Background

Eleven individuals have requested renewal of their exemptions from the vision requirement in 49 CFR 391.41(b)(10) which applies to drivers of commercial motor vehicles (CMVs) in interstate commerce. They are Ronnie F. Bowman, Thomas L. Corey, Oskia D. Johnson, Dennis E. Krone, James F. Laverdure, Christopher P. Lefler, David R. Linzy, Richard J. McKenzie, Jr., Kenneth R. Piechnik, Thomas R. Trumpeter, and John C. Vantaggi. Under 49 U.S.C. 31315 and 31136(e), FMCSA may renew an exemption for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.” Accordingly, FMCSA has evaluated the 11 petitions for renewal on their merits and decided to extend each exemption for a renewable 2-year period.

On April 14, 2000, the agency published a notice of final disposition announcing its decision to exempt 34 individuals, including 10 of these applicants for renewal, from the vision requirement in 49 CFR 391.41(b)(10) (65 FR 20251). The qualifications, experience, and medical condition of each applicant were stated and discussed in detail at 64 FR 68195 (December 6, 1999). Two comments were received, and their contents were carefully considered by the agency in reaching its final decision to grant the petitions (65 FR 20251). On November 30, 1999, the agency published a notice of final disposition announcing its decision to exempt 33 individuals, including 1 of these applicants for renewal, from the vision requirement in 49 CFR 391.41(b)(10) (64 FR 66962). The qualifications, experience, and medical condition of each applicant were stated and discussed in detail at 64 FR 40404 (July 26, 1999). Three comments were received, and their contents were carefully considered by the agency in reaching its final decision to grant the

petitions (64 FR 66962). The agency determined that exempting the individuals from 49 CFR 391.41(b)(10) was likely to achieve a level of safety equal to, or greater than, the level that would be achieved without the exemption as long as the vision in each applicant's better eye continued to meet the standard specified in 49 CFR 391.41(b)(10). As a condition of the exemption, therefore, the agency imposed requirements on the individuals similar to the grandfathering provisions in 49 CFR 391.64(b) applied to drivers who participated in the agency's former vision waiver program.

These requirements are as follows: (1) That each individual be physically examined every year (a) by an ophthalmologist or optometrist who attests that vision in the better eye meets the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than 2 years from its approval date and may be renewed upon application for additional 2-year periods. In accordance with 49 U.S.C. 31315 and 31136(e), each of the 11 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (65 FR 20251; 64 FR 68195; 64 FR 66962; 64 FR 40404), and each has requested timely renewal of the exemption. These 11 applicants have submitted evidence showing that the vision in their better eye continues to meet the standard specified at 49 CFR 391.41(b)(10), and that the vision impairment is stable. In addition, a review of their records of safety while driving with their respective vision deficiencies over the past 2 years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for a period of 2 years is likely to

achieve a level of safety equal to that existing without the exemption for each renewal applicant.

Conclusion

In accordance with 49 U.S.C. 31315 and 31136(e), FMCSA extends the exemptions from the vision requirement in 49 CFR 391.41(b)(10) granted to Ronnie F. Bowman, Thomas L. Corey, Oskia D. Johnson, Dennis E. Krone, James F. Laverdure, Christopher P. Lefler, David R. Linzy, Richard J. McKenzie, Jr., Kenneth R. Piechnik, Thomas R. Trumpeter, and John C. Vantaggi, subject to the following conditions: (1) That each individual be physically examined every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for 2 years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Request for Comments

FMCSA has evaluated the qualifications and driving performance of the 11 applicants here and extends their exemptions based on the evidence introduced. The agency will review any comments received concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). While comments of this nature will be entertained at any time, FMCSA requests that interested parties with information concerning the safety records of these drivers submit comments by July 3, 2002. All comments will be considered and will be available for examination in the docket room at the above address.

FMCSA will also continue to file in the docket relevant information which becomes available. Interested persons should continue to examine the docket for new material.

Federal Railroad Administration

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces that the Information Collection Requirement (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden. The **Federal Register** notice with a 60-day comment period soliciting comments on the following collection of information was published on March 27, 2002 (67 FR 14766).

DATES: Comments must be submitted on or before July 3, 2002.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292), or Debra Steward, Office of Information Technology and Productivity Improvement, RAD-20, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6139). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Public Law No. 104-13, section 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to issue two notices seeking public comment on information collection activities before OMB may approve paperwork packages. 44 U.S.C. 3506, 3507; 5 CFR 1320.5,

1320.8(d)(1), 1320.12. On March 27, 2002, FRA published a 60-day notice in the **Federal Register** soliciting comment on ICRs that the agency was seeking OMB approval. 67 FR 14766. FRA received no comments in response to this notice.

Before OMB decides whether to approve this proposed collection of information, it must provide 30 days for public comment. 44 U.S.C. 3507(b); 5 CFR 1320.12(d). Federal law requires OMB to approve or disapprove paperwork packages between 30 and 60 days after the 30-day notice is published. 44 U.S.C. 3507 (b)-(c); 5 CFR 1320.12(d); *see also* 60 FR 44978, 44983, Aug. 29, 1995. OMB believes that the 30-day notice informs the regulated community to file relevant comments and affords the agency adequate time to digest public comments before it renders a decision. 60 FR 44983, Aug. 29, 1995. Therefore, respondents should submit their respective comments to OMB within 30 days of publication to best ensure having their full effect. 5 CFR 1320.12(c); *see also* 60 FR 44983, Aug. 29, 1995.

The summaries below describe the nature of the information collection requirements (ICRs) and the expected burden. The revised requirements are being submitted for clearance by OMB as required by the PRA.

Title: Qualifications for Locomotive Engineers.

OMB Control Number: 2130-0533.

Type of Request: Extension of a currently approved collection.

Affected Public: Businesses.

Form(s): N/A.

Abstract: Section 4 of the Rail Safety Improvement Act of 1988 (RSIA), Public Law 100-342, 102 Stat. 624 (June 22, 1988), later amended and re-codified by Public Law 103-272, 108 Stat. 874 (July 5, 1994), required that FRA issue regulations to establish any necessary program for certifying or licensing locomotive engineers. The collection of information is used by FRA to ensure that railroads employ and properly train qualified individuals as locomotive engineers and designated supervisors of locomotive engineers. The collection of information is also used by FRA to verify that railroads have established the required certification programs for locomotive engineers and that these programs fully conform to the standards specified in the regulation.

Annual Estimated Burden Hours: 202,741.
