Background

We typically issue STCs that permit installation on any aircraft of a specific type and model designation. Aircraft compatibility is addressed by the following limitation: "The installer is responsible for determining the compatibility of this STC with other previously approved modifications." Nevertheless there have been installations made on inappropriate aircraft. These inappropriate installations could have been prevented if STC approvals were restricted to a specified baseline aircraft configuration that includes details of the STC physical and functional interfaces with the prototype aircraft.

Applicant's installation drawings or other installation instructions have not always been detailed enough for accurate replication of the design. This is especially true when follow-on STC installations occur at facilities other than that used by the STC holder for the prototype installation.

The STC certification process does not adequately address how to evaluate the compatibility of an STC with other previously installed STCs, major alterations or repairs. We need a more rigorous compatibility evaluation for certain STCs. This proposed policy ensures that the modified aircraft will be airworthy.

Exemption Decision

Under 49 U.S.C. 31315 and 31136(e), the FMCSA may renew an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR Part 381. This notice addresses 12 individuals who have requested renewal of their exemptions in a timely manner. The FMCSA has evaluated these 12 applications for renewal on their merits and decided to extend each exemption for a renewable 2-year period. They are: Woodrow E. Bohley
Curtis N. Fulbright
Martin Postma
Kenneth E. Bross
Richard L. Loeffelholz
Robert G. Rascicot
Charlie F. Cook
Herman C. Mash
Jon H. Wurtele

Russell W. Foster
Frank T. Miller
Walter M. Yohn, Jr.

These exemptions are extended subject to the following conditions: (1) That each individual have a physical exam every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for 2 years unless rescinded earlier by the FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than 2 years from its approval date and may be renewed upon application for additional 2-year periods. In accordance with 49 U.S.C. 31315 and 31136(e), each of the 12 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (64 FR 40404, 64 FR 66962, 66 FR 66969, 64 FR 54948, 65 FR 159). Each of these 12 applicants has requested timely renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past 2 years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, the FMCSA concludes that extending the exemption for each renewal applicant for a period of 2 years is likely to achieve a level of

safety equal to that existing without the exemption.

Comments

The FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). However, the FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by January 12, 2004.

In the past the FMCSA has received comments from Advocates for Highway and Auto Safety (Advocates) expressing continued opposition to the FMCSA's procedures for renewing exemptions from the vision requirement in 49 CFR 391.41(b)(10). Specifically, Advocates objects to the agency's extension of the exemptions without any opportunity for public comment prior to the decision to renew, and reliance on a summary statement of evidence to make its decision to extend the exemption of each driver.

The issues raised by Advocates were addressed at length in 66 FR 17994 (April 4, 2001). The FMCSA continues to find its exemption process appropriate to the statutory and regulatory requirements.

Issued on: December 8, 2003.

Associate Administrator, Policy and Program Development.
