

## **Public Notice Submission**

**Provider Name:** ComSouth Corporation

**Summary:** ComSouth Corporation, through its affiliates, Comsouth Telecommunications, Inc., ComSouth Telenet, Inc. & Valley Cable TV, Inc., offers this response to BTOP applications proposing projects with service areas that overlap its existing service areas. The overlapping service areas occur in the Pinehurst, Fort Valley & Unadilla areas of Georgia. The impacted counties are Pulaski, Peach, Dodge, Mason, Dooly, Bleckley, and Houston. ComSouth Corporation, through its affiliates, offers residential broadband services of up to 12 Mbps in the census tracts indicated in this response form. ComSouth passes 100% of the Community Anchors Institutions ("CAI") in the Census Blocks where the company offers services with multiple spare fibers through which multiple Gigabytes of middle mile transport services could be provided. ComSouth's current middle mile transport services range from T-1s and DS-3s for several factories, cellular towers, governmental offices, banks, long distance providers, etc., to GPON or Active Ethernet of 10Mbps symmetrical Internet access pipes to hospitals and schools. ComSouth also has the ability to offer Gigabytes transport to cellular towers and others when they order it. ComSouth designed its networks with multiple spare fibers to enable Gigabytes of middle mile transport to any CAI, cellular tower, etc.
