

SAFETY

Walkabout

September 17-21, 2012

Q #1 Have you ever seen the Log of Injuries and Illnesses or a summary of the log? If so, did it seem to agree with your knowledge of accidents and illnesses here?

Injury/Illness information is posted each February with information injuries and illnesses provide to employees on a weekly basis through the This Week In Safety Report. Additionally, immediate communication on incidents is provided to all employees through Flash reports and Flash updates. This information is provided additionally through Tailgate communication, discussed at the Plan of the Day meetings, and through shift office notices.

Q #2 Is employee turnover high?

If so, why?

If so, how long does it take a new employee to learn to work safe?

Q #3 Do you think the committee has had an effect on employee awareness of safety and health problems?

If so, describe.

Employees are provided information through the review of the items logged in the EAPC Safety Book. Resolution to these issues has improved worker safety both in the field and in the office environment. Additionally, best management practices to provide uniform and consistent requirements for all employees to follow.

Q #4 Who is responsible for recordkeeping?

The WRPS Safety and Health Department is in charge of injury/illness recordkeeping

Q #5 Do you support the company's participation in the DOE-VPP program?
