**Federal Aviation  
Administration**

March 1, 2012

Mr. Ryan Anderson, P.E.  
Design Section Chief  
Northern Region Department of Transportation  
and Public Facilities, State of Alaska  
2301 Peger Road  
Fairbanks, Alaska 99709-5399

Dear Mr. Anderson:

**Allakaket Airport, Allakaket, Alaska  
Airport Layout Plan Conditional Approval  
Airspace Case 1997-AAL-47-NRA**

We have completed our review of the Allakaket Airport Layout Plan (ALP), and find it acceptable from a planning standpoint.

The conditional approval indicated by my signature is given subject to the condition that the proposed airport development that requires environmental processing shall not be undertaken without prior written environmental approval by the FAA.

This approval considers only the safety, utility, and efficiency of the airport. We encourage you to work with appropriate agencies to encourage adoption of height and zoning restrictions.

This approval does not represent a commitment to provide financial assistance to implement the proposed plan. FAA assistance in any development or its approval for any development will be determined at the time of request, based on the existing regulations, project justification, and eligibility at the time of the request.

When airport construction, alteration, or deactivation is undertaken, such action requires FAA notification and review in accordance with the provisions of Part 77 and Part 157 of the Federal Aviation Regulations. In addition, all airport construction must be completed in accordance with FAA Advisory circulars current at the time of construction. Please attach this letter to the enclosed ALP and retain it in your files for future use.

If you have any questions, please contact Matt Freeman at 271-5455.

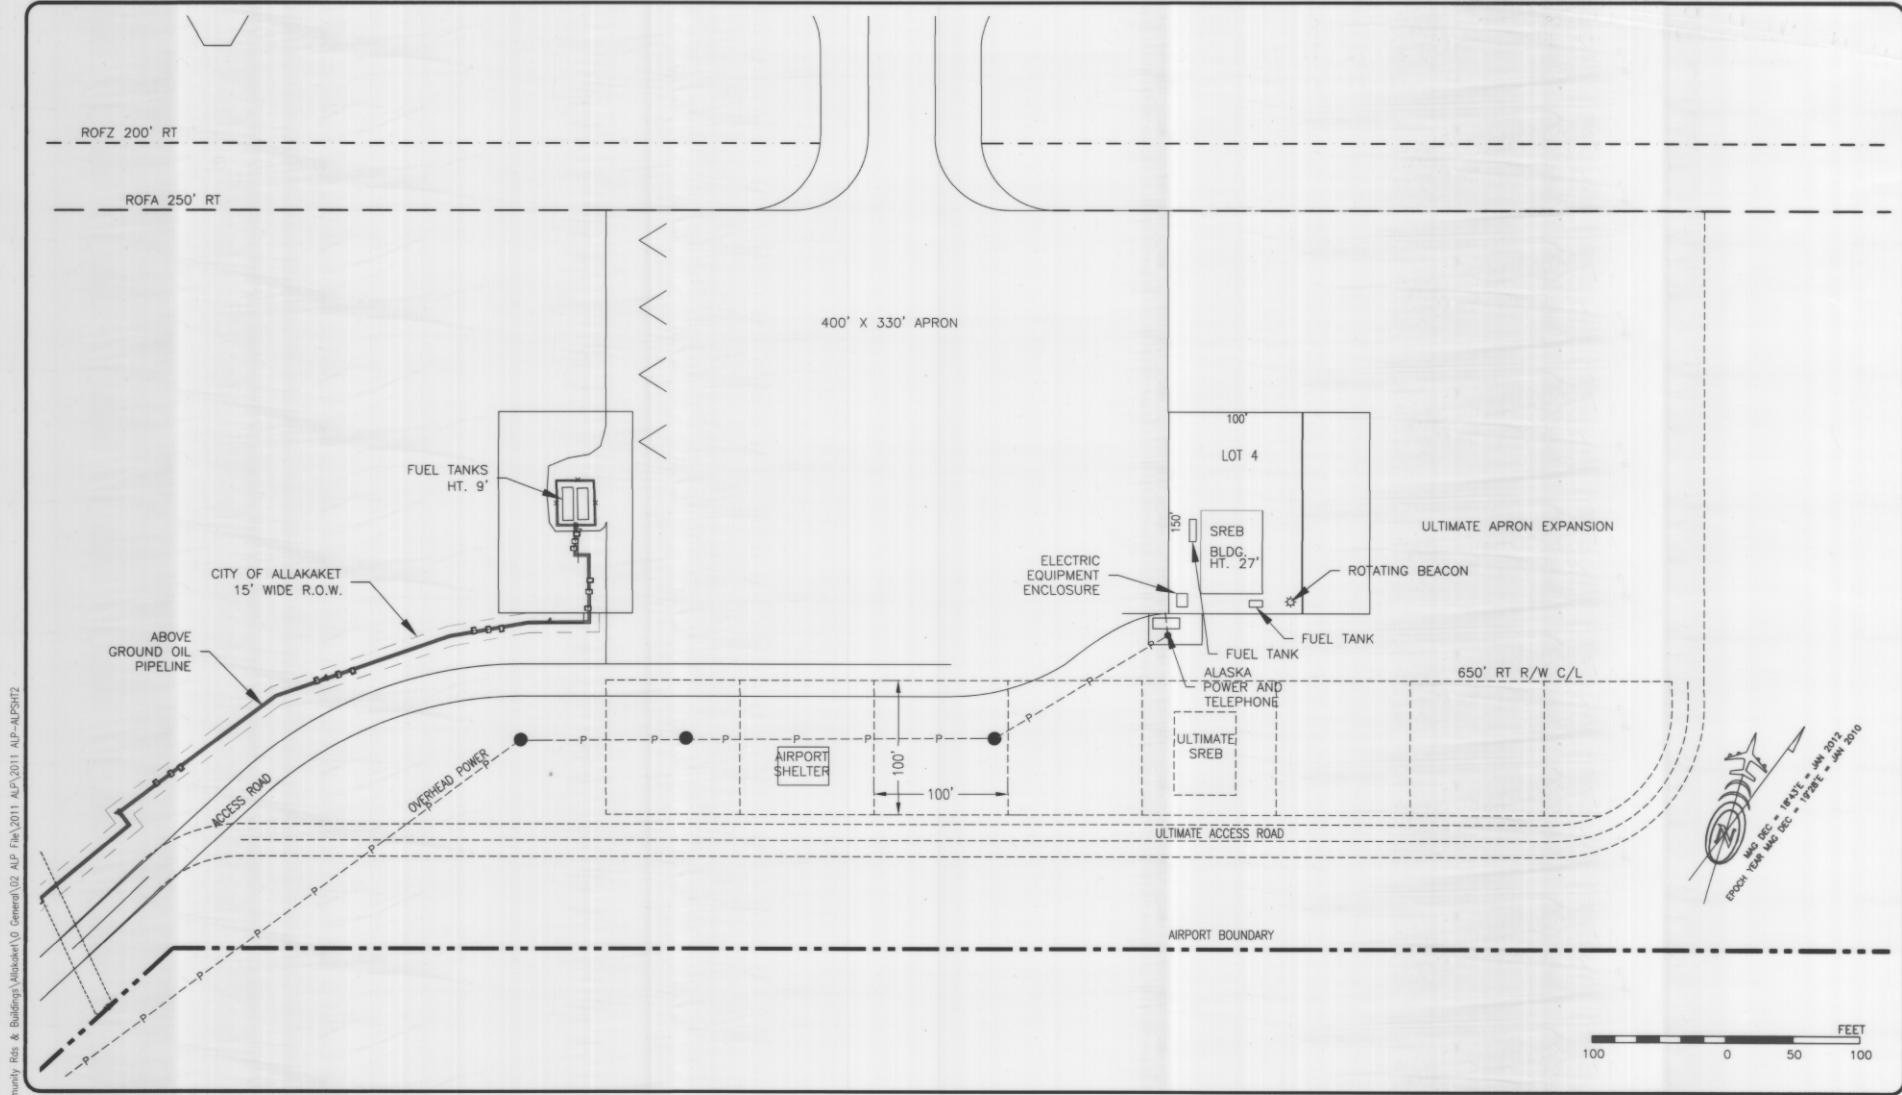

Sincerely,

A handwritten signature in black ink, appearing to read 'J. Lomen', written in a cursive style.

for James W. Lomen, P.E.  
Deputy Division Manager, Airports Division
