Endangered and Threatened Wildlife and Plants; 90-Day Finding for a Petition To List the Northern Goshawk in the Contiguous United States West of the 100th Meridian

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of 90-day petition finding and initiation of status review.

SUMMARY: The U.S. Fish and Wildlife Service (Service) announces a 90-day finding for a petition to list the northern goshawk (*Accipiter gentilis*) in the contiguous United States west of the 100th meridian under the Endangered Species Act, as amended. Due to court remands and the need to complete a thorough status review on this controversial species, the Service has determined that the petition presents substantial information indicating that listing of the northern goshawk (comprising portions of the subspecies *A.g. atricapillus* and *A.g. apache*) as a threatened or endangered species in the contiguous United States west of the 100th meridian may be warranted. The Service initiates a status review for the northern goshawk and will prepare a 12-month finding at the conclusion of the review. Through issuance of this notice,

the Service is requesting additional information regarding the subspecies *A.g. atricapillus* and *A.g. apache* in the western contiguous United States. The Service vacates the previous finding for the same petitioned action dated June 6, 1996.

DATES: Comments and materials related to this petition finding must be received on or before December 29, 1997.

ADDRESSES: Information, comments, or questions concerning this petition may be submitted to the Field Supervisor, Arizona Ecological Services Field Office, U.S. Fish and Wildlife Service, 2321 W. Royal Palm Rd., Suite 103, Phoenix, Arizona 85021. The petition, finding, supporting data, and comments will be available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: Sam Spiller, Field Supervisor (see **ADDRESSES** section) (telephone 602/640-2720).

SUPPLEMENTARY INFORMATION:

Background

Section 4(b)(3)(A) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*) (Act), requires that the Service make a finding on whether a petition to list, delist, or reclassify a species presents substantial scientific or commercial information to indicate that the petitioned action may be warranted. To the maximum extent practicable, this finding is to be made within 90 days of the receipt of the petition (90-day finding), and notice of the finding is to be published promptly in the **Federal Register**. If a finding is made that substantial information was presented, the Service is required to promptly commence a status review of the species involved and determine whether the petitioned action is warranted.

On July 19, 1991, the Service received a petition from Dr. Robin Silver, M.D., Maricopa Audubon Society, Phoenix, Arizona (Silver *et al.* 1991), to list the northern goshawk (*Accipiter gentilis*) as an endangered species in Utah, Colorado, New Mexico, and Arizona with critical habitat. On September 26, 1991, a letter was received by the Service from Mr. Charles Babbitt, Maricopa Audubon Society, and a coalition of conservation organizations (Babbitt *et al.* 1991) requesting to amend the petition already under consideration by the Service. Co-sponsors of this request to amend the previous petition were the Arizona Audubon Council, Southwest New Mexico Audubon Society, Mesilla Valley Audubon Society, Forest Guardians, Friends of the Owls, Greater Gila Biodiversity Project, HawkWatch, Rio Grande
