

# HAZARD SURVEYS

*Keeping hazard surveys current during times of change or  
“Catch me if you can”*

## *Panel Members*

*Peter Matonis INL (BEA)*

*Brad Salmonson INL (BEA)*

*Larry Campbell Hanford*

*Randy Havenor Hanford (WCH)*

*Jeff Long ORNL*

*Wayne Davis SRL (WSMS)*

EXPECT THE UNEXPECTED

*May 9, 2007*

# Tracking Hazardous Materials During Times of Change

- **Operational and Organizational Change**
  - Integration of ANL-W with INL
    - Merging two different databases
  - INL & ICP (Idaho Cleanup Project)
    - D&D overtakes R&D construction
  - INL rural to urban movement of HM
    - Low impact at rural location has potential for higher impact in urban areas
  - INL Management Interface
    - Operations Management keeping Emergency Management informed of facility changes

# Tracking Hazardous Materials During Times of Change

- **Regulatory Change**

- DOE O 151.1B vs DOE O 151.1c

- Classifiable events with EALs under 1B now screen out under 1C
- How should these events be handled?
