

Integration of Tank Farms/WTP  
IM → Vince

Follow up?

- More detailed topics and how it relates to integration; boil up to policy level

Page 1

---

Washington State's Letter to Energy Secretary Chu

Follow up? Proposed → short advice? Joint PIC

- Openness and transparency
- Tank waste treatment ASAP
  - o Conditioning and blending tanks
- Send to DOJ, OMB
- Ensure schedule allows a WTP that works

Page 2

---

Washington State's Letter to Energy Secretary Chu (cont.)  
Vince, Norma Jean, Susan L.

Proposed advice → not for November Board meeting

- General openness issue
  - Referencing benchmarks and old advice
- Directly addressing State's letter – timely?
- Adequacy of funding to get WTP operational
- Understand consequences of decisions (Steve)
- Baselines?

Page 3

---

Brunson Memo  
Dirk\*, Dick, Vince, Harold

Follow up? → Wait for results of discussion (Samuelson/Brunson). Potential outcome may be policy issue (e.g. independent assessment).

- Interested in Ecology's perspective
- Not very time critical

Page 4

---

DST Integrity/AY-102

IM → Dirk

- Best “value” for tank inspections
- Preserve tanks (prevent corrosion)
- What is plan for emergency pumping AY-102?
  - o Where will they pump it?
  - o Contingency space

Page 5

---

DST Integrity/AY-102 (cont.)

**Advice** → Dirk\*, Rob, David, Shelley, Becky

- Sampling info available in a couple of weeks
- Don't rely on AY-102 to feed WTP
- Need emergency tank space
- Definitive process for if this/then that
- Need contingency tank space and agility to access space
- Maintain current infrastructure and follow own guidelines
- Need margin/volume for retrieval
- Look at and inspect other tanks (Az-101, AZ-102, AY-101, SY-101)
- DST Integrity Review Panel should review these recent events

- Rob draft → Dirk → Hillary send draft Monday
- Call Tuesday

Pages 6/7/8

---

Bin

- Sounding Board for WA letter at next TWC meeting?
- Garnet/Olivine issue (Dick)
- For future advice:
  - o Adequacy of funding to get WTP operational (Vince\*, Norma Jean, Susan L.)
  - o Understand consequence of decisions (Steve, PIC)
  - o Baselines?

Page 9

---

Bin (cont.)

- Independent review of design (Maynard, Dick)

Page 10

---

Bin (cont.) – sticky notes

- IG on 2020 Vision

- Topics joint with RAP:
  - o WESF capsules and concrete damage from radiation
  - o TC&WM EIS → January
  - o Modeling/consistency & methodology
  - o PA Integration (ex: WM Area C)

---

Page 11

Follow up

- Request to Ecology 2 DOE letters referenced in WA State letter discussion
- Put Bechtel response to Brunson Memo on SharePoint
- Can DOE meet NRC's criteria for LAW without pretreatment?
- Send link to Jeff Lyon's presentation
- Send advice flipchart notes to committee

---
