    1 = Male
    2 = Female

The key for ORIGIN is as follows:
    0 = Total
    1 = Not Hispanic

Note: Hispanic origin is considered an ethnicity, not a race. Hispanics may be of any race.

'In combination' means in combination with one or more other races. The sum of the five alone or in combination race groups adds to more than the total population because individuals may report more than one race.

Responses of "Some Other Race" from the 2010 Census are modified. This results in differences between the population for specific race categories shown for the 2010 Census population in this file versus those in the original 2010 Census data. The April 1, 2010 Population Estimates base reflects changes to the 2010 Census population from the Boundary and Annexation Survey (BAS) and other geographic program revisions. It does not reflect changes from the Count Question Resolution program. All geographic boundaries for the 2011 population estimates series are defined as of January 1, 2011.
