

## **Public Notice Submission**

**Provider Name:** Oklahoma Telephone and Telegraph, Inc.

**Summary:** Oklahoma Telephone and Telegraph, Inc. (OT&T) is a telecommunications provider serving part of six counties in central Oklahoma. Headquartered in Dustin, Oklahoma, OT&T connects rural communities with a wide range of telecommunications services, including high-speed Internet access. OT&T is fully dedicated to serving its customers, as shown by its current level of service and commitment to network upgrades. Currently, OT&T is a provider of last resort and offers high-speed broadband internet access to all customers in its service area using Digital Subscriber Line (DSL) over its existing infrastructure, as detailed in the attached filing. OT&T also consistently and effectively advertises the availability of its broadband internet access throughout its service area. In conclusion, OT&T applauds any effort to support the provision of broadband in rural areas, but also asserts that its service territory in Oklahoma is well-served by broadband Internet access as shown by the attached data.
