(NOTE: Employment Cost Index data from June 2009 through September 2010 have been found to contain errors in several data series and will be corrected in the public database available on the BLS website. This news release will not be corrected. The primary errors are in wage and salary data for State and local government public administration. Additional series are subject to correction as well. For further information see: www.bls.gov/bls/eci_corrections_111910.htm.)

EMPLOYMENT COST INDEX – JUNE 2010

Compensation costs for civilian workers increased 0.5 percent, seasonally adjusted, for the 3-month period ending June 2010, the U.S. Bureau of Labor Statistics reported today. **Wages and salaries** (which make up about 70 percent of compensation costs) increased 0.4 percent while **benefits** (which make up the remaining 30 percent of compensation) increased 0.6 percent.

Chart 1. Employment Cost Index, 3-month percent change, seasonally adjusted, civilian workers, compensation, June 2008-June 2010

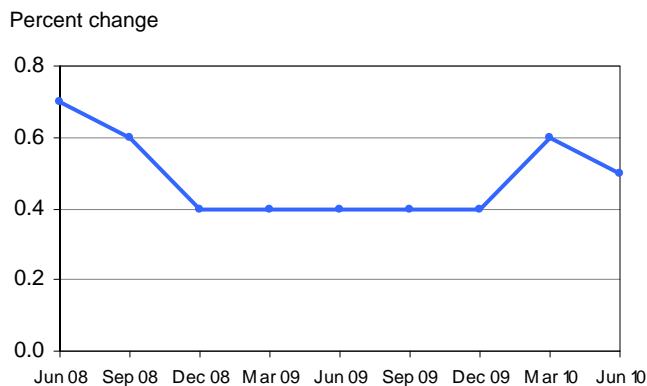

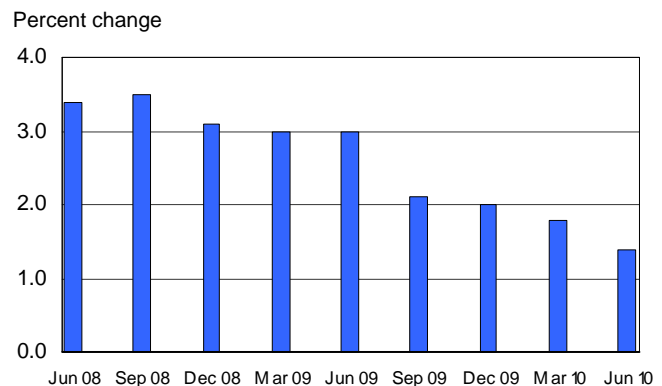

Chart 2. Employment Cost Index, 12-month percent change, not seasonally adjusted, State and local government workers, wages and salaries, June 2008-June 2010

Civilian Workers

Compensation costs for civilian workers increased 1.8 percent for the 12-month period ending June 2010. This was the same as the 12-month period ending in June 2009. **Wages and salaries** increased 1.6 percent for the current 12-month period, compared to a 1.8 percent increase for the 12-month period ending in June 2009. **Benefit costs** rose 2.5 percent, up from a 1.8 percent increase for the 12-month period ending June 2009.

Private Industry Workers

Compensation costs for private industry workers increased 1.9 percent for the 12-month period ending June 2010, higher than the 1.5 percent increase for the 12-month period ending June 2009. The **wage**

and salary series increased 1.6 percent for the current 12-month period, the same as for the period ending June 2009. The cost of **benefits** increased 2.5 percent for the 12-month period ending June 2010, higher than the June 2009 increase of 1.3 percent. Employer costs for **health benefits** rose 5.0 percent for the 12-month period ending June 2010. In June 2009, the 12-month percent change was 4.4 percent.

Among occupational groups, compensation cost increases for private industry workers for the 12-month period ending June 2010 ranged from 1.5 percent for management, professional, and related occupations to 2.3 percent for sales and office occupations. The sales and office increase was primarily due to a 2.9 percent increase among sales and related occupations, which rebounded from a 1.6 percent decrease a year earlier. The other component of sales and office occupations—office and administrative support—increased 2.0 percent.

Among industry supersectors, compensation cost increases for private industry workers for the current 12-month period ranged from 1.0 percent for construction to 2.6 percent for trade, transportation, and utilities.

State and Local Government Workers

Compensation costs for State and local government workers increased 1.8 percent for the 12-month period ending June 2010. Since this series began in June 1982, published values ranged from 2.0 percent in March 2010 to 9.6 percent in June 1982. **Wages and salaries** increased 1.4 percent. This series also began in June 1982. Prior published values ranged from 1.8 in March 2010 to 8.5 percent in June 1982. **Benefit costs** increased 2.6 percent. Prior published values for this series, which began in June 1990, ranged from 1.2 percent in December 1997 to 8.3 percent in June 1990.

The Employment Cost Index for September 2010 is scheduled to be released on Friday, October 29, 2010, at 8:30 a.m. (EDT).

Information in this release will be made available to sensory impaired individuals upon request—

Benefits	0.3	0.9	3.6	3.2	3.2	2.7	2.6

¹ Includes private industry and state and local government.² Includes wages and salaries and benefits.

TECHNICAL NOTE

The Employment Cost Index (ECI) measures the change in the cost of labor, free from the influence of employment shifts among occupations and industries. Detailed information on survey concepts, coverage, and methods can be found in *BLS Handbook of Methods*, Chapter 8, "National Compensation Measures," Bureau of Labor Statistics, on the Internet at www.bls.gov/opub/hom/pdf/homch8.pdf.

Sample size

Data for the June 2010 reference period were collected from a probability sample of approximately 62,800 occupational observations selected from a sample of about 13,200 establishments in private industry and approximately 11,600 occupations from a sample of about 1,800 establishments in State and local governments.

Health insurance data

Data from the ECI that provides 12-month percent changes in employer costs for health insurance in private industry are also available at www.bls.gov/ect/sp/echealth.pdf.

Historical listings

Historical listings that provide all ECI data are available at www.bls.gov/ect/#tables. Included among these listings is one that provides continuous occupational and industry series. This listing uses the Standard Industrial Classification Manual and Census of Population series through 2005 and the North American Industry Classification System and Standard Occupational Classification from 2006 to the present. It provides the official series from the beginning of the ECI in 1975 through the current quarter. For more information on the criteria used in defining continuous series, see the article published in the *Monthly Labor Review* at www.bls.gov/opub/mlr/2006/04/art2full.pdf.

Employer Costs for Employee Compensation data

The costs per hour worked of compensation components, based on data from the ECI, are published in a separate news release titled "Employer Costs for Employee Compensation" (ECEC). The next ECEC release is scheduled for 10:00 AM EDT, Wednesday, September 8, 2010. Historical ECEC data are available in summary documents. Since the ECEC is calculated with current employment weights rather than the fixed weights used in computing the ECI, year-to-year changes in the cost levels usually differ from those in the ECI.

¹ Includes wages, salaries, and employer costs for employee benefits.

² Includes workers in the private nonfarm economy except those in private households, and workers in the public sector, except the federal government.

³ Includes mining, construction, and manufacturing.

⁴ Includes the following industries: wholesale trade; retail trade; transportation and warehousing; utilities; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies and enterprises; administrative and waste services; educational services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; other services, except public administration; and public administration.

⁵ Includes ambulatory health care services and social assistance, not shown separately.

⁶ Includes the following industries: wholesale trade; retail trade;

transportation and warehousing; utilities; information; finance and insurance; real estate and rental and leasing; professional and technical services; management of companies and enterprises; administrative and waste services; education services; health care and social assistance; arts, entertainment and recreation; accommodation and food services; and other services, except public administration.

⁷ Seasonally adjusted indexes and 3-month percent changes for this series are being published for the first time with the 2010 seasonal adjustment revisions. Historical data for this series are published beginning with March 2005.

NOTE: ECI series are reviewed annually for seasonality. Seasonal adjustment was discontinued for the private wholesale trade compensation series as of March 2010, as no identifiable seasonality was found for this series.
