Notes

- The low expenditure rate for Mississippi is being impacted by aberrations which usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' ability to correct closed quarterly reports.

Notes

- The low expenditure rate for Kansas is being impacted by aberrations which usually result from errors or adjustments in 9130 reporting for prior periods being corrected in current period reports. They are a result of reporting on a cumulative basis and an ETA policy that limits the States' ability to correct closed quarterly reports.
