

## RAP Meeting Transcribed Flip Chart Notes

February 15, 2012

### Site-wide Permit Workshop

May 3

1. Have “post-workshop” session to discuss HAB next steps
2. Recommend Ecology sponsors & facilitates  
Workshop – Ecology captures notes, but HAB members track issues of concern, too.
3. Web-ex for public when it fits
4. Pre-workshop meeting with HAB issue leaders (potential speakers)

Page 1

---

### 300 Area

#### HAB next steps...

IM & Pam

1. Issue managers meet to review potential issues for HAB/committees
2. Bring back to the committee w/recommended actions, if any
3. March...discuss Proposed Plan Draft A?  
(potential advice for April)

Page 2

---

### CERCLA Next Steps

1. Susan H. work with Jean V. on framing a HAB presentation on CERCLA/Cumulative Risk

### 105 K E Reactor Next Steps

1. IMs (Dick, Harold, Shelley, Bob) → more details about path forward, and characterization, and collection/rerouting of water off roof/condensation, overall design review, plume source/remediation, “75 year” thing

Page 3

---

### VPU Next Steps

1. DOE to come back and brief committee on choice of monolith vs. “chunking out” VPU material

### Barriers Next Steps

- No specific next steps, but use knowledge for future discussions
- Kevin looking to initiate ET primer
- Develop letter regarding workshop for Susan L. to sign (Shelley, Maynard – value received)

Page 4

---

### Follow Up

1. 200-UP 1 Remedy review board:
  - 100-K advice
  - 300 Area advice
  - GW 200 ZP-1
  - Dale Engstrom/Shelley to check for other relevant pieces
  - Also 173/174 (effectiveness vs. cost)

Letter from Susan L. to Dennis by Feb. 26

March 26-28 EPA Review Board

2. Identify framing for site-wide permit TV program (Pam, et al)
3. SW permit IMs flesh out pre-selected topics for 12:30 – 2pm agenda. Touch base with other committees for potential discussion leaders.
