

## Social Security Administration's Death Master File: Online Search

With the searchable online SSA Death Master File, you no longer need an IT staff to maintain and update a large database of deaths reported to the SSA. You no longer have to deny your organization the ability to use the Death Master File to verify/validate the death of an individual because of scarce resources. Applications are available to meet your needs, whether you only need a limited number of inquiries or an annual subscription to search for/match hundreds or thousands of names and social security numbers.

These databases are available from the National Technical Information Service. Return your completed order form with payment to NTIS. For questions call the NTIS Subscriptions Department at 1-800-363-2068 or (703) 605-6060.
