Individualized Quality Control Plan (IQCP)

CLIA

- Customizes QC Plan for each test in its unique environment
- Optimizes use of electronic/integrated controls
- Offers laboratories flexibility in achieving QC compliance
- Adaptable for future advancements in technology
- Incorporates other sources of Quality Information
- Strengthens Manufacturer/Laboratory partnerships
- Formalizes risk management data already maintained within the laboratory
- Provides equivalent quality testing to meet the CLIA QC regulations

The Right Quality Control
