Definitions for Water Cooler Product Listing Column Headers

Column Header	Definition
ENERGY STAR Partner	An organization that signed a Partnership Agreement with EPA to manufacture or private label ENERGY STAR qualified products.
Brand	An identifier assigned by the manufacturer or private labeler to a product or family/series of products for sales and marketing purposes.
Model Name	An identifier assigned by the manufacturer or private labeler to a product or family/series of products for sales and marketing purposes.
Model Number	A distinguishing identifier, usually alphanumeric, assigned to a product by the manufacturer or private labeler.
Additional Model Information	This column includes for the qualified model or family, family members, additional model names, model numbers and other identifying information associated with a product or family/series of products for sales and marketing purposes. Other identifying information includes, but is not limited to, SKUs, UPC codes, retail numbers, and/or descriptions of models included/not included in the reported Model Family.
Product Type	<p>ENERGY STAR certified water coolers must be one of the following product types:</p> <p>Cold Only Units: These units dispense cold water only and have a refrigeration cycle.</p> <p>Hot and Cold Units: These units dispense both hot and cold water. Some units may have a third room-temperature tap. These units have both an electric resistance heater and a refrigeration cycle.</p> <p>Cook and Cold Units: These units dispense both cold and room-temperature water. These units have a refrigeration cycle</p>
Standby Energy Consumption (kWh/day)	The required energy to maintain cold and/or hot water at appropriate dispensing temperatures with no water being withdrawn.
Date Available on Market	The date that the model is available for purchase.
Date Qualified	The date on which the product was confirmed to meet the ENERGY STAR specification.

Key Efficiency Criteria

Qualified models meet all ENERGY STAR requirements as listed in the Version 1.3 ENERGY STAR Program Requirements for Water Coolers that are effective as of January 22, 2010.

Product Category	Standby Energy Use Under Test Conditions (kW-hours/day)
Cold Only and Cook and Cold Bottled Units	≤ 0.16
Hot and Cold Bottled Units	≤ 1.20
