

Public Notice Submission

Provider Name: Twin Valley Communications

Summary: Twin Valley Communications, Inc. (TVC) is an authorized competitive local exchange carrier (CLEC) in Clay Center, Kansas. TVC provides broadband service at of at least 10 Mbps download and 3 Mbps upload, and up to 100 Mbps, within Clay Center as well as broadband service of least 6.0 Mbps download and 1.0 Mbps upload in the rural areas surrounding Clay Center. In the one year TVC has served this area, it has achieved a significant rate of subscribership for its broadband services. TVC has fiber-to-the-premise infrastructure available to all households, businesses, and anchor institutions in the city of Clay Center. The single hospital in Clay Center, for example, is a TVC customer that subscribes to a 10 Mbps download with 3 Mbps upload broadband service. The company has also deployed, and is operating, a WiMax-based broadband service via licensed 700 MHz spectrum, which extends broadband access to all households and businesses within TVC's territory.
