

Center for Transportation Analysis
 Research Brief
 Oak Ridge National Laboratory

The Biomass Energy Data Book

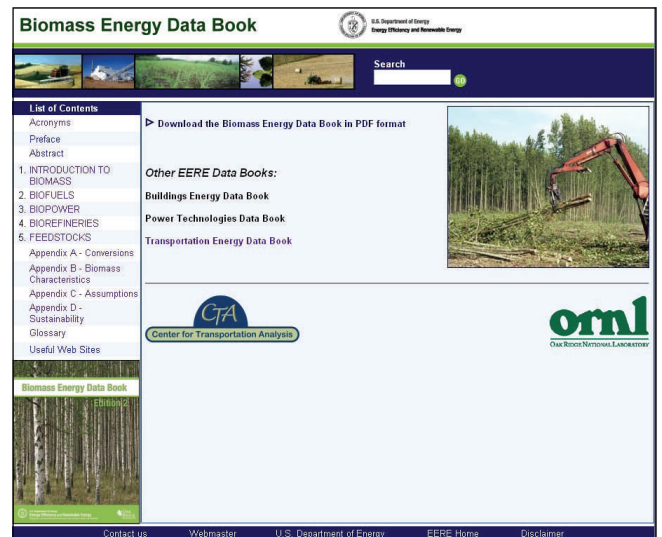

Center for Transportation Analysis
 (CTA) Research Areas

- Aviation Safety
- Air Traffic Management Analysis
- Data, Statistical Analysis
- Geo-Spatial Information Tools
- Defense Transportation
- Energy Policy Analysis
- Environmental Policy Analysis
- Highway Safety
- Intelligent Transportation Systems
- Logistics Management
- Supply Chain Management
- Modeling and Simulation
- Transportation Operations
- Planning and Systems Analysis
- Transportation Security

The *Biomass Energy Data Book* is a statistical compendium prepared and published by Oak Ridge National Laboratory (ORNL) under contract with Energy Efficiency and Renewable Energy (EERE) program of the Department of Energy (DOE). Designed for use as a convenient reference, this book represents an assembly and display of statistics and information that characterize the biomass industry, from the production of biomass feedstocks to their end use. This is the first edition of the Biomass Energy Data Book and is currently available only online in electronic format.

The *Biomass Energy Data Book's* most current electronic version can be found at:
<http://cta.ornl.gov/bedb/>
 and the data are available in Excel or PDF formats.

Patricia S. Hu, Director
 Center for Transportation Analysis
