

Network Visualization Techniques Using TRANSIMS Output

With new interface programs, TRACC is making the USDOT-developed TRANSIMS (Traffic Analysis and Simulation System) more effective. A one-day interactive event will train users in software and techniques which greatly enhance the ease of TRANSIMS model construction, execution and visualization.

Training Course Agenda

Tuesday, August 24, 2010 West Chicago, IL

- 9:30 AM TRANSIMS Overview
- TRANSIMS Studio Application
- 11:00 AM Coffee
- TransimsVIS Application
- 12:00 PM Lunch Break
- 1:00 PM Live Demos and Interactive Session
- Q/A - Discussion
- 3:00 PM Adjourn

Location

TRACC Collaboratory, Suite 305
 DuPage Airport Authority Flight Center
 2700 International Drive
 West Chicago, IL 60185
 Phone: 630/578-4250
