Dear Mr. Pearson:

On October 29, 2004, the Pipeline and Hazardous Materials Safety Administration (PHMSA) issued to Enterprise Products Operating LLC a Corrective Action Order (Order) in the above-referenced case. This Order included a requirement to take corrective actions on their pipeline that Magellan Ammonia Pipeline assumed responsibility for on July 1, 2008, with the acquisition of the system. Based on our review of the documentation you provided, it has been determined that you have complied with the terms of this Order.

Accordingly, this case is now closed and no further action is contemplated with respect to the matters involved in this case. Thank you for your cooperation in this matter.

Sincerely,

David Barrett
Director, Central Region
Pipeline and Hazardous Materials Safety Administration
