

Public Notice Submission

Provider Name: Totalcom Communications, LLC

Summary: Totalcom Communications, LLC is a telecommunications provider serving part of five counties in central Texas. Headquartered in De Leon, Texas, Totalcom has connected rural communities for over fifty years, and today delivers a full suite of telecommunications services, including high-speed Internet access. Currently, Totalcom offers broadband internet access to all customers in its service area using Digital Subscriber Line (DSL) over existing infrastructure and advanced wireless technology, as detailed in the attached filing. Totalcom consistently and effectively advertises the availability of its broadband internet access throughout its service area. In conclusion, Totalcom emphasizes the fact that it is a provider of last resort and offers broadband internet access to any customer within its service area. While Totalcom applauds any effort to support rural America, it contends that its areas in central Texas are well served with broadband Internet access as shown by the attached data.
