

Public Notice Submission

Provider Name: Twin Valley Telephone

Summary: Twin Valley Telephone, Inc. (TVT) has served North-central Kansas as an incumbent local exchange carrier (ILEC) for over sixty years. With a state-of-the-art broadband network featuring fiber-to-the-premises (FTTP) and Pair bonded ADSL2+ infrastructure, TVT has the ability to provide broadband services to 100% of the households and businesses within its service territory including all businesses and anchor institutes. In approximately two thirds of its territory, TVT can provide broadband service at speeds of up to 100 Mbps to every household with its FTTP architecture. In the remaining one third of its territory, TVT can provide broadband service at speeds of at least 8 Mbps and up to 40 Mbps. TVT's broadband service has been enthusiastically embraced by its customers, and its rate of broadband subscribership is well in excess of 40%.
