

Constant Dollar, March 2001-December 2012 (December 2005=100)

The estimates from 2001 to 2005 in this listing are not official; they are presented only to aid users in interpreting the industry and occupational classification systems that were introduced in March 2006.

Tables in this listing are numbered to be consistent with the numbering scheme used in the ECI Current-dollar historical listing, 2001 – Current Reference Period (Volume III) and the ECI News Release. Since it is not appropriate to calculate constant-dollar values for seasonally adjusted data, those estimates—which appear in Tables 1-3 of the ECI Current-dollar historical listing and ECI News Release—are not included in this listing.

This is the fourth volume of five historical listings for the Employment Cost Index. The other four are:

- I. Current Dollar, 1975-2005
- II. Constant Dollar, 1975-2005
- III. Current Dollar, 2001-current reference period
- V. Continuous Occupational and Industry Series, September 1975-current reference period

The listings are available at www.bls.gov/ect/#tables

Technical Note

This document provides estimates from 2001 to the present reference month based on the 2007 North American Industry Classification System (NAICS), 2000 and 2010 Standard Occupational Classification (SOC) codes, and 2002 employment weights.

Beginning with estimates for March 2006, the following changes were introduced to the ECI:

- The Standard Industrial Classification (SIC) System was replaced by the North American Industry Classification System (NAICS) for classifying establishments by industry.
- The Occupational Classification System (OCS) was replaced by the Standard Occupational Classification (SOC) for classifying occupations.
- Estimates were weighted to 2002 fixed employment counts. For March 1995 through December 2005, ECI estimates were weighted on 1990 fixed employment counts. A report on the 1990 reweighting, "Introducing 1990 Weights for the ECI," from the June 1995 issue of Compensation and Working Conditions is available upon request.
- The ECI base was changed to December 2005=100. Prior to this, the base was June 1989=100, which was used from March 1990 through December 2005. December 2005=100 indexes were calculated by dividing the June 1989=100 index values for each series by the December 2005 index value for that series and then multiplying by 100. Three- and 12-month percent changes were then calculated from the rebased indexes. These percent changes may differ from those calculated from the June 1989=100 indexes because of rounding. The change to the June 1989=100 base is explained in the technical note, "ECI Rebased to June 1989," in the April 1990 issue of the Monthly Labor Review (bls.gov/opub/mlr/1990/04/rpt1full.pdf).

For more information on these changes, see "Change has come to the ECI" (bls.gov/ect/sp/ecsm0001.htm) and the April 2006

issue of the Monthly Labor Review (bls.gov/opub/mlr/2006/04/contents.htm).

Fixed employment data are not available for the series based on bargaining status, census region and division, and metropolitan area status, and for series excluding incentive paid occupations. Therefore, the employment weights are reallocated within these series for each reference period based on the current ECI sample. The indexes for these series, consequently, are not strictly comparable with those for the aggregate industry and occupational series. A fuller explanation of the calculation of index numbers appears in an article, "Estimation Procedures for the ECI" in the May 1982 issue of the Monthly Labor Review (bls.gov/opub/mlr/1982/05/rpt3full.pdf).

When using the ECI for escalation contracts, users should review the fact sheet "How to Use the ECI for Escalation" (bls.gov/ect/escalation.htm).

Data in this document include corrections to several series for the June 2009 through September 2010 reference periods. Index numbers, 3-month percent changes, and 12-month percent changes were affected. Data in all historical listings, the ECI health benefits data table, ECI standard error tables, seasonal factors, and revised seasonally adjusted indexes tables have been reissued with the corrected data. Also, data in the selective access system at bls.gov/ect/data.htm have been corrected. (For further information, see: bls.gov/bls/eci_corrections_111910.htm.)

More information on the ECI is available from several sources. These include: "National Compensation Measures," in the BLS Handbook of Methods (bls.gov/opub/hom/pdf/homch8.pdf), and several articles published in the Monthly Labor Review (bls.gov/opub/mlr/mlrhome.htm) and Compensation and Working Conditions (bls.gov/opub/cwc/home.htm). These articles, and other descriptive pieces, are also available by calling (202) 691-6199 or sending e-mail to NCSinfo@bls.gov.
