * * *
Land Rental	For a landowner <b>only</b> , a change from cash-rent to share-rent.

54 Changes in Farming Operations (Continued)

C Substantive Change Requirements (Continued)

Change	Requirement
Base Acres	<p>An increase through acquiring base acres <b>not</b> previously involved in the farming operation. The increase in base acres:</p> <ul style="list-style-type: none"> <li>• <b>must</b> be at least 20 percent or more of the total base acres involved in the farming operation</li> <li>• will be applicable for the increase of <b>only</b> 1 person or legal entity to the farming operation.</li> </ul> <p>A State Office specialist may approve additional persons or legal entities based on the magnitude and complexity of the change in the farming operation represented and if the increase in base acres supports additional persons or legal entities to the farming operation. See subparagraph D.</p>
Ownership	<p>A change in ownership by sale or gift of equipment or land from a person or legal entity previously engaged in the farming operation to a person or legal entity who has <b>not</b> been engaged in this operation is considered substantive, <b>only</b> if:</p> <ul style="list-style-type: none"> <li>• the transferred amount is commensurate with the new person’s or legal entity’s share of the farming operation</li> <li>• the sale or gift of land or equipment was based on fair market value of the land or equipment</li> <li>• the former owner has no control over the sold or gifted land or equipment</li> <li>• the transaction was <b>not</b> financed by the former owner</li> <li>• preference was <b>not</b> given to the former owner to re-purchase the land or equipment at a later date.</li> </ul>
Equipment	<p>The addition of equipment <b>not</b> previously involved in the farming operation may be considered substantive, if the rental value of the additional equipment contributed is commensurate with the new person’s or legal entity’s share of the rental value of all equipment used in the farming operation.</p>

**Note:** Substantive changes **must** be “arms length” business transactions. Documents **must** be provided to support any of the changes in this subparagraph.

**54 Changes in Farming Operations (Continued)****D Increase in Base Acres**

If base acres are increased more than 20 percent and the producer requests to add more than 1 additional person or legal entity for payment limitation the:

- producer **must**:
  - submit written request for additional persons or legal entities
  - include the reasons why additional persons or legal entities for payment limitation purposes are to be recognized
  - provide any other relevant documentation to support the request
- COC **must**:
  - document the request in the COC minutes
  - forward the request with comments or recommendations to the State Office
  - include all documentation provided by the producer
- State Office specialist designated to act on these requests **must**:
  - timely review requests and all supporting documentation
  - obtain STC comments, if determined necessary, on the request
  - approve or disapprove the requests
  - record all requests and determinations in the STC minutes
  - notify COC/County Office, in writing, of the determination
  - instruct COC/County Office to provide written notification of the determination to the producer, and include appeal rights if considered adverse.

**54 Changes in Farming Operations (Continued)****E Considerations for Approving or Disapproving an Increase of Additional Persons or Legal Entities for Payment Limitation Purposes**

State Office specialists are to consider at least all of the following:

- the amount of the increase in base acres
- the crops grown by the farming operation
- the diversity of the farming operation
- relationship of the existing members to the new members
- the programs for which the operation will be a participants
- other relevant information specific or unique to the request.

**F Nonsubstantive Changes**

The following are considered nonsubstantive changes:

- a decrease in the amount of land
- the dissolution of a legal entity
- any change **not** considered substantive for which the rules would require a more restrictive application of the payment limitation.

**G Example 1 of Nonsubstantive Change**

**Situation:** Three persons each have separate and unrelated farming operations, which if continued unchanged, qualify for 3 limits for payment limitation purposes. The 3 persons propose a farming operation by forming a corporation in which each are equal stockholders in the entity. The entity would lease, for cash, a portion of the cropland previously operated by each of the persons. A total of 4 limits would result for payment limitation purposes.

**Determination:** Forming this legal entity and leasing the land formerly operated by the persons would **not** constitute a bona fide and substantive change. Continue to recognize the 3 persons as determined previously for payment limitation purposes. The new legal entity would **not** be considered eligible for payment.

**Explanation:** The same land is farmed by the same equipment and the same persons as the previous year. The stockholders hold total ownership of the legal entity and each stockholder produced agricultural products or participated in programs subject to limitation in the previous year.

## 54 Changes in Farming Operations (Continued)

**H Example 2 of Nonsubstantive Change**

**Situation:** A corporation operates land that it owns. A general partnership, consisting of the stockholders of the corporation, leases land owned by unrelated parties that was previously operated by the corporation. The corporation farm manager and other employees complete the farming activities for both operations with equipment owned by the corporation. Records are kept of time spent by the employees and equipment use for each of the farming operations. The corporation's bookkeeper prepares separate payrolls for the employees that reflect the time for each employee on each farming operation. Invoices prepared on behalf of the corporation are issued to the general partnership for the equipment use and cropping expenses to represent its share of the operating expenses. Separate limitation was requested for the corporation and each of the members of the general partnership.

**Determination:** Changes in bookkeeping for the manner records are kept does **not** constitute or demonstrate a substantive change. Continue to recognize **only** the corporation for payment limitation purposes.

**Explanation:** The members of the general partnership, who hold total ownership of the corporation, are farming the same land with the same equipment previously operated by the corporation. Only a single farming operation of the corporation exists even though separate books are kept in an effort to represent a separate farming operation of the general partnership.

**\*-I If Substantive Change Is Not Met**

If there is an increase in the number of persons or legal entities subject to limitation in a farming operation that results in applying the substantive change provisions and a substantive change is **not** met:

- continue to recognize the persons or legal entities for payment limitation purposes that were recognized in the previous year
- consider the new persons or legal entities who did **not** meet the substantive change ineligible for payment.

**Note:** The eligible person's or legal entities' shares **cannot** be adjusted to circumvent the ineligibility of the new person or legal entity.--\*

**\*--55 Applying the Substantive Change Rule**

**A Determining Whether Substantive Change Rule Applies**

Substantive change rule applies when both are present:

- increase in the number of limitations for payment
- commonality between the new farming operation in the current year and a farming operation in the previous year.

**B Commonality Between Farming Operations**

Elements of commonality include:

- interest in legal entities
- land
- legal entities
- persons/individuals.--\*

**\*--55 Applying the Substantive Change Rule**

**C When Substantive Change Rule Applies**

This table illustrates when a substantive change is **required**.

<b>Substantive change only applies for...</b>	<b>if...</b>
a new person beginning to farm as an individual or as a member of a joint operation	the person was part of a legal entity that farmed in the previous year <b>and</b> the individual will farm some of the same land the entity farmed in the previous year.
a new joint operation	some, but <b>not</b> all, of the members of the new joint operation farmed in the previous year.
an existing joint operation	1 or more new members of the new joint operation did <b>not</b> farm in the previous year <b>and</b> there is an overall increase in the number of limits.  <b>Note:</b> If there is no overall increase within the joint operation, substantive change is still required if <b>any</b> of the departing members continue to farm on the same land farmed by the joint operation in the previous year.
a new legal entity	1 or more members of the legal entity farmed in the previous year <b>and</b> the legal entity will farm some of the land farmed by its members in the previous year.

**D When Substantive Change Rule Does Not Apply**

This table illustrates when substantive change rule does **not** apply.

<b>Substantive change rule does not apply for...</b>	<b>and...</b>
the new person beginning to farm as an individual	the person was <b>not</b> part of any farming operation in the previous year.
a new joint operation	none of the members farmed <b>or</b> were associated with any farming operation in the previous year.
a new legal entity	none of the shareholders farmed <b>or</b> were associated with any farming operation in the previous year.
an existing legal entity	1 or more shareholders were added.  <b>Note:</b> The legal entity remains restricted to 1 limitation <b>regardless</b> of the number of shareholders.
the spouses	both spouses were or were <b>not</b> part of, or associated with, any farming operation conducted by an individual, joint operation, or entity in the previous year.

--\*

**\*--56 Substantive Change Rule for Persons****A Example 1**

**Situation:** In the previous year, Corporation AB, comprised of Person A and Person B, each with an equal share, produced program crops and participated in program subject to payment limitation.

For the current year, Corporation AB and Person A will each operate part of the land that was in the previous year's farming operation of Corporation AB. Both Corporation AB and Person A will be participating on programs subject to payment limitation in the current year.

**Determination:** Substantive change will be **required** for the current year because:

- Person A represents an additional payment limitation as compared to the previous year
- Person A has an interest in Corporation AB that produced program crops and participated in programs subject to payment limitation in the previous year
- Person A will operate land that was part of the farming operation of Corporation AB in the previous year.

**B Example 2**

Same as in Example 1, except Person A, as an individual, will operate all of the land that was farmed by Corporation AB in the previous year. Person A will participate in programs subject to payment limitation. Corporation AB will **no** longer be farming and has dissolved.

**Determination:**

Substantive change will not be required for the current year because:

- Person A does not represent an additional payment limitation as compared to the previous year
- Corporation AB is no longer farming in the current year.--\*

\* \* \*

**\*--57 Substantive Change Rule for Joint Operations****A Example 1, Joint Operation Existed in the Previous Year**

**Situation:** In the previous year, General Partnership ABC, comprised of Persons A, B, and C, each with an equal share, participated in programs subject to payment limitation. Person D conducted a separate farming operation and participated in programs subject to payment limitation.

For the current year, Person D became a member and the partnership that is now Partnership ABCD; all with equal shares. Partnership ABCD will operate all of the land operated in the previous year by all of the current members. Partnership ABCD will participate in programs subject to payment limitation in the current year.

**Determination:** Substantive change is **not** required for the current year because:

- Person D participated in programs subject to payment limitation in the previous year
- Person D, by joining the existing partnership, does **not** represent an additional payment limitation for the current year.

**B Example 2, Joint Operation Existed in the Previous Year**

**Situation:** Same as Example 1, except Person D did **not** farm and was **not** part of a farming operation in the previous year. Person D became a member of Partnership ABCD, all with equal shares. Partnership ABCD will operate part of all the land operated in the previous year and participated in programs subject to payment limitation in the current year.

**Determination:** Substantive change is **required** for the current year because:

- Person D represents an additional payment limitation as compared to the previous year
- Person D neither farmed nor was part of a farming operation in the previous year.--\*

**\*--57 Substantive Change Rule for Joint Operations (Continued)****C Example 1, New Joint Operation****Situation:**

**Situation:** In the previous year, Dad participated in programs subject to payment limitation on his own individual farming operation.

In the current year, Dad and adult Son form a 70/30 general partnership named DS Farms. Son did **not** have any farming interest in the previous year. DS Farms will farm all of the land that Dad farmed individually in the previous year and participate in programs subject to payment limitation.

**Determination:** Substantive change is **required** for the current year because:

- DS Farms is a new farming operation
- DS Farms will operate all of the land farmed by 1 of the members in the previous year
- forming DS Farms represents an increase in the number of limitations from the previous year.

**D Example 2, New Joint Operation**

**Situation:** In the previous year, JT Farms Inc., comprised of brothers Jake and Tim with equal shares, conducted a farming operation and participated in programs subject to payment limitation.

In the current year, JT Farms Inc. stopped farming. Jake and Tim formed a 50/50 general partnership named Switch Grass Farms and will lease all the farm equipment need from JT Farms Inc. Switch Grass Farms will operate all of the land farmed in the previous year by JT Farms and will participate in programs subject to payment limitation.

**Determination:** Substantive change is **required** for the current year because:

- Switch Grass Farms is a new joint operation
- Switch Grass Farms will operate all of the land operated in the previous year by a farming operation in which both members were associated
- forming Switch Grass Farms represents an increase in the number of payment limitations from the previous year.

**Note:** Substantive change is **required** to recognize an increase in limitations. If substantive change is **not** met, only 1 limitation will be recognized.--\*

\* \* \*

**\*--58 Substantive Change Rule for Legal Entities****A Example 1, New Legal Entity**

**Situation:** In the previous year, Persons A and B participated in programs subject to payment limitation on their respective, individual farming operations. Person C did **not** have any farming interests.

For the current year, Persons A, B, and C formed corporation ABC Inc. ABC Inc. will operate part of the land operated in the previous year by Person A and will participate in programs subject to payment limitation.

**Determination:** Substantive change is **required** for the current year because:

- ABC Inc. represents an additional payment limitation as compared to the previous year
- Persons A and B, both interest holders in ABC Inc., participated in programs subject to payment limitation in the previous year
- ABC Inc. will operate part of the land farmed by Person A in the previous year.

**B Example 2, New Legal Entity**

**Situation:** In the previous year, Persons A and B participated in a programs subject to payment limitation on their respective, individual farming operations. Person C did **not** have any farming interests.

For the current year, Persons A, B, and C form corporation ABC Inc. ABC Inc. will operate only the land operated in the previous year by Person Z and will participate in programs subject to payment limitation. Person Z retired from farming.

**Determination:** Substantive change is **not** required for the current year because:

- ABC Inc. did **not** participate in programs subject to payment limitation in the previous year
- ABC Inc. will **not** operate any land that was part of the farming operations of Persons A or B in the previous year.--\*

**\*--58 Substantive Change Rule for Legal Entities (Continued)**

**C Example 3, Existing Legal Entity**

**Situation:** Smith Family Farms Inc., comprised of all family members, participated in programs subject to payment limitation the previous year.

In the current year, 2 additional family members become stockholders in Smith Family Farms Inc. The additional stockholders did **not** have any farming interest in the previous year. Smith Family Farms Inc. will farm all of the land it operated in the previous year and will participate in programs subject to payment limitation.

**Determination:** Substantive change is **not** required because the addition of 1 or more stockholders to Smith Family Farms Inc. does **not** represent an increase in the number of payment limitations from the previous year.--\*

## Section 6 Actively Engaged Determinations

### Subsection 1 Actively Engaged Considerations

#### 61 General Considerations

##### A Introduction

For a person or legal entity to be considered actively engaged in farming, the participant **must** make a significant contribution of certain farming inputs. This paragraph lists and defines significant contributions.

##### B General Provisions

In general, for a person or legal entity to be considered actively engaged in farming, **all** the requirements of this table **must** be met.

Item	Requirement
1	<p>Significant “left-hand” contributions to the farming operation of 1 or a combination of the following:</p> <ul style="list-style-type: none"> <li>• capital</li> <li>• equipment</li> <li>• land.</li> </ul> <p><b>Note:</b> See paragraph 127 for exception.</p>
2	<p>Significant “right-hand” contributions to the farming operation of 1 or a combination of the following:</p> <ul style="list-style-type: none"> <li>• active personal labor</li> <li>• active personal management.</li> </ul> <p><b>Note:</b> See paragraph 62 for exception.</p>
3	A claimed share of the profits or losses from the farming operation that is commensurate with contributions to the farming operation.
4	Contributions that are at risk.

##### C Definition of Capital

For payment limitation purposes, capital means the funding provided by a person or legal entity to the farming operation for the operation to conduct farming activities.

**61 General Considerations (Continued)****D Definition of Land**

For payment limitation purposes, land means farmland consisting of cropland, pastureland, wetland, or rangeland that meets the specific requirements of the applicable program.

**E Definition of Equipment**

For payment limitation purposes, equipment means the machinery and implements used by the farming operation to conduct activities of the farming operation. This includes:

- machinery and implements for:
  - land preparation, planting, cultivating, or harvesting of the crops involved
  - establishing and maintaining conservation cover crops or conservation use acreages
  - conducting livestock operations
- irrigation equipment that is:
  - **not** of a permanent nature
  - commonly used in the area.

**F Definition of Active Personal Labor**

Active personal labor means personally providing physical activities necessary in a farming operation. These activities include physical activities:

- involved in land preparation, planting, cultivating, harvesting, and marketing of agricultural commodities
- required to establish and maintain conserving cover crops or conserving use acreages
- required in livestock operations.

**61 General Considerations (Continued)****G Active Personal Management**

Active personal management is personally providing:

- the general supervision and direction of activities and labor involved in the farming operation
- services, whether performed on-site or off-site, reasonably related and necessary to the farming operation, including any of the following:
  - supervision of activities necessary in the farming operation
  - business-related actions that include discretionary decision making
  - evaluation of the financial condition and needs of the farming operation
  - assistance in structuring or preparing financial reports or analyses for the farming operation
  - consultations in or structuring of business-related financing arrangements for the farming operation
  - marketing and promoting agricultural commodities produced by the farming operation
  - acquiring technical information used in the farming operation
  - any other management functions necessary to conduct the farming operation and for which the operation would ordinarily be charged a fee.

**H Hybrid Seed Producers**

The existence of a hybrid seed contract for a producer shall **not** be taken into account when making an actively engaged in farming determination with respect to the producer. However, all other actively engaged in farming provisions shall apply.

62 Landowner Exemption

A Actively Engaged Rule

A landowner shall be considered actively engaged in farming with respect to the owned land if **all** of the following requirements are met.

Item	Requirement
1	The landowner contributes owned land to the farming operation for which the landowner receives rent or income for the use of the land, based on the land's production or the operation's operating results.
2	The landowner's share of the profits or losses from the farming operation is commensurate with the landowner's contribution to the operation.
3	The landowner's contributions are at risk.

B Applicability of Rule

This rule applies to landowners who:

- are persons
- are persons with a life estate in the land
- are legal entities, such as corporations, trust, or estates
- have an undivided interest in the land

\* \* \*

- are members of a joint operation if the joint operation holds title to the land.

**Note:** This rule applies to joint operations only if 1 of the following applies:

- the members submit documentation to show the title to the land owned by the joint operation will revert to the individual members after dissolution of the joint operation according to each member's share in the joint operation

**Note:** This requirement is considered met if the documentation provides that upon dissolution of the joint operation, the land will be sold and the proceeds divided according to each member's share in the joint operation.

- if there is no documentation otherwise and the Regional Attorney advises that State law provides that upon dissolution of the joint operation the land will be sold and the proceeds divided according to each member's share in the joint operation.

**63 Landlord****A Actively Engaged Rule**

A landlord who is **not** a landowner shall be considered to be actively engaged in farming under the same rules as any other person or legal entity that is **not** a landowner.

**Notes:** If the landlord provides leased or rented land to an operation in return for a share of the crop, the land will be considered a contribution. Other contributions, as applicable, are required.

See paragraph 91 for cash-rent tenant requirements.

**B Example 1**

**Situation:** Landowner A cash leases land to Person B. Person B subleases the land to Operator C. Person B contributes land and does **not** contribute a significant amount of active personal labor or active personal management to the farming operation.

**Determination:** Person B is **not** actively engaged in farming. Person B **cannot** be considered to be actively engaged in farming because of the landowner provision, since Person B is a landlord and **not** a landowner. Landowner A is **not** actively engaged on this farming operation since cash-rent is received for using the land. A separate determination will be made for Operator C.

## 63 Landlord (Continued)

## C Example 2

**Situation:** Person D cash leases land from Landowner E. Person D subleases the land to Producer C on a share-rent basis. Person D contributes the land and active personal management to the farming operation.

**Determination:** Because Person D cash-rents the land from Landowner E, Person D:

- is a cash-rent tenant

**Notes:** A cash-rent tenant is eligible to receive program payments on the cash-rented land, if the cash-rent tenant provides a significant contribution of either of the following:

- active personal labor and capital, equipment, or land
- active personal management and equipment.

See paragraph 91 for cash-rent tenant requirements.

- is **not** the landowner and **cannot** be considered actively engaged in farming because of the landowner provision.

Because Person D has provided a significant contribution of land and management, Person D can be considered actively engaged in farming. However, Person D is **ineligible** to receive program payments on the cash-rented land, because the necessary contributions for a cash-rent tenant were **not** made.

A separate determination will be made for Producer C.

Landowner E is **not** considered actively engaged in farming for this farming operation.

## 64 Percent of Cropland Factor

### A Introduction

In some cases, producers may only be eligible for payment for a portion of the cropland in the farming operation. Therefore, FSA shall determine the percentage of the farming operation that is eligible for payment. This is determined based on the percent of cropland.

### B When to Use the Percent of Cropland Factor

Use percent of cropland factor when a producer:

- does **not** provide a significant contribution of active personal labor or active personal management to the entire farming operation
- is actively engaged in farming and eligible for payment on a portion of the land in the farming operation because of the landowner provision
- is a cash-rent tenant and is **ineligible** for payment for the cash-rented land.

**Note:** The automated system does **not** handle cases where the producer is actively engaged on some, but **not** all farming operations.

### C Applying the Percent of Cropland Factor

\*--The cropland factor **only** applies to programs subject to the actively engaged in farming requirements and the cash-rent rule.--\*

64 Percent of Cropland Factor (Continued)

**\*--D Determining the Factor**

Determine a “percent of cropland” factor according to this table.

Step	Action
1	List the total cropland acres for each farm in the producer’s farming operation and total the acres.
2	List the cropland acres owned by the producer on each of those farms and total the acres.  <b>Note:</b> Also include cropland acres that are <b>not</b> cash-rented and for which the producer meets the requirements to be eligible for payment.
3	Divide the result of step 2 by the result of step 1.
4	Multiply the factor from step 3 times the producer’s payments earned on <b>each</b> farm.
5	Pay the producer the adjusted payment allowed for each farm as determined by step 4.  <b>Note:</b> This adjusted payment may also represent the ownership percentage of the partners, stockholders, or members of a corporation or similar entity, that met the requirements of actively engaged in farming if total contributions of active personal labor and/or active personal management to the farming operation are considered significant.

64 Percent of Cropland Factor (Continued)

E Example 1

In this example, Sam Brown hires all labor and management necessary to conduct the farming operation.

<p><b>Farm 20</b>  <b>Tract 1 - 100 acres</b>                  Operator - Sam Brown                  Owner - Sam Brown                  Rental - N/A</p>
<p><b>Farm 20</b>  <b>Tract 2 - 100 acres</b>                  Operator - Sam Brown                  Owner - Pete Smith                  Rental - Cash lease</p>

**Result:** The farming operation for Sam Brown is the entire acreage on Farm 20. There is no farming operation for Pete Smith because he does **not** have an interest in any crop or crop proceeds.

Because Sam Brown does **not** provide a significant “right hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

Sam Brown owns 50 percent of the cropland in his farming operation. Therefore, payments to Sam Brown would be subject to a 50 percent of cropland factor.

64 Percent of Cropland Factor (Continued)

F Example 2

This example is the same as example 1, **except** the tracts are **not** combined as 1 farm. In this example, Sam Brown hires all labor and management necessary to conduct the farming operation.

<p><b>Farm 21</b>  <b>100 acres</b>                  Operator - Sam Brown                  Owner - Sam Brown                  Rental - N/A</p>
--

<p><b>Farm 22</b>  <b>100 acres</b>                  Operator - Sam Brown                  Owner - Pete Smith                  Rental - Cash lease</p>
--

**Result:** The farming operation for Sam Brown is the entire acreage on Farm 21 and Farm 22. There is **no** farming operation for Pete Smith because he does **not** have an interest in any crop or crop proceeds.

Because Sam Brown does **not** provide a significant “right hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

Sam Brown owns 50 percent of the cropland in his farming operation. Therefore, payments to Sam Brown would be subject to a 50 percent of cropland factor.

## 64 Percent of Cropland Factor (Continued)

## G Example 3

In this example, Sam Brown hires all labor and management necessary to conduct the farming operation.

<p style="text-align: center;"><b>Farm 23</b> <b>100 acres</b> Operator - Sam Brown Owners - Sam Brown and Pete Smith (undivided joint interest) Rental - Cash lease</p>
--

**Result:** Because Sam Brown does **not** provide a significant “right hand” contribution to the farming operation, he may only be considered actively engaged in farming under the landowner exemption for that portion of the farming operation represented by land he owns.

Because Sam Brown has an undivided ownership interest in the entire acreage in his farming operation, the percent of cropland owned is 100 percent. Accordingly, Sam Brown is actively engaged in farming on 100 percent of his farming operation and is eligible to receive 100 percent of the payment earned.

64 Percent of Cropland Factor (Continued)

H Example 4

In this example, Sam Brown and Pete Smith each have a 50 percent share in the partnership. The partnership and the members do **not** have any other farming interests. Sam Brown shares in the pro rata share of all crops, regardless of where the crops are planted. The partnership agreement stipulates that upon dissolution, the land ownership will revert to the members according to their current shares of the partnership. The partnership hires all labor and management necessary to conduct the farming operation.

<p><b>Farm 24</b>  <b>Tract 1 - 100 acres</b>                  Operator - Brown and Smith, a general partnership                  Owner - Sam Brown                  Rental - .3333 crop share</p>
<p><b>Farm 24</b>  <b>Tract 2 - 100 acres</b>                  Owner - Brown and Smith, a general partnership                  Rental - N/A</p>

**Result:** The partnership’s farming operation is the entire acreage in Farm 24.

Sam Brown’s farming operation is the acreage in tract 1.

Because the members of the partnership do **not** provide a significant “right-hand” contribution to the farming operation, the members of the partnership are only considered to be actively engaged in farming under the landowner exemption for that portion of their farming operation represented by owned land. Therefore, a 50 percent of cropland factor of would apply to payments made to the partnership.

A percent of cropland factor of 1.000 would apply to Sam Brown since he is considered to be actively engaged in farming on his entire farming operation.

64 Percent of Cropland Factor (Continued)

I Example 5

This example is similar to example 4, **except** the tracts are **not** combined as 1 farm. In this example, Sam Brown and Pete Smith are members of Brown and Smith Partnership. Neither the partnership nor the members have any other farming interests. The partnership agreement stipulates that upon dissolution, the land ownership will revert to the members according to their current shares of the partnership. The partnership hires all labor and management necessary to conduct the farming operation.

<p><b>Farm 25</b>  <b>100 acres</b>                  Operator - Brown and Smith, a general partnership                  Owner - Sam Brown                  Rental - .3333 crop share</p>
--

<p><b>Farm 26</b>  <b>100 acres</b>                  Operator - Brown and Smith, a general partnership                  Owner - Brown and Smith, a general partnership                  Rental - N/A</p>
--

**Result:** The partnership’s farming operation consists of Farm 25 and Farm 26. Sam Brown’s farming operation consists of the acreage in Farm 25, **only**. Because neither member of the partnership provides a significant “right hand” contribution to the farming operation, the members of the partnership may **not** be considered actively engaged in farming on the entire farming operation under the person or joint operation provisions. The members of the partnership, as landowners of Farm 26, are considered actively engaged in farming under the landowner exception.

Sam Brown, as individual landowner of Farm 25, is considered actively engaged in farming under the landowner exception. This is 100 percent of Sam Brown’s individual farming operation. Sam Brown’s interest in the partnership is a separate farming operation.

The partnership owns 50 percent of the cropland in its farming operation. Therefore, the members of the partnership are actively engaged in farming on 50 percent of the partnership’s farming operation and are entitled to receive 50 percent of the partnership’s earned payment on each farm in the farming operation.

64 Percent of Cropland Factor (Continued)

**J Example 6**

In this example, Brown, Smith, Black, and Jones Partnership is made up of the 4 individual landowners. The partnership and the members of the partnership do **not** have any other farming interests. Each farm is of equal size and value. The contributions of each partner are commensurate and at risk. Each landowner contributes their land to the partnership, so no rent will be paid. All payments go to the partnership.

The partnership hires all labor and management necessary to conduct the farming operation.

**Farm 27**  
**100 acres**  
 Operator - Brown, Smith, Black, and Jones, a general partnership  
 Owner - Sam Brown  
 Rental - N/A

**Farm 28**  
**100 acres**  
 Operator - Brown, Smith, Black, and Jones, a general partnership  
 Owner - Pete Smith  
 Rental - N/A

**Farm 29**  
**100 acres**  
 Operator - Brown, Smith, Black, and Jones, a general partnership  
 Owner - Henry Black  
 Rental - N/A

**Farm 30**  
**100 acres**  
 Operator - Brown, Smith, Black, and Jones, a general partnership  
 Owner - Bill Jones  
 Rental - N/A

**Result:** The farming operation for the partnership consists of all the acreage in Farms 27, 28, 29, and 30. Because the members do **not** provide “right hand” contributions, the members of the partnership are **not** actively engaged in farming under the person or joint operation provisions. However, each person is actively engaged in farming with respect to the actual land owned under the landowner exception.

Because the members of the partnership are **not** actively engaged in farming on the entire farming operation, only that portion earned with respect to the owned land may be paid. The percent of cropland owned by each owner is 25 percent. Accordingly, a 25 percent of cropland factor would be applied to the partnership’s payment on each farm.

**Subsection 2 Specific Rules for Contributions**

**71 Significant Contribution of Capital, Equipment, and Land**

**A Introduction**

When a significant contribution of capital, equipment, or land is required, use the rule in this paragraph to determine what is considered significant.

**B Rules for Significant Contributions**

This table shows the general rules for determining when a significant contribution is provided to a farming operation by a person or legal entity.

<b>Item</b>	<b>Rule</b>
Capital	The capital <b>must</b> have a value equal to at least 50 percent of the person’s or legal entity’s commensurate share of the total capital necessary to conduct the farming operation, <b>excluding</b> outlays of capital for land or equipment.
Equipment	The equipment <b>must</b> have a rental value equal to at least 50 percent of the person’s or legal entity’s commensurate share of the total rental value of the equipment necessary to conduct the farming operation.
Land	The land <b>must</b> have a rental value equal to at least 50 percent of the person’s or legal entity’s commensurate share of the total rental value of the land necessary to conduct the farming operation.  <b>Note:</b> Share-rented land is a contribution of the landlord, <b>not</b> the share-renter.
Any combination of capital, equipment, and land.	The combined contribution of capital, equipment, and land <b>must</b> have a value equal to 30 percent of the person’s or legal entity’s commensurate share of the total value of the farming operation.

## 72 Specific Rules for Capital

### A Introduction

For capital to be a significant contribution to the farming operation, the capital contributed **must** meet the requirements of this paragraph.

### B General Rule

The capital **must** be contributed directly to the farming operation from a fund and account separate and distinct from that of any other person or legal entity with an interest in the farming operation.

Capital contributions to a farming operation **do not** include:

- the value of labor or management
- outlays for land or equipment.

### C Source of Capital

The capital may be a direct out-of-pocket input of either of the following:

- a specified sum by the person, legal entity, joint operation, members of a joint operation, or combined State producer
- an amount borrowed by the person or legal entity.

**Note:** Current year advance program payments, such as advance direct payments, are **not** considered a capital contribution for purposes of meeting the requirements of actively engaged in farming. The applicant is **not** eligible to receive advance program payments until **after** the determination of actively engaged in farming is made by COC or reviewing authority.

72 Specific Rules for Capital (Continued)

**D Borrowed Capital**

Capital used as a significant contribution may be borrowed. The rules in this table apply to borrowed capital.

\*--

<b>IF the farming operation is conducted by either of the following...</b>	<b>THEN borrowed capital must...</b>
<ul style="list-style-type: none"> <li>• a person</li> <li>• a joint operation, but the capital is contributed by a member of the joint operation rather than by the joint operation itself</li> </ul>	<ul style="list-style-type: none"> <li>• be contributed directly to the farming operation by the applicable person or member</li> <li>• <b>not</b> have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation:                             <ul style="list-style-type: none"> <li>• that has an interest in the farming operation</li> <li>• in whose farming operation this person or joint operation has an interest.</li> </ul> </li> </ul>
<p>in which the capital is contributed by the legal entity or joint operation:</p> <ul style="list-style-type: none"> <li>• a legal entity</li> <li>• a joint operation</li> </ul>	<ul style="list-style-type: none"> <li>• be contributed directly to the farming operation by the legal entity or joint operation</li> <li>• <b>not</b> have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any person, legal entity, or joint operation:                             <ul style="list-style-type: none"> <li>• that has an interest in the farming operation, <b>except</b> all members of the joint operation , or all shareholders of the legal entity, to which the loan is made</li> <li>• in whose farming operation this legal entity or joint operation has an interest.</li> </ul> </li> </ul> <p><b>Note:</b> See example in subparagraph 139 C.</p>

--\*

73 **Specific Rules for Equipment**

**A Introduction**

To be credited as a significant contribution to the farming operation, owned or leased equipment **must** meet the requirements of this paragraph.

**B Leased Equipment**

The equipment may be leased from any person, legal entity, or joint operation; however, use the following table to determine if restrictions apply.

<b>IF the equipment is leased from...</b>	<b>THEN the...</b>
another person, legal entity, or joint operation that has an interest in the farming operation	producer <b>must</b> : <ul style="list-style-type: none"> <li>• be able to prove to COC that the equipment was leased at a fair market value</li> <li>• make the payment within the time determined by COC to be reasonable and customary for the area, taking into consideration whether the equipment is leased by the hour, day, or acre, or on an annual basis.</li> </ul>
a joint operation that has 1 or more members in common with the producer to whom the equipment is leased	
a person, legal entity, or joint operation <b>not</b> otherwise indicated in this table	restrictions provided in this table do <b>not</b> apply.

73 Specific Rules for Equipment (Continued)

C Financing Rules for Equipment

The restrictions on financing for equipment in this table apply to both owned and leased equipment contributed for credit as a significant contribution.

\*--

<p><b>IF the farming operation is conducted by either of the following...</b></p>	<p><b>THEN the equipment must...</b></p>
<ul style="list-style-type: none"> <li>• a person</li> <li>• a joint operation, but the equipment is contributed by a member of the joint operation rather than by the joint operation itself</li> </ul>	<ul style="list-style-type: none"> <li>• be contributed directly to the farming operation by the applicable person or member</li> <li>• <b>not</b> have been acquired as a result of a loan made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation:                             <ul style="list-style-type: none"> <li>• that has an interest in the farming operation</li> <li>• in whose farming operation this person or joint operation has an interest.</li> </ul> </li> </ul>

--\*

73 **Specific Rules for Equipment (Continued)**

**D Effects of Borrowed Capital on Equipment Contribution**

If any capital was borrowed by the person, legal entity, or joint operation from any other person, legal entity, or joint operation with an interest in the farming operation, the cash-leased equipment will **not** be considered as a significant contribution unless the person, legal entity, or joint operation can prove to COC that sufficient capital was available from another source to pay the cash lease.

**E Occasional Exchange of Equipment**

The occasional exchange of equipment, including labor, with a neighbor will **not** affect the contribution determination if each person or legal entity has adequate equipment, through ownership or lease, to conduct their farming operation in a manner normally acceptable for the area.

74 **Specific Rules for Land**

**A Introduction**

To be considered a significant contribution to the farming operation, owned or cash leased land **must** meet the requirements of this paragraph.

**B Leased Land**

The land may be leased from any person, legal entity, or joint operation.

If the land is leased from another person, legal entity, or joint operation that has an interest in any crop or crop proceeds in the farming operation, the producer **must**:

- be able to prove to COC that the land was leased at a fair market value
- make the payment within the time determined by COC to be reasonable and customary for the area.

**Note:** Share-rented land is a contribution of the landlord, **not** the share-renter.

74 Specific Rules for Land (Continued)

C Financing Rules for Land

The restrictions in this table apply to both owned and leased land contributed for credit as a significant contribution.

<p><b>IF the farming operation is conducted by either of the following...</b></p>	<p><b>*--THEN the land must...--*</b></p>
<ul style="list-style-type: none"> <li>• a person</li> <li>• a joint operation, but the land is contributed by a member of the joint operation rather than by the joint operation itself</li> </ul>	<ul style="list-style-type: none"> <li>• be contributed directly to the farming operation by the applicable person or member</li> <li>• <b>not</b> have been acquired as a result of a loan (including land acquired by Contract of Deed, Deed of Trust, Land Contract, or other similar arrangement) made to, guaranteed by, co-signed by, or secured by any other person, legal entity, or joint operation:                             <ul style="list-style-type: none"> <li>• that has an interest in the farming operation</li> <li>• in whose farming operation this person or joint operation has an interest.</li> </ul> </li> </ul>

**74 Specific Rules for Land (Continued)****D Effects of Borrowed Capital on Land Contribution**

If any capital was borrowed by a person, legal entity, or joint operation from any other person, legal entity, or joint operation with an interest in the farming operation, cash leased land will **not** be considered a significant contribution **unless** the person, legal entity, or joint operation can prove to COC that sufficient capital was available from another source to pay the cash lease.

**E Recording Land Contributions**

**All** land involved in a farming operation is to be recorded in the following:

- CCC-902 Continuation, Part A
- CCC-902E, Part E
- CCC-902I, Part C
- \*--CCC-902I Short Form, Part C.--\*

75 **Significant Contribution of Active Personal Labor or Management**

**A Introduction**

[7 CFR 1400.3] When a significant contribution of active personal labor or active personal management is required, use the rules in this paragraph to determine what is considered significant.

**B Rules on Significant Contribution**

This table shows the general rules for determining when a significant contribution is provided to a farming operation by a person or legal entity.

Item	Rule
Active personal labor.	The active personal labor <b>must</b> be an amount that is the smaller of: <ul style="list-style-type: none"> <li>• 1,000 hours per either FY or crop year</li> <li>• 50 percent of the total hours that would be required to conduct a farming operation comparable in size to this person’s or legal entity’s commensurate share in the farming operation.</li> </ul>
Active personal management.	The contribution of active personal management <b>must</b> be critical to the profitability of the farming operation, taking into consideration the person’s or legal entity’s commensurate share in the farming operation.
Any combination of labor and management.	Combined contributions of active personal labor and active personal management <b>must</b> have a critical impact on the profitability of the farming operation in an amount at least equal to the significant contribution of either consideration when taken alone.

**Note:** If a member of a joint operation receives a guaranteed payment for any part of a contribution of labor or management, **exclude** all of the specific type of contribution for which payment is received.

**76 Specific Rules for Active Personal Labor or Management****A Introduction**

It is difficult to measure a significant management contribution. The required hours of labor will be different in 1 type of farming operation than another. In some cases, it is difficult to distinguish between labor and management.

**B Basis for Decisions**

Decisions **must** be based on COC's best judgment considering the:

- requirements in this Section
- intent of significant contribution provisions is to provide program benefits to bona fide farmers, personally providing meaningful inputs on the farm.

**Note:** COC's are given discretion to make the subjective decisions required.

**C Requiring Proof**

If necessary, COC may require proof of who provides:

- labor equal to 50 percent or more of the person's or legal entity's commensurate share of the labor required

**Note:** Proof of labor exceeding 1,000 hours is **not** required.

- management input critical to the overall profitability of the farming operation
- a satisfactory contribution of a combination of labor and management.

77 **Inputs for Commensurate Contributions**

**A Introduction**

For a farming input to be considered toward satisfying the requirements of commensurate contributions, the requirements of this paragraph **must** be met.

**B Rules for Commensurate Contributions**

After the requirements for significant contributions have been met, apply the rules in this table when determining commensurate contributions.

Farming Input	General Rule	Requirements	
<ul style="list-style-type: none"> <li>• Capital</li> <li>• Equipment</li> <li>• Land</li> </ul>	Include if contributed directly to the farming operation by the person or legal entity.	<p><b>IF the contribution was acquired as a result of a loan to the...</b></p> <ul style="list-style-type: none"> <li>• farming operation in which the person or legal entity has an interest</li> <li>• person, legal entity, or farming operation:                             <ul style="list-style-type: none"> <li>• by the farming operation or any of its members, beneficiaries, or related entities</li> <li>• that was guaranteed or secured by the farming operation or any of its members, beneficiaries, or related entities</li> </ul> </li> </ul>	<p><b>THEN the loan must...</b></p> <ul style="list-style-type: none"> <li>• bear the prevailing interest rate</li> <li>• have a repayment schedule normal for the area.</li> </ul>

78 **Determining Commensurate Contributions**

**A Introduction**

Use the guidelines in this paragraph to determine whether contributions are commensurate with shares.

**B General Rule**

Total contributions that are “within reason” of being equal to the claimed share of profits and losses shall be considered commensurate.

**Note:** COC’s shall **not** establish a specific tolerance for “within reason.”

**C Determining Contributions**

Use the steps in this table to determine each person’s or legal entity’s contributions to a farming operation.

<b>Step</b>	<b>Action</b>
1	Determine the total amount of each farming input needed to conduct the farming operation.
2	Determine the type and amount of farming inputs provided by the person or legal entity that meet the requirements in paragraph 77.
3	Determine the percentage of each input required to conduct the farming operation provided by the person or legal entity.
4	<p>Does the person or legal entity provide the same percentage of all inputs required to conduct the farming operation?</p> <ul style="list-style-type: none"> <li>• If yes, consider the person or legal entity as providing that percentage of the farming inputs required to conduct the farming operation.</li> <li>• If no, determine the value of the inputs provided by the person or legal entity relative to the total amount of farming inputs required to conduct the farming operation.</li> </ul>
5	Determine whether the person’s or legal entity’s contributions to the farming operation are commensurate with the person’s or legal entity’s claimed share of the farming operation. See subparagraph D.

## 78 Determining Commensurate Contributions (Continued)

**D Determining Commensurate Shares**

Use the steps in this table to determine whether contributions to a farming operation are commensurate with the claimed share of the profits or losses.

Step	Determination
1	<p>Is the producer's farming operation participating in more than 1 program?</p> <ul style="list-style-type: none"> <li>• If yes, go to step 2.</li> <li>• If no, go to step 4.</li> </ul>
2	<p>Are the producer's total contributions to the entire farming operation commensurate with the claimed shares of all programs for the entire farming operation?</p> <ul style="list-style-type: none"> <li>• If yes, go to step 5.</li> <li>• If no, go to step 3.</li> </ul>
3	<p>Are the producer's contributions to <b>each</b> of the programs commensurate with the claimed shares of each program separately?</p> <ul style="list-style-type: none"> <li>• If yes, go to step 5.</li> <li>• If no, do <b>not</b> continue.</li> </ul> <p><b>Note:</b> Determine the producer to be <b>not</b> actively engaged for the farming operation.</p>
4	<p>Are contributions by the producer that COC considers pertinent to the farming operation commensurate with the claimed share of profits or losses from the farming operation?</p> <ul style="list-style-type: none"> <li>• If yes, go to step 5.</li> <li>• If no, do <b>not</b> continue.</li> </ul> <p><b>Note:</b> Determine the producer to be <b>not</b> actively engaged for the farming operation.</p>
5	<p>Determine the producer to be actively engaged in farming if all other provisions are satisfied.</p>

**78 Determining Commensurate Contributions (Continued)**

**E DD Responsibility**

DD is responsible for:

- verifying that no “tolerance” for commensurate contributions is established in any county
- maintaining reasonable uniformity between counties
- ensuring that the integrity of the program is maintained.

**79 Determining Contributions at Risk**

**A Introduction**

In addition to other requirements for a person or legal entity to be considered actively engaged in farming, the contributions made by the person or legal entity **must** be at risk.

**B General Rule**

For a producer’s contribution to be considered at risk, there **must** be a possibility that the producer could suffer loss.

**C Specific Rules for At Risk**

Apply the rules in this table when determining whether contributions are at risk.

<b>IF producer is a...</b>	<b>THEN the...</b>
person	person’s contributions to the farming operation <b>must</b> be at risk.
joint operation	members’ contributions to the farming operation <b>must</b> be at risk.
legal entity	legal entity’s contributions to the farming operation <b>must</b> be at risk.

## Section 7 Cash-Rent Tenant

## 91 Cash-Rent Tenant Rule

## A Introduction

A cash-rent tenant **must** meet the requirements of this paragraph to be eligible to receive payment for the programs listed in paragraph 11 that require applying the cash-rent tenant rule.

## B Definition

Cash-rent tenant means a producer that rents land from another producer for cash, or a guaranteed crop share, as the amount of the commodity to be paid in rent.

**Note:** The provisions apply to tenants who rent land for 0 dollars or farm the land in exchange for compensation other than cash, such as:

- controlling weeds on land **not** owned
- barter arrangements.

## C Rule

[7 CFR 1400.301 (a)] Any cash-rent tenant shall be **ineligible** to receive payments **unless** the cash-rent tenant makes either of the following:

- a significant contribution of active personal labor to the farming operation
- a significant contribution of **both** of the following to the farming operation:
  - active personal management
  - equipment.

**\*--Note:** Applying the spousal provision in subparagraph 116 A for determining actively engaged in farming can be used by spouses in meeting these requirements.

## D Additional Requirements

The cash-rent tenant:

- **must** meet all requirements to be considered eligible actively engaged in farming
- may be eligible to receive payments on land in the farming operation that is **not** cash-rented, if the requirements in subparagraph C are **not** met.

**Note:** See paragraph 64 for applying a cropland factor.--\*

91 Cash-Rent Tenant Rule (Continued)

E Specific Rules for Equipment

Use the rules in this table if a significant contribution of equipment is necessary to meet the requirements of the cash-rent tenant rule.

<b>IF the cash-rent tenant...</b>	<b>THEN...</b>
provides the harvesting equipment	the rental value of harvesting equipment is included when determining if a significant contribution of equipment is met.
meets <b>both</b> of the following requirements: <ul style="list-style-type: none"> <li>• custom harvesting is used in the cash-rent tenant’s farming operation</li> <li>• the custom harvester has no interest in the farming operation</li> </ul>	the rental value of harvesting equipment is <b>not</b> included when determining if a significant contribution of equipment is met. <p><b>Note:</b> The rental value of harvesting equipment would still be considered in making actively engaged in farming determinations.</p> <p><b>Example:</b> Person A, a cash-rent tenant, owns or leases all equipment for the farming operation <b>except</b> equipment needed for harvesting. Harvesting is custom hired. The custom harvester has <b>no</b> interest in the farming operation.</p> <p>The rental value of harvesting equipment shall <b>not</b> be included in determining the total rental value of equipment needed to conduct the farming operation for cash-rent tenant rule purposes.</p>
leases the equipment from *--the landlord	the lease and payment <b>must</b> meet the requirements of subparagraph 73 B.
leases the equipment from the landlord, or the--* same person or legal entity that is providing hired labor to the farming operation	<b>both</b> of the following conditions <b>must</b> be met: <ul style="list-style-type: none"> <li>• contracts for leasing the equipment and the hired labor <b>must</b> be 2 separate contracts that reflect the fair market value of the leased equipment and the hired labor</li> <li>• cash-rent tenant <b>must</b> exercise complete control over using a significant amount of the equipment during the current crop year.</li> </ul> <p><b>Note:</b> <u>Complete control</u> means exclusive access and use by the tenant.</p>

## 92 Cash-Rent Tenant Example

### A Example 1

**Situation:** Person A cash leases land from Landowner B. Person A subleases the land to Producer C on a share-rent basis. Person A contributes the land and active personal management to the farming operation.

**Determination:** Because Person A cash-rents the land from Landowner B, Person A is:

- a cash-rent tenant
- **not** the landowner and **cannot** be considered actively engaged in farming because of the landowner provision.

Because Person A has provided a significant contribution of land and management, Person A can be considered actively engaged in farming. However, Person A is **ineligible** to receive program payments on the cash-rented land, because the necessary contributions for a cash-rent tenant were **not** made.

A separate determination will be made for Producer C.

**Explanation:** Landowner B is **not** considered to be actively engaged in farming for this farming operation, but may be considered actively engaged in farming for another farming operation.

### B Example 2

**Situation:** A joint operation consists of Persons A, B, C, and D; all with equal shares. All land is cash-rented by the joint operation. Members A and B provide all of the equipment, Members C and D provide all the capital, all necessary labor is hired by the joint operation, and active personal management is provided equally by the members.

**Determination:** Only Members A and B meet the cash-rent tenant rule requirements because they provide management and equipment. Therefore, payment to the joint operation is limited to the amount represented by the shares held by Members A and B.

**Explanation:** Since all labor is hired by the joint operation, significant contributions of both equipment and active personal management are **required**. Members C and D do **not** provide any contributions of equipment and; therefore, do **not** meet the requirements of the cash-rent tenant rule required for payment eligibility.

**92 Cash-Rent Tenant Example (Continued)****C Example 3**

**Situation:** Same as subparagraph B, **except** the joint operation provides all capital, equipment, and hired labor. Active personal management is equally provided by the members.

**Determination:** All members meet the cash-rent tenant rule requirement.

**Explanation:** Since all labor is hired by the joint operation, significant contributions of **both** equipment and active personal management of the members are required. A significant equipment contribution was provided by the joint operation and active personal management was provided by the members.

**D Example 4**

**Situation:** Same as subparagraph C, **except** the joint operation has all of the land custom farmed by unrelated persons and legal entities.

**Determination:** All members are ineligible for payment on the land cash-rented by the joint operation.

**Explanation:** Significant active personal labor contributions by the members, or a significant equipment and active personal management contribution, were **not** provided to the operation as required for payment eligibility.

**92 Cash-Rent Tenant Example (Continued)****E Example 5**

**Situation:** A local Future Farmers of America chapter requests program payments on land that is cash-rented from an unrelated party. The chapter members are providing active personal labor and active personal management to the farming operation.

**Determination:** The National Future Farmers of America is a Federally chartered corporation with its purpose to create, foster, and assist subsidiary chapters composed of students enrolled in vocational agriculture in public schools. The corporation may **not** issue stock, or declare or pay any dividend.

All the partners, stockholders, or members with an ownership interest are providing active personal labor, active personal management, or a combination of active personal labor and active personal management (7 CFR 1400.204).

Even though the chapter members may be providing active personal labor and/or active personal management, they do **not** have the **required** ownership interest in the corporation. Consequently, Future Farmers of America chapters **cannot** be considered to have met the cash-rent tenant rule requirements on the rented land.

**93-95 (Reserved)**

**Section 8 Notification of Interests**

**96 Entity Responsibilities**

**A Introduction**

**97 Notification Exceptions****A Introduction**

All legal entities receiving payment, including embedded legal entities must submit the documentation required in subparagraph 98 A, **unless** an exception in subparagraph B applies.

**B Exception**

Notification requirements do **not** apply if the legal entity is tax exempt under Internal **\*--Revenue Code, Section 501(c)--\***

**Notes:** Approval by IRS shall be indicated by providing COC with a copy of either of the following:

- IRS determination letter notifying the organization or legal entity of approval as a tax exempt entity for the year
- copy of the organization's or legal entity's most recently filed IRS-990.

Documentation **not** effective for the current year may be accepted if COC is satisfied the status for the current year is the same as supported by the documentation.

98 Required Information

\*--A Rule [7 CFR 1400.107]--\*

**B Filing Responsibility**

The legal entity that is earning payment is responsible for obtaining and providing the required information to COC.

**C Deadline for Submitting CCC-901's**

The legal entity earning payment shall provide the completed CCC-901 to COC when CCC-902E is filed.

**D Filing and Distribution**

Sincerely,

County Executive Director

D Letter to Ineligible Foreign Entities

Insert the following statement in notification letters to ineligible foreign entities:

**Part 4 Eligibility Determinations for Farming Operations**

**Section 1 General Determinations**

**116 Spouses**

**A Actively Engaged in Farming Rule for Spouses**

Use this table for actively engaged in farming determinations involving spouses.

<b>IF the spouses are both...</b>	<b>THEN...</b>
farming together: <ul style="list-style-type: none"> <li>• in a joint operation</li> <li>• as an entity</li> </ul>	if 1 spouse is determined actively engaged in farming, the other is credited with significant contributions of active personal labor and active personal management to the same farming operation. The requirements of significant contribution of capital land, or equipment, commensurate share and risk remain applicable. <p style="text-align: right;"><b>*--Note:</b> This also includes the spouse's estate.--*</p>
involved in separate farming operations	<b>each</b> spouse <b>must</b> independently meet all applicable requirements to be considered actively engaged in farming.

**B Determinations for Spouses Example 1**

**Situation:** Husband A and Wife B have a joint farming operation comprised of 500 acres of rented land. In addition, Wife B has 100 percent interest in Corporation X that is participating in CRP and earning annual payments.

- Husband A and Wife B jointly own all the equipment and provide all the capital for their farming operation.
- Husband A contributes at least 50 percent of the active personal labor and a significant contribution of active personal management for the joint farming operation. Wife B does not provide active personal labor or active personal management.
- Husband A's and Wife B's share of the profits or losses from the farming operation are commensurate with their contributions and the contributions are at risk.

**Determination:** Husband A is considered to be actively engaged in farming because he is making both a left hand and right hand contribution. Wife B is also making a left hand contribution, but is not making a right hand contribution. However, by using the actively engaged rule for spouses, Wife B is credited with contributing labor and management; therefore, Wife B is considered to be actively engaged. Husband A and Wife B are each eligible to receive their respective share of the total program payments and benefits received by the joint operation and subject to limitation. Any contributions necessary for payment eligibility credited to Wife B are **only** applicable to the joint operation and do **not** apply to the Corporation X farming operation.

## 116 Spouses (Continued)

**C Determinations for Spouses Example 2**

**Situation:** Husband M and Wife N have a joint farming operation comprised of 700 acres of owned and cash-rented land. Wife N is an heir to the estate of her father who died in the previous year. Wife N is a full-time employee at the local FSA office.

- Husband M and Wife N jointly own all of the equipment and provide all of the capital necessary for the farming operation.
- Husband M contributes the majority of the active personal labor and the active personal management for the farming operation.
- Wife N contributes active personal labor and active personal management, whenever able, to the farming operation, but the amount is **not** commensurate with her share.
- The estate owns land, of which Wife N is an heir, and meets the requirements to be considered actively engaged in farming under the landowner provision.
- Husband M and Wife N's shares of the profits or losses from the farming operation are commensurate with their contributions to the farming operation and the contributions are at risk.

**Determination:** Husband M, Wife N, and the estate are all considered actively engaged in farming. Through the special provision for spouses, Wife N is credited as making significant contributions of active personal labor and/or active personal management to the farming operation since Husband M is considered to have met the requirement of actively engaged in farming. Both Husband M and Wife N made significant contributions of capital and equipment, and consequently, both met the requirements of the cash-rent tenant rule as well. In addition to her share of the program payments received through this joint farming operation, Wife N will also be attributed payments earned by her father's estate according to her share held as an heir.

**117 Minor Children****A Definition of Minor Child**

[7 CFR 1400.101] Minor child means a person that is **not** 18 years of age on or before April 1 of the current year.

**\*--Effective for 2010 through 2012 crop, program, and FY's, June 1 of the current year shall be the date used for the determination of minor child.--\***

**Notes:** Court action conferring majority on such person does **not** change this person's status as a minor child.

Person A's payments will continue to be attributed to his/her parent for the applicable crop year, program year, or FY even though the age of majority is reached during the year.

**B Payments to a Minor Child**

Payments issued to a minor child:

- are attributed to the parent or court-appointed person who is responsible for the child
- that is a beneficiary of a trust or heir of an estate, are attributed to the parent or court-appointed person who is responsible for the child.

If a revocable trust, program payments will be attributed **only** to the grantor of the revocable trust.

## 117 Minor Children (Continued)

**C Exception to Rule**

- the minor child is a producer on a farm
- neither the minor child's parents nor court-appointed person has any interest in the minor child's farm or production from that farm.

**D Exception Restrictions**

**121 Clubs, Societies, and Fraternal and Religious Organizations****A Rule [7 CFR 1400.103]**

Charitable organizations, including clubs, societies, fraternal, and religious organizations, shall be considered separate and distinct farming operations from the members of the organization or any other legal entity.

**B Exceptions to Rule**

If the land operated by the organization, or the production from the operation, may transfer to a legal entity that exercises control over the organization, the payments to the organization shall be attributed to the parent organization.

**Note:** If parent organization's TIN is used by the organization, the payments to the organization shall be attributed to the parent organization.

**Important:** The fact that an organization has a separate TIN does **not** mean that it qualifies for a separate limitation. If there is any indication that 1 organization exercises control over another organization and land or proceeds transfer to the parent organization, the payments shall be attributed to the parent organization and payments limited accordingly.

**Example:** If land owned by a church within a diocese would transfer to the diocese upon closure of the church, payments to the church would be attributed to the diocese.

**C Example of Determinations for Charitable Organizations**

**Situation:** A charitable organization forms other charitable organizations that are represented to be separate organizations. The other organizations have separate TIN's and each is recognized by IRS as qualifying as a charitable organization. However, there is evidence that the parent organization continues to exercise control over the other organizations, and that the land, or proceeds from the land, may transfer to the parent organization.

**Result:** All payments will be attributed to the parent organization.

123-125 (Reserved)

Section 2 Persons

126 Actively Engaged in Farming Determinations

A Rule [7 CFR 1400.201]

A person shall be considered to be actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The person makes a significant contribution to the farming operation of <b>both</b> of the following: <ul style="list-style-type: none"> <li>• capital, equipment, land, or a combination thereof</li> <li>• active personal labor, active personal management, or a combination thereof.</li> </ul>
2	The person’s share of the profits or losses from the farming operation is commensurate with the person’s contribution to the farming operation.
3	The person’s contributions are at risk.

B Other Participants That Use This Rule

This rule also applies to a person who is a:

- partner in a general partnership
- participant in a joint venture.

C Military Personnel

[7 CFR 1400.213] COC may determine a person who is called to active duty in the military during the program year actively engaged in farming according to this table.

IF the person is called to active duty in the military...	THEN COC...
before the determination is made	<b>must</b> determine that the person was making a conscious effort to be, and would have been determined to be, actively engaged in farming if <b>not</b> for being called to active duty in the military.
after the determination is made	shall allow the determination to be in effect for the program year.

127 Sharecroppers

A Rule [7 CFR 1400.209]

A sharecropper shall be considered actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The sharecropper makes a significant contribution of active personal labor to the farming operation for which the sharecropper receives a specified share of the crop produced on the farm.
2	The sharecropper’s share of the profits or losses from the farming operation is commensurate with the contribution to the operation.
3	The sharecropper’s contributions are at risk.

**Note:** To be considered actively engaged in farming under this provision, the person may:

- **not** receive wages for labor and be considered a sharecropper for this purpose
- be provided housing and “draw” cash advances to be deducted later from proceeds of the crop.

B Example

**Situation:** Person Y provides labor for Landowner Z on 500 acres of rice in exchange for a share of the crop. Person Y **only** contributes active personal labor to the farming operation and receives a cash advance that will be set off from the proceeds of the crop after harvest. Landowner Z provides Person Y with housing.

**Determination:** Person Y is considered to be actively engaged in farming since Person Y is a sharecropper and the requirements in subparagraph A are met. Landowner Z is considered to be actively engaged in farming since Landowner Z is a landowner.

128 Incapacitated Persons

**A Introduction**

This paragraph describes the requirements for a person who dies or becomes incapacitated during the program year to be determined actively engaged in farming,

**B Rule [7 CFR 1400.210]**

COC may determine a person who dies or becomes incapacitated during the program year actively engaged in farming according to this table.

<b>IF the person dies or becomes incapacitated...</b>	<b>THEN COC...</b>
<b>before</b> the determination is made	<b>must</b> determine that the person would have been determined to be, actively engaged in farming, if <b>not</b> for the person's death or incapacitation.
<b>after</b> the determination is made	shall allow the determination to be in effect for the program year.

**Notes:** This rule is also applicable to an entity if COC determines that the person who died or who became incapacitated would have qualified the legal entity as actively engaged in farming,

The following year, the person, the person's estate, or the legal entity, as applicable, **must** meet all of the necessary requirements to be actively engaged in farming for that year.

**129 Case Examples****A Example 1**

**Situation:** Person Z rents 1,500 acres of land on a share-rent basis. Person Z owns the equipment and contributes at least 50 percent of the commensurate share of active personal labor and contributes 100 percent of the farming operation's management. In this situation, Person Z's share of the profits or losses from the farming operation is commensurate with Person Z's contributions to the operation and the contributions are at risk.

**Determination:** Person A is considered to be actively engaged in farming,

**B Example 2**

**Situation:** Person A rents land on a share-rent basis. Person A contributes a significant amount of leased equipment and a significant amount of active personal management to the farming operation. Capital is borrowed from another producer on the farm at the prevailing interest rate. The labor needed for Person Z's farming operation is hired. Person A's share of the profits or losses from the farming operation is commensurate with person A's contribution to the operation and the contributions are at risk.

**Determination:** Person A is considered to be actively engaged in farming since Person A contributes a significant amount of both equipment and active personal management. A contribution of capital, equipment, or land is used to meet the significant contribution.

Section 3 Joint Operations

136 Eligibility Determinations

A Rule [7 CFR 1400.203]

Each member who shares in the income from a joint operation **must** be determined to be actively engaged in farming for the joint operation to be fully eligible for payment.

\* \* \*

137 Joint Operation Actively Engaged in Farming Determinations

**A Rule**

Members of a joint operation can be determined actively engaged in farming by meeting **all** of the requirements in this table.

Item	Requirement
1	<p>Contributions to the farming operation of <b>both</b> of the following are made:</p> <ul style="list-style-type: none"> <li>• the member <b>or</b> joint operation makes a significant contribution of capital, equipment, or land, or a combination thereof</li> <li>• each member makes a significant contribution of active personal labor or active personal management, or a combination thereof, that are:                             <ul style="list-style-type: none"> <li>• performed on a regular basis</li> <li>• identifiable and documentable</li> <li>• separate and distinct from contributions of any other member.</li> </ul> </li> </ul> <p><b>Note:</b> See subparagraph 116 A for exceptions for spouses.</p>
2	<p>The member must provide satisfactory evidence that his or her contributions of land, labor, management, equipment, or capital to the joint operation are commensurate with the member’s claimed share of the profits or losses of the joint operation. See subparagraphs 147 D, E, and F for recordkeeping, methods of proof, and verification requirements.</p>
3	<p>The member’s contributions to the farming operation are at risk.</p>

**B Separate and Distinct Contribution of Labor**

If a member provides active personal labor to the joint operation’s farming operation that is performed on a regular basis, and that is identifiable and documentable, the member will be considered to have met the requirement of a separate and distinct contribution of labor to the joint operation’s farming operation.

**C Contributions Not Commensurate**

For a member of a joint operation whose contributions of inputs are not equal to his or her claimed share:

- if the contribution is less than commensurate, that member is not considered “actively engaged in farming” and ineligible to receive any payment earned by the joint operation
- if the contribution is at least commensurate, that member may receive his or her share of the payment earned by the operation, but this share cannot be increased because of the ineligibility of another member.

**138 Family Members in a Joint Operation**

**A Definition [7 CFR 1400.3]**

Family member means a person to whom another member in the farming operation is related as lineal ancestor, lineal descendant, sibling, spouse, or otherwise by marriage.

The term family member shall include:

- great grandparent
- grandparent
- parent
- child, including legally adopted children and stepchildren
- grandchild
- great grandchild
- sibling of the family members in the farming operation
- spouse of family members.

**B Making Determinations**

In making determinations, COC shall consider the makeup of the operation at the time the determinations are made.

**C Rule [7 CFR 1400.208]**

A person who is an adult family member shall be considered actively engaged in farming for a joint operation composed of a majority of whom are family members, if **all** of the requirements in this table are met.

Item	Requirement
1	The family member makes a significant contribution of active personal management or active personal labor, or combination thereof, to the farming operation.
2	The family member's share of the profits or losses from the farming operation is commensurate with the family member's contribution to the operation.
3	The family member's contributions are at risk.

## 138 Family Members in a Joint Operation (Continued)

**D Example 1**

**Situation:** In 2008, Partnership AB consists of Person A and Person B, 2 unrelated person members. In 2009, Person C, an adult son of Person A, will join the partnership.

- Persons A and B will **each** provide a significant contribution of active personal labor and active personal management.
- Person C will provide a significant contribution of active personal labor.
- The partnership will provide all of the capital and equipment. The land is share leased by the partnership from 5 different landowners.

**Determination:** A majority of the persons of the joint operation are family members. Based on the contributions of each member, Persons A, B, and C are **each** considered to be actively engaged in farming, if COC determines the contributions are at risk and claimed shares are commensurate with the contributions of each member.

Person C is actively engaged in farming because of the family member provision, since the joint operation consists of 3 persons, a majority of whom are persons that are family members.

**E Example 2**

**Situation:** Father A has been farming owned land and rented land for many years. Son B, an adult, is starting to farm with his father. Son B contributes a significant amount of active personal labor. Father A contributes all of the farming operation's capital, equipment, and active personal management.

**Determination:** Father A and Son B are both considered to be actively engaged in farming, if COC determines the contributions are at risk and claimed shares are commensurate with the contributions of each member.

## 138 Family Members in a Joint Operation (Continued)

**F Example 3**

**Situation:** In 2008, Partnership CD consisted of Person C and Grandfather D. In 2009, Grandson E is brought into the farming operation.

- Person C contributes all the capital and a significant amount of active personal management.
- Grandfather D contributes the use of a significant amount of equipment, owned land, and active personal management.
- Grandson E will provide all the active personal labor.

**Determination:** Person C, Grandfather D, and Grandson E will each be considered to be actively engaged in farming, if COC determines the claimed shares are at risk and commensurate with each partner's contribution to the farming operation.

**G Example 4**

**Situation:** ABC Partnership is a family held partnership consisting of Father A, Son B, and Daughter C. In 2009, Father A brings Son-in-law D into the farming operation.

- Daughter C, who is married to Son-in-law D, does **not** provide a significant amount of active personal labor or active personal management to the farming operation.
- Son B contributes a significant amount of capital, active personal labor, and active personal management.
- Father A originally contributed his owned equipment to the partnership and contributes some capital and a significant amount of active personal management.
- Son-in-law D contributes a significant amount of both active personal labor and active personal management to the farming operation.

**Determination:** Father A, Son B, and Son-in-law D are considered to be actively engaged in farming, if COC determines the claimed shares are at risk and commensurate with each partner's contribution to the farming operation. Daughter C is considered to be actively engaged in farming, if the requirements of paragraph 116 apply. Son-in-law D was brought into the farming operation using the family member provision.

## 138 Family Members in a Joint Operation (Continued)

**H Example 5**

**Situation:** Mother A, Daughter B, and Son C are partners in a family partnership. Son D, a minor child, becomes a partner in 2009.

- Mother A contributes a significant amount of both capital and active personal management.
- Daughter B contributes a significant amount of both capital and active personal management.
- Son C contributes a significant amount of equipment, active personal labor, and active personal management.
- Son D contributes a significant amount of active personal labor.

**Determination:** Mother A, Daughter B, and Son C are considered to be actively engaged in farming. However, Son D is **not** considered to be actively engaged in farming because of the family member provision because he is **not** an adult family member.

**139 Joint Operation Case Examples****A Example 1**

**Situation:** Partnership AB farms 2,000 acres of land. The partnership owns the equipment and the partners provide at least 50 percent of their commensurate share of active personal labor and a significant amount of active personal management. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contribution to the operation and each partner's contributions are at risk.

**Determination:** Partners A and B are considered to be actively engaged in farming and each have a separate payment limitation.

**B Example 2**

**Situation:** Partnership CD farms 2,000 acres of land. Each partner contributes a significant amount of both capital and active personal management to the farming operation. Labor is hired. Equipment and land are rented from third parties. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contribution to the operation and each partner's contributions are at risk.

**Determination:** Partners C and D are considered to be actively engaged in farming and each have their own respective payment limitation.

**C Example 3**

**Situation:** Partnership EFG farms 2,000 acres of land. The contributions of capital, land, and equipment are acquired from loans from a banking institution. The bank requires that all partners sign to guarantee the loan. The partners provide at least 50 percent of their commensurate share of active personal labor and a significant amount of active personal management. Each partner's share of the profits or losses from the farming operation is commensurate with the partner's contributions to the operation and each partner's contributions are at risk. None of the partners have any other farming interests.

**Determination:** Partners E, F, and G are considered to be actively engaged in farming. The fact that the contributions of capital, land, and equipment are guaranteed by the members does **not** prevent the contributions from being considered for a significant contribution. See subparagraphs 72 C, 72 D, and 73 C.

B Stock Classes

For corporations with more than 1 stock class; such as preferred and common, the ownership percentage of stock, or unit of ownership, shall be determined by the fair market value of outstanding stock.

**Note:** The value can be determined by COC, STC, DAFP, or designee, but should be determined at the earliest level **before** referring to the next higher level of authority.

## 146 Corporation, LLC, LLP, and LP \* \* \* Eligibility Determinations (Continued)

**C Fair Market Value Factors**

To determine the fair market value of stock, or unit ownership, the following available factors shall be considered:

- current market quotations for each stock class
- relevant factors affecting the value of each stock class
- rights and privileges of each stock class
- any other information that would assist in the determination.

**D Programs Not Requiring Actively Engaged in Farming Determinations**

If a program requires person determinations, but **not** actively engaged in farming determinations, the following are **required** to be eligible for payments or benefits:

- claimed share of the profits or losses of the farming operation **must** be commensurate with the contributions to the farming operation
- contributions **must** be at risk.

147 Corporation, LLC, LLP, and LP Actively Engaged in Farming Determinations

A Rule

[7 CFR 1400.204] A corporation, LLC, LLP, or LP shall be considered to be actively engaged in farming, if **all** of the requirements in this table are met.

Item	Requirement
1	The legal entity independently and separately makes a significant contribution of capital, equipment, land, or combination thereof.
2	<p>Partners, stockholders, or members with an ownership interest in the legal entity make contributions, whether compensated or <b>not</b> compensated, of active personal labor, active personal management, or a combination of active personal labor and active personal management to the farming operation; that are:</p> <ul style="list-style-type: none"> <li>• performed on a regular basis</li> <li>• identifiable and documentable</li> <li>• separate and distinct from contributions of any other partner, stockholder, or member.</li> </ul> <p><b>Note:</b> If all the partners, stockholders, and members do <b>not</b> meet this requirement, payments subject to the actively engaged in farming determination are reduced by the share held by that partner, stockholder, or member.</p>
3	The collective contribution of active personal labor or active personal management by partners, stockholders, or members is a significant contribution to the farming operation.
4	The legal entity’s share of the profits or losses from the farming operation is commensurate with the contributions to the farming operation.
5	The legal entity’s contributions are at risk, with the level of risk being commensurate with the legal entity’s claimed share of the farming operation.

\* \* \*

147 Corporation, LLC, LLP, and LP Actively Engaged in Farming Determinations  
(Continued)

**B Exceptions**

\*--The following are exceptions to the requirements of subparagraph A, item 2.

**Payments less than 1 limitation** – If the total of direct payments under DCP received, both directly and indirectly, for the program year by the partners, stockholders, and members does **not** exceed \$40,000, the requirement of a significant contribution of active personal labor or active personal management may be met by partners, stockholders, or members who collectively hold at least 50 percent of the ownership interest in the legal entity.--\*

**Spouses** – If both spouses are interest holders in the same legal entity, the contribution of active personal labor and/or active personal management of 1 spouse to the farming operation of the legal entity will also meet the other spouse's requirement to make a contribution of active personal labor and/or active personal management to the farming operation of the legal entity.

**Minor children** – If a parent is an interest holder in a legal entity in which his or her minor children are also interest holders, the parent's contribution of active personal labor and/or active personal management to the legal entity's farming operation will also meet the requirement that each minor child **must** make a contribution of active personal labor and/or active personal management to the same farming operation.

**Spouses and minor children** – If both spouses and minor children are in the same legal entity, the contributions of 1 spouse/parent of active personal labor and/or active personal management to the legal entity's farming operation will meet the requirements that all such interest holders of the legal entity **must** contribute active personal labor and/or active personal management to the legal entity's farming operation.

**Note:** Contributors of active personal labor and/or active personal management to a legal entity's farming operation **must** hold an ownership interest in the legal entity at the time the contributions are made.

\*--**Landowner** – If all land in the legal entity's farming operation is owned by the legal entity, the requirements of subparagraph A do **not** apply to the interest holders of the legal entity.--\*

**C Separate and Distinct Contributions of Labor**

If a partner, stockholder, or member provides active personal labor to the entity's farming operation that is performed on a regular basis, and that is identifiable and documentable, that partner, stockholder, or member will be considered to have met the requirements of a separate and distinct contribution of labor to the entity's farming operation.

**147 Corporation, LLC, LLP, and LP \* \* \* Actively Engaged in Farming Determinations (Continued)****D Burden of Proof Recordkeeping Requirements**

All partners, stockholders and members with an ownership interest must contribute active personal labor and/or active personal management to the entity's farming operation.

Each partner, stockholder, and member must be able to show by reasonable means that such activities:

- are performed on a regular basis throughout the crop year
- are identifiable and documentable as to which partner, stockholder, or member made such contribution
- are separate and distinct from any other partner, stockholder or member with an ownership interest in the farming operation.

**E Methods of Proof**

Reasonable records may include, but are not limited to, the following:

- appointment books
- calendars
- narrative summaries
- phone logs
- contemporaneous records
- activity logs with date, time, and description of activity performed
- documents for goods and services used by the farming operation signed only by the interest holder.

**147 Corporation, LLC, LLP, and LP Actively Engaged in Farming Determinations (Continued)****F Verification of Recorded Activities**

COC may request verification from an interest holder if:

- the records provided for these activities seem unreasonable for the type and size of farming operation
- ~~performance of these activities is questionable as claimed~~
- the farming operation is selected for an end-of-year review for payment eligibility and payment limitation compliance purposes.

**G Payment Reduction**

If any partner, stockholder, or member fails to meet the requirements in subparagraph A, **all** payments to the legal entity subject to the actively engaged determination will be reduced by an amount commensurate with the ownership share held by the partner, stockholder, or member.

**~~H Partners, Stockholders, or Members Are Other Legal Entities~~**

If a partner, stockholder, or member of a corporation, LLC, LLP, or LP is another legal entity, apply the rule applicable to that type of legal entity in determining whether or not the requirements of subparagraph A are met.

**Note:** The requirements of subparagraph A do **not** apply to trusts or estates. See examples 4 through 6 in subparagraphs 148 D through F.

## 148 Corporation, LLC, LLP, and LP Case Examples

## A Example 1

**Situation:** Corporation XYZ rents 3,000 acres of land for 1/3 share of the crop.

- Corporation XYZ contributes a significant amount of capital to the operation.
- Corporation XYZ hires the majority of all labor necessary for the operation.
- All 3 stockholders provide the balance of the labor needed.
- \*--All 3 stockholders meet regularly during the crop year and all management decisions--\* are made jointly during these meetings.
- Each stockholder has defined responsibilities, such as marketing, field operations and equipment, financing and daily business activities.
- Each stockholder is on-site almost everyday during the crop year.
- The corporation's share of the profits or losses from the farming operation is commensurate with the corporation's contributions and the contributions are at risk for a loss.

**Determination:** Corporation XYZ is considered actively engaged in farming. Each stockholder contributed active personal labor and active personal management to the farming operation on a regular basis, identifiable and documentable, and each stockholder's contributions were separate and distinct from contributions made by the other stockholders.

## 148 Corporation, LLC, LLP, and LP Case Examples (Continued)

**B Example 2**

**Situation:** Corporation AB consists of Father A and Son B, each having a 50 percent share. Corporation AB cash-rents land.

- Father A is a retired farmer who created the corporation for tax reasons and to aid in the transfer of the farm to Son B.
- The corporation contributes a significant amount of capital and equipment to the farming operation.
- Son B contributes both active personal labor and active personal management to the farming operation.
- Father A lives on the farm and contributes no active personal labor, but periodically advises Son B about farm related matters.

**Determination:** Because the corporation provides capital and equipment, and Son B contributes active personal labor and active personal management, Corporation AB is considered to be actively engaged in farming. However, Corporation AB will be subject to payment reduction commensurate with the 50 percent ownership interest held by Father A because COC determined the advice provided by Father A is not considered management.

**C Example 3**

**Situation:** Corporation GH consists of Husband G owning 70 percent of the corporate stock and Wife H owning 30 percent of the corporate stock.

- Corporation GH provides all the capital, equipment, and leased land for the farming operation.
- Husband G provides all of the active personal labor and active personal management necessary for the farming operation.

**Determination:** Corporation GH is actively engaged in farming through the contributions of the corporation and of Husband G. Even though Wife H failed to make any contributions of active personal labor, active personal management, or a combination thereof, the exception applicable to spouses in subparagraph 147 B applies. \* \* \* **No** payment reduction will be applied to Corporation GH.

## 148 Corporation, LLC, LLP, and LP Case Examples (Continued)

**\*--D Example 4**

**Situation:** A revocable trust is a stockholder in a corporation with 2 other individuals. Member contribution requirements of subparagraph 147 A apply.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The revocable trust's grantor makes no contributions.

**Specific Rules for Revocable Trusts:** A revocable trust carried under the taxpayer ID number of the grantor and operating rented land will be considered actively engaged in farming if the grantor makes significant contributions of active personal labor and/or active personal management to the farming operation of the trust. If the grantor makes no such contributions, the revocable trust will **not** be actively engaged in farming. Landowner exemption applies.

**Determination:** Applying the rules for trusts will result in the share held by the revocable trust in the corporation to be considered ineligible. The payments to the corporation will be reduced by the ownership share held by the revocable trust. There could be a partial reduction if the corporation owns part of the land that is being operated.

If the revocable trust's grantor is making significant contributions of active personal labor and/or active personal management that would qualify the revocable trust on its own, the same would hold true if the revocable trust was a member of a legal entity. The requirements of subparagraph 147 A would be met and there would be no reduction in payments to the legal entity.

**E Example 5**

**Situation:** An irrevocable trust is a stockholder in a corporation with 2 other individuals. Member contribution requirements of subparagraph 147 A apply.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The irrevocable trust's beneficiaries make no contributions.

**Specific Rules for Irrevocable Trusts:** An irrevocable trust that operates all rented land will be considered actively engaged in farming only if the beneficiaries that hold at least 50 percent interest in the trust make significant contributions of active personal labor and/or active personal management to the farming operation of the trust. If the beneficiaries make no such contributions, or if the beneficiaries making contributions of active personal labor and/or active personal management hold less than 50 percent interest, the irrevocable trust will **not** be determined actively engaged in farming. Landowner exemption applies.--\*

## 148 Corporation, LLC, LLP, and LP Case Examples (Continued)

**\*--E Example 5 (Continued)**

**Determination:** Applying the rules for trusts will result in the share held by the irrevocable trust in the corporation to be considered ineligible. The payments to the corporation will be reduced by the ownership share held by the irrevocable trust. There could be a partial reduction if the corporation owns part of the land that is being operated.

If the irrevocable trust's beneficiaries were making significant contributions of active personal labor and/or active personal management that would qualify the irrevocable trust on its own, the same would hold true if the irrevocable trust was a member of a legal entity. The requirements of subparagraph 147 A would be met and there would be no reduction in payments to the legal entity.

**F Example 6**

**Situation:** An estate is a stockholder in a corporation with 2 other individuals. Member contribution requirements of subparagraph 147 A apply.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation as actively engaged in farming.
- The estate's representative or heirs make no contributions.

**Specific Rules for Estates:** An estate that operates all rented land will be considered actively engaged in farming only if the personal representative or heirs of the estate collectively make significant contributions of active personal labor and/or active personal management to the farming operation of the estate. If the personal representative or heirs make no such contributions, the estate will **not** be determined actively engaged in farming. Landowner exemption applies.

**Determination:** Applying the rules for estates will result in the share held by the estate in the corporation to be considered ineligible. The payments to the corporation will be reduced by the ownership share held by the estate. There could be a partial reduction if the corporation owns part of the land that is being operated.

If the estate's representative or heirs were collectively making significant contributions of active personal labor and/or active personal management that would qualify the estate on its own, the same would hold true if the estate was a member of a legal entity. The requirements of subparagraph 147 A would be met and there would be no reduction in payments to the legal entity.--\*

## 148 Corporation, LLC, LLP, and LP Case Examples (Continued)

**\*--G Example 7**

**Situation:** This LLC is a stockholder in a corporation with 2 other individuals. Member contribution requirements of subparagraph 147 A apply.

- The 2 individuals provide significant contributions of active personal labor and/or active personal management to qualify the corporation (payment entity) as actively engaged in farming.
- LLC's interest holders make no contributions.

**Specific Rules for LLC's:** LLC that operates all rented land will be considered actively engaged in farming only if interest holders make significant contributions of active personal labor and/or active personal management to the farming operation of LLC. If the interest holders fail to make such contributions, LLC will **not** be determined actively engaged in farming. Landowner exemption applies.

**Determination:** Applying the rules for legal entities will result in the share held by LLC in the corporation (payment entity) to be considered ineligible. The payments to the corporation (payment entity) will be reduced by the ownership share held by LLC. There could be a partial reduction if the corporation (payment entity) owns part of the land that is being operated.

If LLC's interest holders were collectively making significant contributions of active personal labor and/or active personal management that would qualify LLC on its own, the same would hold true if LLC was a member of a legal entity requesting payment. The requirements of subparagraph 147 A would be met and there would be no reduction in payments to the legal entity requesting payment.--\*

**\*--148.5 Member Contribution Share****A Determining Member Contribution Share**

A member contribution share for a member of a legal entity is necessary only when **both** of the following apply:

- part of the land in the farming operation is owned by the legal entity
- member fails to make contributions according the subparagraph 147 A.

**B Calculating Member Contribution Share**

Calculate the member contribution share as follows:

- total acres of cropland owned by the legal entity, **divided by**
- total acres of cropland operated/included in the legal entity's farming operation.

**Example:** Big Farms LLC has 2 interest holders, Jed and Jared. Neither make any contributions to the farming operation according to subparagraph 147 A.

Big Farms LLC operates a total of 500 acres. Of that total, 100 acres are owned by Big Farms LLC.

100 acres owned divided by 500 acres total in the farming operation equals a member contribution share of .2000 for Jed and Jared.

**C Calculating Member Contribution Share When a Cropland Factor Is Applicable to the Payment Entity**

Calculate the member contribution share when a cropland factor is involved as follows:

- total cropland owned by the legal entity, **divided by**
- total acres of cropland operated **less** the acres of cropland responsible for the cropland factor applied to the payment entity.--\*

**\*--148.5 Member Contribution Share (Continued)****C Calculating Member Contribution Share When a Cropland Factor Is Applicable to the Payment Entity (Continued)**

**Example:** Hawkeye Ag LLC has 2 interest holders, John and Jake, with equal shares. Hawkeye Ag LLC operates a total of 1,500 acres of land comprised of 500 acres owned, 500 acres share-rented, and 500 acres cash-rented.

John meets member contribution provisions. Jake does **not** meet member contribution provisions and is only eligible for share of payments on the owned land.

Hawkeye Ag LLC earned \$30,000, but failed to meet the cash-rent tenant provisions.

Both a cropland factor for Hawkeye Ag LLC and a member contribution share for Jake must be calculated and applied.

Calculate the cropland factor according to subparagraph 64 D as follows:

- total cropland acres owned plus acres not cash-rented, divided by
- total cropland acres in the farming operation.

500 acres owned plus 500 acres share-rented divided by 1,500 acres in the farming operation of Hawkeye Ag LLC equals a factor of .6666. This factor will be applied to the total payments earned of \$30,000 for a payment reduction of \$10,000 ( $30,000 \times .6666 = 20,000$ ;  $30,000 - 20,000 = 10,000$ ).

The failure of Hawkeye Ag LLC in meeting the cash-rent tenant provision will result in a payment reduction of \$10,000 applied to the entity.

**The acres of cropland responsible for the cropland factor applied at the entity level will not be included in the calculation of the member contribution share.**

Calculate the member share contribution for Jake as follows: 500 acres owned by Hawkeye Ag divided by 1,000 acres (1,500 acres total minus 500 acres cash-rented) equals a member contribution share of .5000.

- For John, the member contribution flag will be set to “Y”.
- For Jake, the member contribution factor of .5000 will be entered.--\*

A General Rule

For 2 program years **after** the program year in which a person dies, the person’s estate shall be considered to be actively engaged in farming if all of the requirements in this table are met.

Item	Requirement
1	The estate separately makes a significant contribution of capital, equipment, land, or a combination thereof.
2	The personal representative (executor, administrator, etc.) or heirs of the estate collectively make a significant contribution of active personal labor, active personal management, or combination thereof, to the farming operation.

4	The estate’s contributions are at risk.

**Notes:** See paragraph 128 for the incapacitated person rule.

\*--See 1-CM, paragraph 121 and Exhibit 10 for estate EIN requirements.--\*

B Rule for Estates in Existence Longer Than 2 Years

Following the period of 2 program years after the program year in which a person dies, the deceased person’s estate shall **not** be considered to be actively engaged in farming **unless**, on a case-by-case basis, COC determines that the estate is still active and is being kept active for reasons other than receiving program payments.

C Required COC Reviews and Determinations

On an annual basis, COC is required to:

- identify all estates requesting program benefits that have been in existence for more than 2 program years after the date of death of the person
- review all supporting documentation provided by an authorized representative on behalf of the estate
- determine if the estate is kept active for reasons other than receiving program benefits and document the decision in COC minutes.

**156 Actively Engaged in Farming Determinations (Continued)****C Required COC Reviews and Determinations (Continued)**

Information provided by an authorized representative of the estate for this **required** COC review may include, but is **not** limited to:

- Letter of Testamentary issued by the court within the last 12 months

**E State Office Review of Estates in Existence Longer Than 2 Years**

Effective for 2009 and subsequent years, State Offices shall:

- collect reports from all DD's
- consolidate information for future reporting purposes to DAFP, PECD.

## 157 Case Examples

## A Example 1

**Situation:** Estate E is formed upon the death of Person E that occurred less than 2 years ago. Person B is the sole heir of the estate and provides a significant amount of active personal management. Estate E provides equipment and rented land. All labor is hired. All contributions are commensurate and are at risk.

**Determination:** Estate E is considered to be actively engaged in farming since the heir, Person B, has provided a significant amount of active personal management and the estate has provided equipment and land.

## B Example 2

**Situation:** Estate C is formed upon the death of Person C that occurred less than 2 years ago. The heirs are Persons E, F, and G, each having a 1/3 interest. Person E will serve as executor for the estate.

- **Before** the death of Person C, Person C owned equipment and all of the acreage farmed was cash leased.
- For the current year, Estate C will cash lease land. Estate C will contribute a significant amount of cash-rented land, owned equipment, and capital for the farming operation.
- Person E will provide a significant amount of active personal management with the estate hiring all labor.
- All contributions are commensurate and are at risk.
- COC reviewed the Letter of Testamentary and the prior year tax return, and determined that Estate C is being kept active for reasons other than receiving program benefits.

**Determination:** Estate C is considered to be actively engaged in farming and eligible for program benefits.

## 157 Case Examples (Continued)

## C Example 3

**Situation:** Estate Y is formed upon the death of Person Y that occurred less than 2 years ago.

- **Before** death, Person Y had been determined to be actively engaged in farming and had entered into CCC-509 to participate in current year DCP.
- Estate Y will continue to farm the acreage that was leased to Person Y, as a successor-in-interest to the current year CCC-509. Estate Y will hire any labor and management that is needed for the farming operation.

**Determination:** Estate Y is considered to be actively engaged in farming because Person Y was determined to be actively engaged in farming and had executed CCC-509 to participate in DCP **before** death. However, to continue to be actively engaged in farming for the current year, the heirs or personal representative of the estate will have to provide a significant amount of active personal labor or active personal management, and the estate will have to provide a significant amount of capital, equipment, or land.

159-165 (Reserved)

Section 6 Trusts

166 Revocable and Irrevocable Trusts

A Types of Trusts

For payment limitation purposes, there are 2 types of trusts, as follows.

Trust Type	Characteristics
Revocable	<ul style="list-style-type: none"> <li>• Can be modified or terminated by the grantor or the assets revert to the grantor after a specific period of time.</li> <li>• Does <b>not</b> meet the criteria for an irrevocable trust.</li> </ul>
Irrevocable	<ul style="list-style-type: none"> <li>• May <b>not</b> be modified or terminated by the grantor.</li> <li>• The grantor does <b>not</b> have any future, contingent, or remainder interest in the corpus of the trust.</li> <li>• For trusts established after January 1, 1987, does <b>not</b> provide for transferring the corpus of the trust to the remainder beneficiary in less than 20 years from the date the trust is established, <b>except</b> in cases where the transfer is contingent upon the remainder beneficiary achieving at least the age of majority or upon the death of the grantor or income beneficiary.</li> </ul> <p><b>Note:</b> All trusts <b>not</b> meeting these requirements shall be considered revocable trusts.</p>

B Trust Scrutiny

All trusts that receive payments shall be carefully scrutinized to ensure that the trusts are legitimate legal entities and have **not** been created solely for the purpose of evading payment limitation provisions.

County Offices shall:

- require producers to provide a copy of the trust agreement unless the trust is a revocable trust
- \* \* \*
- determine whether provisions are included in the trust that would require the trust to be considered a revocable trust for payment limitation purposes.

## 167 Trust Eligibility Determinations

### A Revocable Trust and Grantor

A revocable trust is the same as the grantor.

### B Trusts With Minor Children Beneficiaries

\*--Program payments will be attributed **only** to the grantor of the revocable trust.

For revocable trusts with 1 or more minor children as beneficiaries, payments earned by the minor children's interest will be **not** be attributed to the parent's or court-appointed person's interest, if they are **not** grantors of the trust.--\*

\* \* \*

### C Programs Not Requiring Actively Engaged in Farming Determinations

If a program requires eligibility determinations, but **not** actively engaged in farming determinations, the following are **required** to be eligible for payments or benefits:

- claimed share of the profits or losses of the farming operation **must** be commensurate with the contributions to the farming operation
- contributions **must** be at risk.

### \*--D IRA's and Employee Profit-Sharing Plans

An IRA or employee profit-sharing plan may be considered an eligible program--\* participant, as a trust **only**, if the Regional Attorney determines the account:

- meets the definition of legal entity
- has full function of a trust
- is owner of the land on which program benefits are requested.

**Note:** Approval from the Regional Attorney is **required before** any eligibility determinations.

168 Trust Actively Engaged in Farming Determinations

A Rule

[7 CFR 1400.205] An irrevocable or revocable trust shall be considered to be actively engaged in farming if **all** of the requirements in this table are met.

Item	Requirement
1	The trust separately makes a significant contribution of capital, equipment, land, or a combination thereof.
2	Income beneficiaries that make contributions of active personal labor or active personal management, have a combined interest of at least 50 percent, and collectively make a significant contribution to the farming operation.
3	The trust's share of the profits or losses from the farming operation is commensurate with the contribution to the farming operation.
4	The trust's contributions are at risk.
5	The trust has provided TIN of the trust, <b>unless</b> the trust is a revocable trust and either of the following applies: <ul style="list-style-type: none"> <li data-bbox="402 848 976 884">• the grantor is the sole income beneficiary</li> <li data-bbox="402 926 1430 1035">• TIN for the trust is TIN for the co-granter and co-income beneficiary and the other grantor and income beneficiary is their spouse who is <b>not</b> requesting benefits under his/her TIN.</li> </ul>
6	The trust has provided a copy of the trust agreement to COC, <b>unless</b> the trust is a revocable trust.

B TIN's

A single TIN, such as a Social Security number, may **not** be used to pay both a person and a trust in the same year.

**\*--Note:** See 1-CM, paragraph 121 and Exhibit 10 for EIN requirements for trusts.--\*

C Trustee Actions

The personal actions of a trustee, either labor or management, **cannot** be considered as contributions of the trust in meeting the requirement of actively engaged in farming.

**Only** the income beneficiaries of a trust can provide the required, at-risk contributions of active personal labor, active personal management, or combination thereof, for the trust to be considered actively engaged in farming.

**169 Trust Case Examples****A Irrevocable Trust Example 1**

**Situation:** EF Trust meets the requirements to be considered an irrevocable trust for payment limitation purposes. The trust, with Persons E and F each having a 50 percent interest, contributes a significant amount of capital to the farming operation. Each beneficiary contributes a significant amount of active personal management. All labor is hired. The land and equipment are leased. The trust's share of the profits or losses from the farming operation is commensurate with the trust's contributions to the operation and the contributions are at risk.

**Determination:** EF Trust is considered to be actively engaged in farming because the trust provides capital and the beneficiaries contribute a significant amount of active personal management.

**B Irrevocable Trust Example 2**

**Situation:** The terms of a late husband's will made certain specific bequests of cash and nonfarm property to persons other than his widow. The balance of the estate, including farmland, is distributed to a testamentary trust. The widow has the sole right to the income of the trust during her lifetime. At the time of her death, the trust is to be terminated and the property distributed to her heirs.

**Determination:** Because the widow has the sole right to income of the trust during her lifetime, the widow is considered the sole beneficiary. The trust is considered actively engaged in farming because of the landowner provision.

**169 Trust Case Examples (Continued)****C Revocable Trust Example 1**

**Situation:** ST Trust is a revocable trust.

- Person U is the grantor and income beneficiary.
- ST Trust contributes a significant amount of both capital and equipment to the farming operation.
- Beneficiary contributes a significant amount of active personal management to the operation.
- All land is leased and all labor is hired.
- The trust's share of the profits or losses from the farming operation is commensurate with its contribution to the operation and the contributions are at risk.

**Determination:** ST Trust is considered to be actively engaged in farming. For payment limitation purposes, all payments issued to ST Trust will be attributed to Person U as grantor of the trust.

For a person or legal entity, including a foreign person or legal entity that does **not** have tax records or is **not** required to file tax returns, acceptable forms of AGI documentation may include, but are **not** limited to, the following:

- annual budgets and statement of operations
- annual public financial disclosures
- financial statements
- other documentation as deemed acceptable by the reviewing authority.

**B Churches, Clubs, Fraternal Organizations, Societies, and Similar Associations**

Persons who attend a church or belong to a club, fraternal organization, association, or similar type of entity that is requesting payments or benefits:

- do **not** hold an ownership interest in the entity
- are **not** required to submit an AGI certification for the entity to meet AGI provision.

**Note:** The church, club, etc. are required to provide an AGI certification.

**190 Rules for Special Cases (Continued)****C Multi-Year Contracts and Agreements**

For program contracts and agreements that extend more than 1 crop year, program year, or FY, the average AGI determination will:

- be based on the 3 taxable years preceding the most immediately preceding complete taxable year for which the contract or agreement is approved

**\*--Note:** For a successor to an approved CRP-1, the 3-year period is based on the approval date of succession, **not** on the original approval date of CRP-1. See Exhibit 10.--\*

- be made once and apply for the entire term of the contract or agreement.

**D Succession-in-Interest**

The average AGI limitations, according to this part, do **not** apply to multi-year contracts; such as CRP-1's that were effective **before** October 1, 2008. The average AGI provisions in this part were **not** part of the original contract or agreement when executed.

If succession occurs to a multi-year contract or agreement that was effective:

- **before** FY 2009, the successors **will not** be subject to AGI provisions in this part on the multi-year contract or agreement
- for FY 2009 or subsequent years, the successors **will** be subject to AGI provisions on the multi-year contract or agreement.

**E Multi-Year CRP-1 Extensions and Re-Enrollments**

See Exhibit 10 for multi-year CRP-1 extensions and re-enrollments.

**191 Determining AGI and Average AGI**

**A Determining Total AGI (Farm and Nonfarm)**

Determine AGI according to the following table.

<b>IF certification is by...</b>	<b>THEN AGI is the...</b>
a person filing a separate tax return	amount reported as AGI on the final IRS tax return for the person for the applicable year.
a person filing a joint tax return	full amount reported as AGI on the final IRS tax return for the applicable year.  <b>Exception:</b> A certification is provided by a certified public accountant or an attorney that specifies what the amounts would have been if separate tax returns would have been filed for the applicable year.
an LLC, LLP, LP, or similar type of organization	income from trade or business activities <b>plus</b> the amount of guaranteed payments to the members as reported on the final IRS tax returns for the applicable year.
an estate or trust	adjusted total income <b>plus</b> charitable deductions as reported on the final IRS tax return for the applicable year.
a corporation, including subchapter S corporation	total taxable income <b>plus</b> the amount of charitable contributions as reported on the final IRS tax return for the applicable year.
a tax-exempt or non-profit organization	unrelated business taxable income as reported to IRS <b>less</b> any income that CCC determines to be from noncommercial sources.

**191 Determining AGI and Average AGI (Continued)**

**B Using IRS Data for AGI Determinations**

The following provides guidance on AGI determinations using data reported to IRS.

<b>IF determining AGI for...</b>	<b>THEN see IRS Form...</b>	<b>AND use the amount entered on...</b>
corporations	1120	*--line 30 (total taxable income), or for S corporations line 21 on IRS-1120S (ordinary business income)--* <b>plus</b> line 19 (charitable contributions) for years 2000 through 2008.
estates or trusts	1041	*--line 22 (taxable income)--* <b>plus</b> line 13 (charitable deductions) for years 2000 through 2008.
LLC's, LLP's, LP's, or other similar type organization	1065	line 22 (total income from trade or business) <b>plus</b> line 10 (guaranteed payments to partners) for years 2000 through 2008.
persons	1040	<ul style="list-style-type: none"> <li>• line 37 (AGI) for <b>2005 through 2008</b></li> <li>• line 36 (AGI) for <b>2004</b></li> <li>• line 34 (AGI) for <b>2003</b></li> <li>• line 35 (AGI) for <b>2002</b></li> <li>• line 33 (AGI) for <b>2001</b></li> <li>• line 33 (AGI) for <b>2000</b>.</li> </ul>
tax-exempt or charitable organizations	990-T	line 34 (unrelated business taxable income) <b>minus</b> income that CCC determined to be from non-commercial activity for years 2000 through 2008.

**Note:** Variations of the referenced IRS tax forms, or comparable forms, may apply in which the line items for the appropriate income amounts will be different.

**C Applicable Years for Determining Average AGI**

Use the following table for applicable years to be used for determining average AGI.

<b>IF crop year is...</b>	<b>THEN Average AGI will be based on the following years...</b>
2009	2005, 2006, 2007
2010	2006, 2007, 2008
2011	2007, 2008, 2009
2012	2008, 2009, 2010

191 Determining AGI and Average AGI (Continued)

D Determining Average AGI (Continued)

Determine the average AGI according to the following table.

IF determination is for a...	THEN average AGI is the average...
<ul style="list-style-type: none"> <li>person</li> <li>legal entity in business for <b>all</b> of the applicable 3-year period</li> </ul>	of AGI, including losses, for the 3 taxable years preceding the most immediately preceding complete taxable year.  <b>Note:</b> This includes legal entities <b>not</b> required to file an IRS tax return or legal entities that did <b>not</b> have taxable income in 1 or more years of the applicable 3-year period.
legal entity <b>not</b> in business for all of the applicable 3-year period	AGI, including losses for only the years in the base period that the new legal entity was in business.

E Average Nonfarm AGI's Exceeding \$1 Million Limitation

When the average nonfarm AGI is greater than \$1 million, a comparison **must** be made to determine if less than 66.66 percent of the average AGI was derived from farming, ranching, forestry operations, and related activities.

IF...	THEN see IRS Form...
corporation	<ul style="list-style-type: none"> <li>1120; compare the 3-year average of line 10 (other income per Schedule F) with the average AGI determined for the same time period</li> <li>*--1120S; compare the 3-year average of line 5 (other income) with the average AGI determined for the same time period.--*</li> </ul>
estate or trust	1041; compare the 3-year average of line 6 (farm income or loss) with the average AGI determined for the same time period.
LLC, LLP, LP, or other similar organization	1065; compare the 3-year average of line 5 (farm income or loss) with average AGI determined for the same time period.
person	1040; compare the 3-year average of line 18 (farm income or loss) with the average AGI determined for the same time period.
tax-exempt or charitable organization	990-T; compare the 3-year average of line 8 (interest, annuities, royalties, and rents per Schedule F) with the average AGI determined for the same time period.

**Note:** Exceptions may be applicable to the 3-year base period.

F AGI Compliance Worksheet

For AGI compliance determinations, use worksheet in paragraph 197.

**191 Determining AGI and Average AGI (Continued)****G Rule for New Entity**

A new legal entity shall **not** be considered new to the extent that it takes over an existing operation and has any elements of common ownership or interests with the preceding legal entity, or persons and legal entities, with an interest in the old legal entity.

**The income of the old legal entity will be averaged with the income of the new legal entity for the base period if any of the elements of commonality are present.**

**Example for 2009:** Twin Falls Corporation is comprised of Joe Plummer (50 percent) and John Plummer (50 percent).

The average AGI from the 3 complete taxable years 2005, 2006, and 2007 for Twin Falls Corporation was \$1.1 million. Less than 66.66 percent was derived from farming, ranching, forestry operations, and related activities. Twin Falls Corporation had \$3 million AGI in 2008.

Twin Falls Corporation exceeded the average \$1 million nonfarm AGI limitation, and; therefore, was determined ineligible for 2009 conservation program benefits.

**Example for 2010:** Plummer LLC is comprised of Joe Plummer (5 percent), John Plummer (5 percent), and Twin Falls Corporation (90 percent).

Plummer LLC takes over the farming operation previously represented as Twin Falls Corporation.

The average AGI for Plummer LLC for 2010 payment eligibility purposes will be \$1.73 million, the average of AGI of Plummer LLC and Twin Falls Corporation for the years 2006, 2007, and 2008. Plummer LLC is ineligible for 2010 conservation program benefits because of the average \$1 million nonfarm AGI limitation.

192 Average AGI Limitations and Payment Eligibility

A Applying Average AGI

The following table shows how different average AGI amounts affect payment eligibility for a person or legal entity under different programs.

Average AGI Programs and Limitations			
Program	Average AGI Amount	Income	Average AGI
Commodity and Price Support	\$500,000	Nonfarm.	Adjusted gross nonfarm income.
Conservation	\$1 Million	Nonfarm, unless 66 percent or more average AGI is farm.	Adjusted gross nonfarm income unless <b>not</b> less than 66 percent of the average AGI is average adjusted gross farm income.  <b>Note:</b> May be waived on a case-by-case basis if environmentally sensitive land of special significance would be protected.
DCP Direct Payments	\$750,000	Farm.	Adjusted gross farm income.

## 197 Calculating Average AGI for 2009 and Subsequent Years (Continued)

**B Special Rule for Average AGI Determination**

If at least 66.66 percent of a person's or legal entity's average AGI is derived from all other sources of farm income, income from the following, if applicable, shall **also** be considered as farm income:

- sale of equipment to conduct farm, ranch, and forestry operations
- provision of production inputs and services to farmers, ranchers, foresters, and farm operations.

**C Applying the Special Rule for Determining the Average AGI**

The following are examples of applying the rule in subparagraph B.

**Example 1:** Jake has requested 2009 DCP benefits. Jake's total average AGI was \$900,000. His farm AGI was \$650,000 from the production of crops and livestock. His nonfarm AGI was comprised of \$150,000 from his aerial spraying service and \$100,000 from oil and gas royalties.

Facts and figures: Over 66.66 percent of Jake's total AGI was from the production of crops (\$650,000 divided by \$900,000 times 100 equals 72.22 percent). Jake also has nonfarm AGI from his aerial spraying; a custom service to farmers and ranchers, that now **must** be considered farm AGI for payment eligibility purposes.

The result: Jake's farm AGI is now \$800,000 (the total of \$650,000 and \$150,000); nonfarm AGI is \$100,000. Jake's farm AGI exceeds \$750,000. Jake is eligible for 2009 DCP benefits, **except** for direct payments.

**Example 2:** Wanda has requested 2009 DCP, NAP, and EQIP benefits. Wanda's total AGI was \$3 million. Her farm AGI was \$2.25 million from the production of crops and livestock. Her nonfarm AGI was \$750,000; comprised of \$500,000 for livestock equipment sales and \$250,000 from commercial real estate rental.

Facts and figures: Over 66.66 percent of Wanda's total AGI was from the production of crops and livestock (\$2.25 million divided by \$3 million times 100 equals 75 percent). Wanda also has nonfarm AGI of \$500,000 from livestock equipment sales that now **must** be considered average farm AGI for payment eligibility purposes.

The result: Wanda's farm average AGI is now \$2.75 million (\$2.25 million and \$500,000); nonfarm AGI is \$250,000. Wanda's farm AGI still exceeds \$750,000, but her nonfarm AGI is now less than \$500,000. Wanda is eligible for all program benefits requested, **except** for 2009 DCP direct payments.

CCC-926 (11-20-08)	Page 2 of 2
<b>GENERAL INFORMATION ON AVERAGE ADJUSTED GROSS INCOME</b>	
<p>Limitations related to income levels are a statutory payment eligibility provision for a number of commodity and conservation programs administered by CCC. This certification is needed to assist in program administration. Except as may be provided in applicable program regulations, any person or legal entity requesting certain program payments, either directly or indirectly, shall be subject to this provision. Any person or legal entity that is determined to have an average adjusted gross income that exceeds specified limits shall be ineligible for the program payment subject to that limit for the applicable crop, fiscal, or program year. Further, any covered benefit issued to a legal entity, general partnership, or joint venture shall be reduced by an amount that is commensurate with the direct or indirect ownership interest in the legal entity, general partnership, or joint venture of each person or legal entity whose relevant average adjusted gross income for the relevant period exceeds the average adjusted gross income limit. These determinations will be made pursuant to, and subject to, regulations issued on behalf of the Secretary. As of the time this form was created, the applicable limits were as follows:</p>	
<p><b>For commodity, price support benefits, disaster assistance programs, and for the Milk Income Loss Compensation Program, if the person or legal entity has:</b></p> <ul style="list-style-type: none"> <li>• average adjusted gross <b>nonfarm income</b> greater than \$500,000, the person or legal entity is <b>not</b> eligible for payments and benefits from these programs.</li> <li>• average adjusted gross <b>farm income</b> greater than \$750,000, the person or legal entity is <b>not</b> eligible for direct payments under the Direct and Counter-cyclical Program.</li> </ul>	
<p><b>For new contracts or participation in conservation programs after October 1, 2008, if the person or legal entity has:</b></p> <ul style="list-style-type: none"> <li>• average adjusted gross <b>nonfarm income</b> greater than \$1 million, the person or legal entity is <b>not</b> eligible, unless 66.66 percent or more of the average adjusted gross income is attributable to activities related to farming defined as "farm income" below.</li> </ul>	
<p>Please note as indicated above that payments are further limited if persons and legal entities with an interest, either directly or indirectly, in a legal entity or partnership exceeds these same levels. Those persons and legal entities must also submit this form.</p>	
<b>DEFINITIONS</b>	
<p><b>Adjusted Gross Income</b> is the individual's or legal entity's IRS-reported adjusted gross income. A three year average of that income will be computed for the three years of the relevant base period. Base periods vary by program year as indicated on the first page of this form.</p>	
<p><b>Adjusted Gross Farm Income</b> is for a year that part of the adjusted gross income that is farm income as defined below. The amount will be computed for each year separately and then averaged.</p>	
<p><b>Adjusted Gross Nonfarm Income</b> is the difference for the year between the filer's adjusted gross income and the filer's adjusted gross farm income. The difference shall be computed for each year of the base period, and then averaged.</p>	
<p><b>Farm income means income</b> related to the following: production of crops, livestock, fish and aquaculture for food; the feeding and rearing of livestock; products produced or derived from livestock; production of specialty crops and unfinished raw forestry products; processing, packing, storing and transporting farm, ranch and forestry commodities including renewable energy; production of farm-based renewable energy; the sale of land used for agriculture; sale of land or sale of easements and development rights to agricultural land, water and hunting rights, and environmental benefits; rental or lease of land or equipment used in farming, ranching, forestry operations; payments and benefits from risk management practices, crop insurance indemnities, catastrophic risk protection plans, conservation programs and government farm program payments. <u>Proceeds from the sale of farm equipment and from production inputs to farmers and ranchers are generally considered nonfarm income. However, if for a year not less than 66.66 percent of the average adjusted gross income of the person or legal entity is derived from farming, ranching, or forestry operations, the person's or legal entity's farm income shall also include the sale of equipment to conduct farm, ranch, or forestry operations, and the production inputs and services to farmers, ranchers, foresters, and farm operations.</u></p>	
<p><b>Legal Entity</b> is a corporation, joint stock company, association, limited partnership, charitable organization, or similar entity, including any such entity or organization participating in the operation as a partner in a general partnership, a participant in a joint venture, a grantor in a revocable trust, or as a participant in a similar entity, including joint ventures and general partnerships as determined by the Secretary.</p>	
<p><b>Program year</b> means the relevant program year as determined by CCC, for which a specific benefit is made available under a program authorized by legislation such as the Direct and Counter-cyclical Program, Milk Income Loss Contract Program, Conservation Reserve Program, Noninsured Crop Disaster Assistance Program, Supplemental Revenue Assistance Program. FSA may require additional information as necessary to make the relevant program payments.</p>	
<p><b>Third-party verification</b> means a signed statement from a certified public accountant (CPA) or an attorney that the person or legal entity meets the applicable AGI provisions for payment eligibility.</p>	
<b>HOW TO DETERMINE ADJUSTED GROSS INCOME</b>	
<p><b>Person.</b> For persons that file the IRS Form 1040, specific lines on that form represent the adjusted gross income and the income from farming, ranching or forestry operations.</p>	
<p><b>Trust or Estate.</b> For a trust or estate, the adjusted gross income is the total income and charitable contributions reported to IRS.</p>	
<p><b>Corporation.</b> For a corporation, the adjusted gross income is the total of the final taxable income and any charitable contributions reported to IRS.</p>	
<p><b>Limited Partnership (LP), Limited Liability Company (LLC), Limited Liability Partnership (LLP) or Similar Entity.</b> For an LP, LLC or LLP, the adjusted gross income is the total income from trade or business activities plus guaranteed payments to the members as reported to the IRS.</p>	
<p><b>Tax-exempt Organization.</b> For a tax-exempt organization, the adjusted gross income is the unrelated business taxable income excluding any income from non-commercial activities as reported to the IRS.</p>

## 201 Supplemental Information to CCC-926, CCC-927, and CCC-928

### A Explanation of Average AGI Verification Process

The Supplemental Information to CCC-926, CCC-927, and CCC-928:

- shall be provided with CCC-926's, CCC-927's, and CCC-928's
- serves to inform all program participants about the average AGI verification process.

### B Example Supplemental Information to CCC-926, CCC-927, and CCC-928

The following is an example of the Supplemental Information to CCC-926, CCC-927, and CCC-928.

\*--

<i>Supplemental Information to the CCC-926, CCC-927 and CCC-928</i>	
<b>Average Adjusted Gross Income (AGI) Verification Process</b>	
<ul style="list-style-type: none"> <li>• <b>Why is it necessary to verify average AGI?</b></li> </ul>	<p>The Food, Conservation, and Energy Act of 2008 (the 2008 Farm Bill) provides that individuals and legal entities with average AGI in excess of a specified average AGI limitation are ineligible for payments subject to that limitation. In general, the limitations are: \$500,000 average nonfarm AGI for commodity programs; \$750,000 average farm AGI for direct payments under the Direct and Counter-cyclical Program or ACRE program; and \$1 million average nonfarm AGI for conservation programs.</p> <p>All direct and indirect recipients of commodity or conservation program payments are required to complete the CCC-926, Average Adjusted Gross Income (AGI) Statement. However, the U.S. Government Accountability Office (GAO) concluded in a recent report that, without an adequate verification process, USDA could not ensure payments were only being made to eligible recipients.</p>
<ul style="list-style-type: none"> <li>• <b>What process has been developed to verify average AGI?</b></li> </ul>	<p>USDA has worked with the Internal Revenue Service to develop an electronic information exchange process strictly for the purposes of average AGI verification. This process electronically looks at certain line items on tax returns filed for the applicable three-year period; performs a series of calculations to arrive at the average amounts; and then compares these values to the average AGI limitations. USDA receives the results of these comparisons with indicators of whether the participant appears to exceed or not exceed the average AGI limitation amounts. No actual tax data will be included. USDA county office personnel will not view tax return information at any time during this process.</p>
<ul style="list-style-type: none"> <li>• <b>Will there be an opportunity to provide additional information or possible explanation and appeal if the results show that it appears one or more of the average AGI limitations have been exceeded?</b></li> </ul>	<p>As part of the review and evaluation process, participants will be afforded the opportunity to provide tax returns and other information in explanation of the AGI certification. All written notifications of AGI compliance determinations will include explanations and the appropriate appeal rights. If necessary, the cases that appear to exceed the average AGI limitations will be reviewed and evaluated by FSA state office and/or headquarters personnel. The cases will not be reviewed by personnel from the local FSA office.</p>
<ul style="list-style-type: none"> <li>• <b>What is required for USDA to verify average AGI?</b></li> </ul>	<p>IRS requires written consent from the individual or legal entity to provide USDA verification of the average AGI for that individual or legal entity. This written consent is provided by using the forms CCC-927, Consent to Disclosure of Tax Information – Individual; or if a legal entity, the CCC-928, Consent to Disclosure of Tax Information – Legal Entity. The CCC-927 and CCC-928 forms allow the selection of 2009, 2010, and/or 2011. Selection of "2009" on the form authorizes IRS to perform the average AGI calculations for the 2005, 2006 and 2007 tax years. Selection of "2010" on the form authorizes IRS to perform the average AGI calculations for the 2006, 2007 and 2008 tax years. Selection of "2011" on the form authorizes IRS to perform the average AGI calculations for the 2007, 2008 and 2009 tax years. The CCC-927 or CCC-928, as applicable, must be completed for the same year(s) an individual or legal entity was required to complete the CCC-926, Average Adjusted Gross Income (AGI).</p>
<ul style="list-style-type: none"> <li>• <b>When must the applicable consent form be completed and where does it go?</b></li> </ul>	<p>Timeliness is essential in order to avoid any delays in the issuance of program payments and the possibility of refunding program payments. The consent forms should be mailed directly to IRS at the address given on the form as soon as possible. Do not return the completed and signed forms to the FSA office.</p>
<ul style="list-style-type: none"> <li>• <b>What if the consent form is not completed and mailed to IRS?</b></li> </ul>	<p>Failure to provide the written consent may require refund of applicable payments received from FSA and NRCS.</p>
<ul style="list-style-type: none"> <li>• <b>Why can't the completed consent forms be provided to the local FSA office like any other program related documents?</b></li> </ul>	<p>The consent forms are for IRS, not FSA, and contain Personally Identifiable Information (PII). To afford maximum protection of PII, the completed forms must be sent directly to the IRS.</p>
<ul style="list-style-type: none"> <li>• <b>Will any other USDA agency other than FSA be provided knowledge of this information returned from the IRS?</b></li> </ul>	<p>NRCS will be the only other USDA agency that will have knowledge of this information since conservation programs administered by NRCS are subject to the \$1 million average nonfarm AGI for conservation programs.</p>
<ul style="list-style-type: none"> <li>• <b>Will IRS be able to utilize the information for any other purposes and can it be disclosed to any persons or organizations outside of the government?</b></li> </ul>	<p>IRS will only use this information and data for this specified purpose. The data and information utilized for AGI compliance and verification purposes is not subject to disclosure under the Freedom of Information Act (FOIA).</p>

**F Example 2 of Notification Letters for a Legal Entity**

The following is an example of a notification letter for a legal entity. Indications are average AGI limitations exceeded and additional information is requested for FSA review.

(Date)

Legal Entity Name

Dear \_\_\_\_\_:

In an effort to strengthen the integrity and defensibility of USDA Farm Service Agency programs, legal entities that request payments from any farm program — directly or indirectly — are subject to the adjusted gross income (AGI) provisions, which authorizes the IRS to review data and perform calculations to determine if the entity's average adjusted gross income (AGI) exceeds limitation amounts outlined in the 2008 Farm Bill.

Based on our records, a representative provided written consent allowing the IRS to average [*legal entity's name*] AGI for the three applicable tax years and to provide the Commodity Credit Corporation (CCC) information about whether or not the AGI exceeds limitation amounts.

The information received from the IRS indicates that for 2009 program payment eligibility purposes, [*legal entity's name*] average AGI:

\_\_\_\_\_ exceeds the \$500,000 nonfarm AGI limitation for receive commodity, price support or disaster program benefits

\_\_\_\_\_ exceeds the \$750,000 farm AGI limitation for direct payments under the direct and counter-cyclical program, or ACRE program

\_\_\_\_\_ exceeds the \$1 million nonfarm AGI limitation for conservation benefits

FSA will continue to examine AGI certification for eligibility purposes; however, additional information is needed to assist in the review. Please provide one of the following: 1) a signed statement from a CPA or an attorney that verifies that the average AGI did not exceed the applicable AGI limitations; or 2) copies of the complete tax returns that were filed with the IRS for the three years \_\_\_\_\_, \_\_\_\_\_, and \_\_\_\_\_.

To avoid any delay or interruption in program payments and benefits, all requested information must be provided to FSA no later than 30 days from the date of this letter. Information should be mailed to:

Any State FSA Office  
 c/o Ms. Or Mr. Payment limitation specialist  
 1111 Main Avenue  
 Big town, ST 20202

Failure to respond to this notice will result in a determination of ineligibility for all 20XX program benefits.

Thank you for your cooperation.

Ms. or Mr. State Executive Director, or designee

Mr. John Smith  
 S & J LLC  
 N Dusty Road  
 Sometown, NE 98764

Dear Mr. Smith:

The Huskers County FSA Committee has completed the review of the farm operating plan and supporting documentation submitted on behalf of J & S LLC for [year]. The Huskers County FSA Committee understands that J & S LLC is a properly organized limited liability company with 2 interest holders, each owning 50 percent of the entity. Entity interests are identified as follows:

<u>Individual/legal entity</u>	<u>Percent Interest</u>
John Smith	50
Jimmy Jones	50

Based on the information submitted, the Committee determined the following:

- J & S LLC is “actively engaged in farming” and eligible for payments under programs subject to the payment eligibility and payment limitation provisions.
- J & S LLC is restricted to one limitation for payment limitation purposes and payments will be attributed to each stockholder in accordance with the ownership share represented.
- Program payments issued to J & S LLC will be reduced by 50 percent, the interest held by Jimmy Jones. All interest holders in an entity are required to make contributions of active personal labor and/or active personal management to the farming operation. Such activities must be contributed to the farming operation on a regular basis throughout the crop year; identifiable and documentable; and separate and distinct from such contributions of any other interest holder. The failure of an interest holder to meet these requirements results in a reduction in payments commensurate with the ownership interest held by such interest holder in the entity. The CCC-902E farm operating plan submitted for J & S LLC revealed that Mr. Jones did not make any contributions to the farming operation.
- These determinations will remain in effect for the current and subsequent years and a new farm operating plan will not be required unless a change occurs in your farming operation that would affect these determinations.

These determinations are based on the facts as submitted. You are responsible for promptly notifying County FSA Office in writing of any change that would affect these determinations. Any unrevealed circumstances could require the application of a more restrictive rule.

4	Determination of significant contribution. A. Did the producer provide the initial reviewing authority an estimated expense report for the year?  (1) If "YES", verify that the contribution equals as least 50 percent of the estimated expenses.  (2) If "NO", how did the reviewing authority determine that the individual's or entity's contribution was equal to 50 percent of the total capital necessary to conduct the farming operation?  B. Based on the review of the capital represented by the farming operation as qualifying, did the farming operation or individuals meet the requirements for a significant contribution of capital?  (1) If "YES", the farming operation has met its significant "left-hand" contribution.  (2) If "NO", the farming operation has <b>not</b> met the requirements for significant "left-hand" contributions without additional "left-hand" contributions. Go to step 5.	x

B. During the review of the deed and/or title documents, determine whether the land was acquired by "Contract for Deed," "Deed of Trust," "Land Contract," or other similar arrangement.  <b>Note:</b> This is considered to be acquired as a result of a loan.  C. Was this land acquisition guaranteed by, or secured by an individual, entity, or other joint operation, including members, that have an interest in the farming operation?  <b>Note:</b> If "YES", the land cannot qualify as a significant contribution to the farming operation. Document and copy appropriate information:    D. If the landowner provision is used by a joint operation holding title to the land, review the joint operation agreement for dissolution of the operation.  Does this agreement provide that, upon dissolution, the title to the land owned or proceeds from the sale of the land will revert to the individual members according to their respective shares?  <b>Note:</b> If "NO", the landowner provisions cannot be used unless the regional attorney advises that state law provides that, upon dissolution of the joint operation, the land will be sold and the proceeds divided according to each member's share in the joint operation and there is no documentation otherwise.
