

Public Notice Submission

Provider Name: Central Texas Telephone Cooperative, Inc.

Summary: Central Texas Telephone Cooperative, Inc. (Central Texas) is a telecommunications provider serving customers in thirteen counties surrounding its Headquarters in Goldthwaite, Texas. Central Texas delivers a full suite of telecommunications services, including high-speed Internet access using a combination of wireline and wireless technology. Central Texas is fully dedicated to serving its customers, as shown by its current level of service and commitment to network upgrades. Central Texas consistently and effectively advertises the availability of its broadband internet access throughout its service area. For example, advertisements for Central Texas' broadband internet access service can be found in local newspapers, on billboards, and on the radio. In conclusion, Central Texas emphasizes the fact that it offers broadband internet access to any customer within its service area. Central Texas' provision and advertising of broadband service, as demonstrated in this detailed filing, coupled with the combined penetration rate of all other local broadband providers, proves that the area covered by Central Texas is well served with broadband Internet access.
