Selection must consider contractor integrity, compliance with public policy, record of past performance, and financial and technical resources.
- (5) Records shall be maintained with sufficient detail to document the history of a procurement, including but not limited to the rationale for and method of procurement, the selection of Contract type, contractor selection or rejection, and the basis for the Contract price.
- (6) The Government of the Republic of the Marshall Islands shall use time and material type Contracts only after determining that no other Contract is suitable and if the Contract includes a ceiling price that the contractor exceeds at its own risk.
- (7) The Government of the Republic of the Marshall Islands shall be solely responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurement. These issues include but are not limited to source evaluation, protests, disputes, and claims.
- (8) The Government of the Republic of the Marshall Islands shall have protest procedures to handle and resolve procurement disputes.
- (9) Competition:
 - (i) All procurement transactions shall be conducted in a manner providing full and open competition. Some of the situations considered to be restrictive of competition include but are not limited to: (1) placing unreasonable requirements on firms in order for them to qualify to do business; (2) requiring unnecessary experience and excessive bonding; (3) noncompetitive pricing practices between firms or between affiliated companies; (4) making noncompetitive awards to consultants on retainer; (5) organizational conflicts of interest; (6) specifying a “brand

name" instead of allowing "an equal" product to be offered and describing the performance of other relevant requirements of the procurement; and (7) any arbitrary action in the procurement process.

- (ii) Geographic preferences shall be allowed only if its application leaves an appropriate number of qualified firms to compete in the contract, and if there is no discrimination against race, religion or national origin.
- (iii) Written selection procedures shall govern procurement. These procedures shall ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurement, contain features that unduly restrict competition.
- (iv) The Government of the Republic of the Marshall Islands shall ensure that all pre-qualified lists of persons, firms, or products used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Potential bidders shall not be precluded from qualifying during the solicitation period.

(10) Methods of Procurement:

- (i) Procurement By Small Purchase Procedures. Small purchase procedures are those relatively simple and informal methods for securing services, Supplies, or other property that do not cost more than \$100,000. If small purchase procedures are used, price or rate quotations shall be obtained from an adequate number of qualified sources.
- (ii) Procurement By Sealed Bids. Sealed bids are those bids that are publicly solicited for which a firm-fixed-price Contract is awarded to the lowest bidder who meets all the terms and conditions of the invitation. The sealed bid method is the preferred method for procuring construction, if the conditions of sub-clause (10)(iii) apply.
- (iii) The following conditions shall apply to sealed bidding: (1) a complete, adequate, and realistic specification or purchase description must be available; (2) two or more responsible bidders must be willing and able to compete effectively and for the business; (3) the procurement must lend itself to a firm fixed price contract; and (4) the selection of the successful bidder can be made principally on the basis of price.

- (iv) The following requirements shall apply if sealed bids are used: (1) the invitation for bids shall be publicly advertised, solicited from an adequate number of known suppliers, and provide bidders with sufficient time to respond; (2) the invitation shall include any specifications and pertinent attachments, and define the items or services to allow the bidder to respond properly; (3) all bids shall be publicly opened at the time and place prescribed in the invitation for bids; and (4) a firm fixed-price Contract award shall be made in writing to the lowest responsive and responsible bidder. Any or all bids may be rejected if there is a sound documented reason.

- (v) Procurement By Competitive Proposals. Competitive proposals are normally conducted when more than one source submits an offer for either a fixed-price or cost-reimbursement type contract, and when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements shall apply: (1) requests for proposals shall be publicized and identify all evaluation factors and their relative importance; (2) proposals shall be solicited from an adequate number of qualified sources; (3) the Government of the Republic of the Marshall Islands shall have a method for conducting technical evaluations of the proposals and for selecting awardees; and (4) awards shall be made to the firm whose proposal is most advantageous to the program. Competitive proposals may also be used when price is not a factor but only to procure architectural and engineering services. It cannot be used to purchase other types of services provided by architectural and engineering firms that are a potential source to perform the proposed effort.

- (vi) Procurement By Noncompetitive Proposals. Noncompetitive proposals are procurement through the solicitation of only one source or when competition is determined inadequate after soliciting a number of sources. This method shall be used only when the award of a Contract is infeasible under either procedures for small purchase, sealed bids or competitive proposals, and when one of the following circumstances applies: (1) the item is available only from a single source; (2) public exigency or emergency will not permit a delay resulting from competitive solicitation; or (3) competition is determined to be inadequate after the solicitation of a number of sources. Cost analysis shall be required to verify the proposed cost

data, the projections of the data, and the evaluation of the specific elements of costs and profits.

(11) The cost plus a percentage of cost and percentage of construction cost methods of contracting shall not be used.

(12) United States Review:

(i) The Government of Republic of the Marshall Islands shall make available, upon request of the Government of the United States, technical specifications on proposed procurements.

(ii) The Government of Republic of the Marshall Islands shall make available, upon request of the Government of the United States, pre-award procurement documents, including but not limited to requests for proposals or invitations for bids and independent cost estimates, when: (1) procurement procedures fail to comply with the standards set forth in this section; (2) the procurement is expected to exceed \$100,000 and is to be awarded without competition or only one bid or offer is received in response to a solicitation; (3) the proposed award is more than \$100,000 and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or (4) a proposed Contract modification changes the scope of a Contract or increases the Contract amount by more than \$100,000.

(13) Bonding Requirements. For construction or facility improvement Contracts or sub-Contracts exceeding \$100,000, the Government of the United States may accept the bonding policy and requirements of the Grantee or Sub-Grantee provided the United States determines that its interests are adequately protected. If such a determination has not been made, the minimum requirements shall be as follows:

(i) Bid Guarantee. Each bidder shall guarantee an equivalent of five percent of the bid price pursuant to a bid guarantee that complies with the requirements of this clause (i). The bid guarantee shall consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying the bid as assurance that the bidder will, upon acceptance of his bid, execute such contractual documents as may be required within the time specified.

(ii) Performance Bond. The contractor shall execute a Performance Bond for one hundred percent of the Contract price. A Performance Bond is one executed in connection

with a Contract to secure fulfillment of all the contractor's obligations under such contract.

(iii) Payment Bond. The contractor shall execute a Payment Bond for one hundred percent of the Contract price. A Payment Bond is one executed in connection with a Contract to assure the lawful payment of all persons supplying labor and material in the execution of the contract.

(14) Contract Provisions. All Contracts paid with funds provided pursuant to the Compact, as amended, shall contain the following provisions:

(i) For Contracts in excess of \$100,000: administrative, contractual, or legal remedies in instances where contractors violate or breach Contract terms, and the provision of such sanctions and penalties as appropriate;

(ii) For Contracts in excess of \$100,000: Termination for cause and for convenience by the Grantee or Sub-Grantee including the manner by which it will be effected and the basis for settlement;

(iii) Compliance with the local statutes regarding kickbacks and corrupt practices;

(iv) Access by the Government of the Republic of the Marshall Islands and its Sub-Grantees, the Government of the United States, or any of their duly authorized representatives to any books, documents, papers, and records of the contractor which are directly pertinent to that specific Contract for the purpose of making audit, examination, excerpts, and transcriptions;

(v) Retention of all required records for three years after Grantees or Sub-Grantees make final payments and all other pending matters are closed; and

(vi) Compliance with all applicable standards, orders, or requirements issued under local environmental laws.

(k) Sub-Grants:

(1) The Government of the Republic of the Marshall Islands will follow its laws and procedures when awarding and administering Sub-Grants. The Governments shall ensure that:

(i) Every Sub-Grant includes any clauses required by the Compact, as amended, Grant awards and this Agreement;

- (ii) Sub-Grantees are aware of requirements imposed upon them by the Compact, as amended, Grant awards and this Agreement; and

(b) Construction Performance Reports. Unless otherwise agreed, the Government of the Republic of the Marshall Islands shall submit quarterly performance reports on each project funded pursuant to the Compact, as amended, to the Government of the United States.

(c) Significant Developments. Events may occur between the scheduled performance reporting dates that have significant impact upon a Grant supported activity. In such cases, the Government of the Republic of the Marshall Islands

shall immediately inform the Government of the United States when the following conditions arise:

- (1) Problems, delays, or adverse conditions that will materially impair the ability of the Government of the Republic of the Marshall Islands to meet the terms and conditions of Grant. This disclosure must include a statement of the action taken or contemplated, and any assistance needed to resolve the situation.

Records of contractors or subcontractors are exempt from the requirements of this clause (h).

- (2) Length of Retention. Except as otherwise provided, records must be retained for three years from the date the Government of the Republic of the Marshall Islands submits the final project report to the Government of the United States.
- (3) If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the three-year period, the records shall be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular three-year period, whichever is later.
- (4) Access to Records of the Government of the Republic of the Marshall Islands and Its Sub-Grantees. The Closeout of a Grant does not affect the obligation of the Government of the Republic of the Marshall Islands to return any funds paid in excess of the amount to which it is finally determined to be entitled under the terms of the award. Such an amount shall be deemed to constitute a debt to the Government of the United States. If the amount owed is not repaid within a reasonable period, the Government of the United States may reduce the debt by:

(a) Making an administrative offset against other requests for reimbursement;

(b) Withholding advance payments otherwise due to the Government of the Republic of the Marshall Islands; or
