

Public Notice Submission

Provider Name: Mark Twain Communications Company

Summary: The Census tracts listed herein are served by Mark Twain and are neither unserved or underserved as defined by the NOFA. Mark Twain responds by providing evidence and supporting documentation to prove that these proposed overlapping areas currently served by Mark Twain are in fact adequately served with copper, wireless and / or fiber optic facilities. All communities and all subscribers in the designated Census tract areas served by Mark Twain have access to adequate and affordable middle mile transport facilities as well as last mile broadband service that exceeds 5 Mbps. As such, the proposed service area contained in the applications that is currently served by Mark Twain should not be eligible for funding according to the rules and regulations.
