TRAFFIC VOLUME TRENDS

March 2008

Travel on all roads and streets changed by **-4.3** percent for March 2008 as compared with March 2007. Travel for the month is estimated to be 246.3 billion vehicle miles.

Cumulative Travel for 2008 changed by **-2.3** percent. The Cumulative estimate for the year is 688.7 billion vehicle miles of travel.

Estimated Vehicle-Miles of Travel by Region - March 2008 - (in Billions)
Change in Traffic as compared to same month last year.

Note: All data for this month are preliminary. Revised values for the previous month are shown in Tables 1 and 2.

All vehicle-miles of travel computed with 2006 Table VM-2 as a base.

Compiled with data on hand as of May 12, 2008.

Based on preliminary reports from the State Highway Agencies, travel during March 2008 on all roads and streets in the nation changed by **-4.3** percent resulting in estimated travel for the month at **246.3**** billion vehicle-miles.

This total includes **82.3** billion vehicle-miles on rural roads and **164.0** billion vehicle-miles on urban roads and streets.

Cumulative Travel changed by **-2.3** percent.

Note: Annual travel has been adjusted to match the Highway Performance Monitoring System for 2003. While the adjustment to total travel was less than one percent, rural travel declined 5% and urban travel increased 4% because of this adjustment. The larger changes to rural and urban travel are primarily because of the expansion in urban boundaries reflected in the 2000 census. Travel estimates for 2004 and beyond will also reflect this adjustment.

Travel for the current month, the cumulative yearly total, as well as the moving 12-month total on all roads and streets is shown below. Similar totals for each year since 1983 are also included.

Travel in Millions of Vehicle Miles

All Roads and Streets

Year	March	Year to Date	Moving 12-Month
1983	132,814	364,078	1,611,107

Traffic Volume Trends is a monthly report based on hourly traffic count data. These data, collected at approximately 4,000 continuous traffic counting locations nationwide, are used to determine the percent change in traffic for the current month compared to the same month in the previous year. This percent change is applied to the travel for the same month of the previous year to obtain an estimate of travel for the current month. Because of the limited sample sizes, caution should be used with these estimates. The Highway Performance Monitoring System provides more accurate information on an annual basis.

Note: Where Number of Stations are shown as dashes, the values for the Vehicle-Miles and Percent Change are derived from the estimated VMT based on data from surrounding States or the nationwide average VMT.

* All Estimated roads include travel from Table 3 and 4 plus remaining roads and streets.
