

American Engineering Record (HAER) standard records appropriate for documentation of the bridges are prepared for bridges that are removed, demolished, or are rehabilitated to the point that the historic integrity is affected.

3. For bridges that are to be replaced, the existing bridge is made available for an alternative use, provided a responsible party agrees to maintain and preserve the bridge; and

4. For bridges that are adversely affected, agreement among the NYSDOT, SHPO, and FHWA, is reached through the Canal Agreement, or through procedures individually implementing the NHPA, on measures to minimize harm and those measures are incorporated into the project. This programmatic section 4(f) evaluation does not apply to projects where such an agreement cannot be reached.

Procedures

This programmatic section 4(f) evaluation applies only when the FHWA Division Administrator:

1. Determines that the project meets the applicability criteria set forth above;
2. Determines that all of the alternatives set forth in the findings section have been fully evaluated;
3. Determines by use of the findings in this document that there are no feasible and prudent alternatives to the use of the historic bridge;
4. Determines that the project complies with the Measures to Minimize Harm section of this document;
5. Assures that implementation of the measures to minimize harm is completed;
6. Documents in the project file that the programmatic section 4(f) evaluation applies to the project on which it is to be used and;
7. Insures that the provisions of the Canal Agreement are followed to protect the integrity of the Historic Bridge and Historic Canal System.

Coordination

The Programmatic Agreement concerning Historic Bridges over the Historic Canal System is being

coordinated with the New York State Department of Transportation and the New York State Historic Preservation Officer. Pursuant to section 4(f), this programmatic agreement is being coordinated with the New York State Department of Transportation, the New York State Canal Corporation, and Departments of the Interior, Agriculture, and Housing and Urban Development.

Before applying this programmatic evaluation to projects requiring an individual bridge permit, the District Administrator shall coordinate with the U.S. Coast Guard District Commander.

Issued on January 6, 2003.

SUPPLEMENTARY INFORMATION:

Exemption Decision

Under 49 U.S.C. §§ 31315 and 31136(e), the FMCSA may renew an exemption from the vision requirement in 49 CFR 391.41(b)(10), which applies to drivers of commercial motor vehicles in interstate commerce, for a 2-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for receiving an exemption (including renewals) are set out in 49 CFR Part 381. This notice addresses nine individuals who have requested renewal of their exemptions in a timely manner. The FMCSA has evaluated these nine petitions for renewal on their merits and decided to extend each exemption for a renewable 2-year period. They are:

Timothy J. Bryant	Thomas D. Laws	Clifford C. Priesmeyer.
Robert J. Johnson	Leo L. McMurray	George S. Rayson.
Charles R. Kuderer	Jimmy R. Millage	Gerald R. Rietmann.

These exemptions are extended subject to the following conditions: (1) That each individual have a physical exam every year (a) by an

ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical

examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's

or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for 2 years unless rescinded earlier by the FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than 2 years from its approval date and may be renewed upon application for additional 2-year periods. In accordance with 49 U.S.C. 31315 and 31136(e), each of the nine applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (63 FR 30285, 63 FR 54519, 65 FR 33406, 65 FR 57234, 65 FR 45817, 65 FR 77066), and three of the applicants have previously satisfied the conditions for renewing an exemption (65 FR 66293, 65 FR 77069). Each of these nine applicants has requested timely renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past 2 years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, the FMCSA concludes that extending the exemption for a period of 2 years is likely to achieve a level of safety equal to that existing without the exemption for each renewal applicant.

Comments

The FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). However, the FMCSA requests

that interested parties with specific data concerning the safety records of these drivers submit comments by February 12, 2003.

In the past the FMCSA has received comments from Advocates for Highway and Auto Safety (Advocates) expressing continued opposition to the FMCSA's procedures for renewing exemptions from the vision requirement in 49 CFR 391.41(b)(10). Specifically, Advocates objects to the agency's extension of the exemptions without any opportunity for public comment prior to the decision to renew and reliance on a summary statement of evidence to make its decision to extend the exemption of each driver.

The issues raised by Advocates were addressed at length in 66 FR 17994 (April 4, 2001). The FMCSA continues to find its exemption process appropriate to the statutory and regulatory requirements.
